DETERMINATION OF NONSIGNIFICANCE

Description of proposal: The proposed project would increase the mineral extraction and mining-related disturbance area within a currently permitted mine (DNR Surface Mine Reclamation Permit #70-012730). Additionally, the total permit acreage will decrease from 60 acres to 57.4 acres. The site will be reclaimed to pastureland with a pond.

The previous SEPA review was withdrawn to correct discrepancies between onsite conditions and information included in the application. Form SM-8a and the maps have been updated to list the total area to be disturbed as 48 acres.

Proponent: John Bredfield DBA L Rock Industries, Inc.

Location of proposal, including street address, if any: The site is located at 451 Mandy Road, Toledo, WA within a portion of Sections 26 and 27, Township 11 North, Range 2 West, Willamette Meridian, in Lewis County.

Lead agency: Department of Natural Resources

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21c.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

There is no comment period for this DNS

This DNS is issued under 197-11-340(2); the lead agency will not act on this proposal for 14 days from September 26, 2023. Comments must be submitted by October 10, 2023.
