Seismic Hazards of Western Washington and Selected Adjacent Areas
Subject Index

ABERDEEN QUADRANGLE [GRAYS HARBOR, PACIFIC CO.]

HENDERSON, J. R.; TYSON, N. S.; MCGOWAN, E. F.; AND OTHERS, 1958, Aeromagnetic map of the Aberdeen quadrangle, Grays Harbor and Pacific Counties, Washington.

ABERDEEN, WASH. [GRAYS HARBOR CO.]

PREUSS, JANE, 1986, Tsunami and flood hazard preparedness and mitigation program for Aberdeen.

PREUSS, JANE, 1987, Coastal high hazard mitigation —Comprehensive planning for areas vulnerable to tsunamis.

U.S. ARMY CORPS OF ENGINEERS, 1962, Geology.

ACCRETED TERRANES [GENERAL WORKS]

BECK, M. E., JR., 1982, Discordant poles, displaced terranes, and the westward expansion of North America [abstract].

DAVIS, G. A.; MONGER, J. W. H.; BURCHFIEL, B. C., 1978, Mesozoic construction of the cordilleran "collage," central British Columbia to central California.*

ENGEBRETSON, D. C.; DEBICHE, MICHEL; COX, A. V., 1984, Plate motions, paleomagnetism, and terrane displacement histories.

FOX, K. F., JR., 1983, Melanges and their bearing on late Mesozoic and Tertiary subduction and interplate translation at the west edge of the North American plate.

WHEELER, J. O., 1984, Columbian and Pacific orogens revisited.

ZEN, E-AN, 1985, Implications of magmatic epidote-bearing plutons on crustal evolution in the accreted terranes of northwestern North America.

ACCRETED TERRANES - BRITISH COLUMBIA

BROWN, E. H., 1987, Structural geology and accretionary history of the northwest Cascades system, Washington and British Columbia.

DANNER, W. R., 1982, Mesozoic sedimentation, plate tectonics and sedimentary mineral deposits of southwestern British Columbia and northwestern Washington [abstract].

DANNER, W. R., 1985, Tethyan exotic terrane in British Columbia and Washington State [abstract].

MONGER, J. W. H.; PRICE, R. A.; TEMPELMAN-KLUIT, D. J., 1982, Tectonic accretion and the origin of the two major metamorphic and plutonic welts in the Canadian Cordillera.

PACHT, J. A., 1980, Sedimentology and petrology of the Late Cretaceous Nanaimo Group in the Nanaimo Basin, Washington and British Columbia—Implications for Late Cretaceous tectonics.

ACCRETED TERRANES - OFFSHORE AREAS

COWAN, D. S., 1981, Structural styles in Mesozoic melanges along the Pacific margin of North America and their relation to subduction tectonics [abstract].

DRAKE, E. T., 1981, Robert Hooke and the foundation of geology—A comparison of Steno and Hooke and the Hooke imprint on the Huttonian theory; The tectonic evolution of the Oregon continental margin—Rotation of segment boundaries and possible space-time relationships in the central High Cascades.*

DRUMMOND, K. J.; AND OTHERS, 1981, Plate-tectonic map of the circum-Pacific region, northeast quadrant.

INGERSOLL, R. V., 1981, Triple-junction instability as cause for late Cenozoic extension and fragmentation of western United States [abstract].

MCCLAIN, K. J., 1981, A geophysical study of accretionary processes on the Washington continental margin.*

SILVER, E. A., 1972, Pleistocene tectonic accretion of the continental slope off Washington.

SNAVELY, P. D., JR., 1985, Sixty million years of growth along the Oregon continental margin.

ACCRETED TERRANES - OREGON

DUNCAN, R. A., 1982, A captured island chain in the coast range of Oregon and Washington.*

DRAKE, E. T., 1981, Robert Hooke and the foundation of geology—A comparison of Steno and Hooke and the Hooke imprint on the Huttonian theory; The tectonic evolution of the Oregon continental margin—Rotation of segment boundaries and possible space-time relationships in the central High Cascades.*

SNAVELY, P. D., JR., 1985, Sixty million years of growth along the Oregon continental margin.

ACCRETED TERRANES - WASHINGTON - CASCADE MOUNTAINS

BECK, M. E., JR.; BURMESTER, R. F.; SCHOONOVER, RUTH, 1981, New paleomagnetic results from the Mt. Stuart batholith of west-central Washington and the question of tectonic transport of batholiths [abstract].

BROWN, E. H., 1987, Structural geology and accretionary history of the northwest Cascades system, Washington and British Columbia.

DANNER, W. R., 1982, Mesozoic sedimentation, plate tectonics and sedimentary mineral deposits of southwestern British Columbia and northwestern Washington [abstract].

DANNER, W. R., 1985, Tethyan exotic terrane in British Columbia and Washington State [abstract].

FRIZZELL, V. A., JR.; TABOR, R. W.; ZARTMAN, R. E.; JONES, D. L., 1982, Mesozoic melanges in the western Cascades of Washington [abstract].

PACHT, J. A., 1980, Sedimentology and petrology of the Late Cretaceous Nanaimo Group in the Nanaimo Basin, Washington and British Columbia—Implications for Late Cretaceous tectonics.

ROSS, C. A.; ROSS, J. R. P., 1983, Late Paleozoic accreted terranes of western North America.

TABOR, R. W.; BOOTH, D. B., 1985, Folded thrust fault between major melange units of the western north Cascades, Washington, and its relationship to the Shuksan thrust [abstract].

TABOR, R. W.; ZARTMAN, R. E.; FRIZZELL, V. A., JR., 1982, Possible accreted terranes in the north Cascades crystalline core, WA [abstract].

ACCRETED TERRANES - WASHINGTON - OLYMPIC PENINSULA

BECK, M. E., JR., 1981, Paleomagnetism of small basalt exposures in the west Puget Sound area, Washington, and speculations on the accretionary origin of the Olympic Mountains [abstract].

BECK, M. E., JR.; ENGEBRETSON, D. C., 1982, Paleomagnetism of small basalt exposures in the west Puget Sound area, Washington, and speculations on the accretionary origin of the Olympic Mountains.

DUNCAN, R. A., 1982, A captured island chain in the coast range of Oregon and Washington.

EINARSEN, J. M.; ENGEBRETSON, D. C., 1987, Constraints on the origin and travel of the Crescent and Siletz terranes from plate kinematics [abstract].

FAIRCHILD, L. H.; ARMENTROUT, J. M., 1984, Evidence for the late Eocene accretion of peripheral rocks of the Olympic Peninsula, Washington [abstract].

RAU, W. W., 1987, Melange rocks of Washington's Olympic coast.

ROBERTS, T. H.; ENGEBRETSON, D. C., 1987, Geophysical investigations of the Crescent terrane—North America boundary, northeastern Olympic Peninsula, Washington [abstract].

ACCRETED TERRANES - WASHINGTON - SAN JUAN ISLANDS

DANNER, W. R., 1982, Mesozoic sedimentation, plate tectonics and sedimentary mineral deposits of southwestern British Columbia and northwestern Washington [abstract].

DANNER, W. R., 1985, Tethyan exotic terrane in British Columbia and Washington State [abstract].

GARVER, J. I., 1986, Great Valley group/Coast Range ophiolite fragment in the San Juan Islands of WA [abstract].

JOHNSON, J. G., 1983, Early Paleozoic Cordilleran biofacies, provinces, and realms.

PACHT, J. A., 1980, Sedimentology and petrology of the Late Cretaceous Nanaimo Group in the Nanaimo Basin, Washington and British Columbia—Implications for Late Cretaceous tectonics.

ROSS, C. A.; ROSS, J. R. P., 1983, Late Paleozoic accreted terranes of western North America.

Acoustic surveys, see GEOPHYSICS - ACOUSTICS AND ACOUSTIC SURVEYS

ADMIRALTY TILL

OTHBERG, K. L., 1977, Admiralty till (Pleistocene), or the rise and fall of a rock stratigraphic name.

ADNA QUADRANGLE (LEWIS CO.)

BROMERY, R. W., 1962, Aeromagnetic and gravimetric interpretation of the geology of the Malone, Rochester, Pe Ell, and Adna quadrangles, Pacific, Lewis, Grays Harbor, and Thurston Counties, Washington.*

HENDERSON, J. R.; TYSON, N. S.; MCGOWAN, E. F.; AND OTHERS, 1958, Aeromagnetic map of the Adna quadrangle, Lewis County, Washington.

Aerial photography, see REMOTE SENSING

Airports, see ENGINEERING GEOLOGY - PORT FACILITIES

ALDERTON FORMATION (PIERCE CO.)

ROLAND, J. L., 1983, A paleomagnetic age investigation of pre-Salmon Springs Drift Pleistocene deposits in the southern Puget Lowland, Washington.

WALTERS, K. L.; KIMMEL, G. E., 1968, Ground-water occurrence and stratigraphy of unconsolidated deposits, central Pierce County, Washington.

ALDWELL FORMATION (CLALLAM, JEFFERSON CO.)

BROWN, R. D., JR., 1971, Evidence for thrust faulting in northern Olympic Peninsula, Washington; Discussion.

MARCOTT, KEITH, 1984, The sedimentary petrography, depositional environment and tectonic setting of the Aldwell Formation, northern Olympic Peninsula, Washington.

CENOZOIC

Note: In this section, the headings are given in geologic era order rather than in alphabetic order:

CENOZOIC
CENOZOIC - QUATERNARY
CENOZOIC - TERTIARY
CENOZOIC - TERTIARY - NEOGENE
CENOZOIC - TERTIARY - PLIOCENE
CENOZOIC - TERTIARY - MIOCENE
CENOZOIC - TERTIARY - PALEOGENE
CENOZOIC - TERTIARY - OLIGOCENE
CENOZOIC - TERTIARY - EOCENE
CENOZOIC - TERTIARY - PALEOCENE

These headings are then subdivided by subject and(or) geography, as appropriate.

CENOZOIC [ENTIRE ERA; GENERAL WORKS]
