Summary of Comments and Responses (if applicable):

Comment: Washington Department of Fish and Wildlife (WDFW) has stated that it would like to see harvest operations scheduled to minimize "road use conflicts" with hunting season due to heavy hunting use.

Response: Approximately 80% of the timbersale will be hauled on non-Green Dot Roads (no public vehicle access). Only a short segment of less than .5 miles of the Morrison Road will have regular haul throughout the timbersale term and it is a contract requirement that the road be maintained and cannot be blocked. The harvest contract is timed to end hauling by the 15th of October. Overall there should be minimal impact to hunting and recreation use.
