Subject: Invitation to Bid and Test Harvest for the Geoduck Auction on May 1, 2013

Dear Sir/Madam:

The Washington State Department of Natural Resources (DNR) will conduct a sealed bid auction for twelve (12) quotas for the non-exclusive right to purchase and harvest sub-tidal geoduck on May 1, 2013 at 10:00 a.m. in room 172 on the first floor of the Natural Resources Building in Olympia. The auction date is subject to change to meet the legal advertising and SEPA time requirements.

The term of these Harvest Agreements is June 24, 2013 to October 9, 2013. Please see the enclosed documents for information on the location, harvest information, and auction process.

Questions regarding the auction, contracts, test harvest and harvest should be directed to the Shellfish Program Business Manager, Carol Cloen (360-902-1098, carol.cloen@dnr.wa.gov).

Sincerely,

Carol Cloen

Carol Cloen

Attachment B Harvest Information

Condition

Washington DNR makes no representation as to the volume of geoduck, their quality, or the condition of the Harvest Areas. Bidders may conduct a Test Harvest on the dates shown below. Attachment A shows maps of the Harvest Tracts with shallow and deep-water boundaries.

Test Harvest Registration

Registration for Test Harvests is on a first-come, first-served basis for no more than ten (10) companies with a single vessel each. For reservations and/or a copy of the Harvest Agreement, call the Shellfish Program Business Manager Carol Cloen at 360-902-1098 between 8:00 a.m. Wednesday April 17, 2013 and 4 p.m. Thursday April 18, 2013.

Test Harvest Procedure

Only one diver at a time may harvest from each vessel. Test Harvests for each participant are limited to a maximum of five hundred (500) pounds per tract, valued at fifteen dollars (\$15.00) per pound. If any participant exceeds the limit, the value for the additional poundage will be thirty dollars (\$30.00) per pound. Payment shall be made with a check payable to "Washington State Department of Natural Resources" before the vessel leaves the tract on the day of the Test Harvest.

Test Harvest vessels shall check-in and out with the DNR compliance vessels on-site prior to and after the Test Harvest. Harvesters shall provide:

- Geoduck Diver License,
- Wholesale Fish Dealer License,
- Washington State Business license,
- Vessel insurance, and
- Washington Department of Health Certifications.

Test Harvest Date	Harvest Area	Tract Number
April 23, 2013	Manzanita	07000
April 24, 2013	Restoration Point	07850
April 25, 2013	Port Gamble	20000
April 30, 2013	Vinland	20750

Harvest Period

The term for these Harvest Agreements is June 24, 2013 to October 9, 2013. Operations will be conducted per the following schedule:

- Manzanita - June 24 to July 31, 2013.
- Restoration Point - August 5 to September 18, 2013.
- Port Gamble - September 23 to October 9, 2013.
- Vinland - September 23 to October 9, 2013.

Attachment C Auction Process

Please note that all auctions are videotaped, with the recordings saved as part of the public record.

Auction Time	Quota Number	Harvest Area	Harvest Ceiling (pounds)	Minimum Bid per Pound

1:40	12	Manzanita	24,825	\$4.50
		Restoration	26,894	
		Port Gamble	8,635	
		Total	51,719	

Bids

Washington DNR economists set the amount for the minimum bid per pound. At the auction, Bidders shall complete Bid forms, add a certified or cashier's check for a Bid Deposit of one hundred thousand dollars (\$100,000.00), place the documents in a sealed envelope, and write "Geoduck Auction", the number of the quota the bid is for, and the name of the bidder on the envelope.

Please note: Washington DNR has implemented a new bid form. The form is included with this document and must be used for all upcoming auctions.

Bid Deposits

Washington DNR will retain Bid Deposits for successful high bids as a deposit for the remainder of the Bonus Bid, which is due no later than May 15, 2013. Each company shall maintain a performance bond of \$80,000 for each quota purchased.

For tying bids, each bidder may submit an additional Bonus Bid. At the completion of the quota auction, DNR will award the quota to the highest bid greater than or equal to the original bid amount.

Highest Responsible Bidders

To determine the "Highest Responsible Bidder", DNR considers price as well as the following from [RCW 79.140.060](#):

- The financial and technical ability of the bidder to perform the contract;
- Whether the bid contains material defects;
- Whether the bidder has previously or is currently complying with terms and conditions of any other contracts with the state or relevant contracts with other entities;
- Whether the bidder was the Highest Responsible Bidder within the previous five years but failed to complete a sale, which includes not entering into a resulting contract or not paying the difference between the deposit and the total amount due.

- Whether the bidder was convicted of a crime relating to the public lands or natural resources of the state of Washington, the United States, or any other state, tribe, or country. "Conviction" includes a guilty plea, or an un-vacated forfeiture of bail;
- Whether the bidder is owned, controlled, or managed by any person, partnership, or corporation that is not responsible under the statute above; and
 - Whether any subcontractors of the bidder are responsible under the above statute.
 - Whenever the department has reason to believe that the apparent high bidder is not a responsible bidder, the department may award the sale to the next responsible bidder or the department may reject all bids ([RCW 79.140.080](#))

Bid packets

At the conclusion of the auction for each quota, DNR will supply High Bidders with Bid Packets to complete and return by May 15, 2013 along with a \$25 processing fee, the remaining Bonus Bid, and proof of insurance and performance bond. Failure to return the completed packet by that date constitutes a material defect in the bid as described above, and DNR will reject the bid and the bidder will forfeit the Bid Deposit.

If DNR finds a bidder not responsible or the bidder defaults on the bid, the agency may, at its discretion, re-auction the quota or offer it to the second highest bidder. The second highest bidder must then complete and return the Bid Packet, \$25 processing fee, the remaining Bonus Bid, and proof of insurance and performance bond within ten (10) days.

Washington DNR will certify Responsible Highest Bidders within five (5) days of the receipt of the completed Bid Packet. Failure to provide DNR signed and notarized Harvest Agreements within five (5) days of their receipt will constitute a breach of contract and bid default.

Harvest Agreement Execution

Copies of the Harvest Agreements are available at the auction or in advance from the Shellfish Program Business Manager at carol.cloen@dnr.wa.gov. Washington DNR has up to seven (7) business days to process and sign Harvest Agreements from the time it receives the signed and notarized agreement from the Highest Responsible Bidder. The Bidder may not harvest until DNR executes the agreement with the signature of the appropriate authority for the agency.

To: Potential Geoduck Purchasers
Subject: Invitation to Bid and Test Harvest for the Geoduck Auction on May 1, 2013

Dear Sir/Madam:

A mathematical error was discovered in the total quota pounds for the May 1st Geoduck Auction. The correct poundage for all twelve (12) quotas is 60,354, **not** 51,719. All other terms and conditions of the Invitation to Bid and the auction remain unchanged.

Questions regarding the auction, contracts, test harvest and harvest should be directed to the Shellfish Program Business Manager, Carol Cloen (360-902-1098, carol.cloen@dnr.wa.gov).

Sincerely,

Carol Cloen

To: All Members of the Geoduck Industry and Prospective Bidders

Subject: Change in May Geoduck Auction

Dear Sir/Madam:

Due to scheduling conflicts, the Washington State Department of Natural Resources (DNR) has changed the date of our upcoming geoduck auction from May 1, 2013 to Thursday May 16, 2013. Additional changes are as follows:

Test Harvest

The dates for the test harvest and test harvest registration have also been pushed back. Test harvest registration will be 8 a.m. May 1, 2013 to 4 p.m. May 2, 2013, with the test harvest dates as follows.

Test Harvest Date	Harvest Area	Tract Number
May 7, 2013	Manzanita	07000
May 8, 2013	Restoration Point	07850
May 9, 2013	Port Gamble	20000
May 14, 2013	Vinland	20750

Bonus Bids

Due to uncertainty surrounding ongoing paralytic shellfish poisoning (PSP) closures on Manzanita, DNR not require submission of the portion of the bonus bid applicable to Manzanita until seven (7) days after a single clean PSP sample. This applies **only** to the portion of the bonus bid applicable to Manzanita.

All other information pertaining to the auction remains the same. Questions regarding the auction, contracts, test harvest and harvest should be directed to the Shellfish Program Business Manager, Carol Cloen (360-902-1098, carol.cloen@dnr.wa.gov).

Sincerely,
Carol Cloen
