II. APPLICANT INFORMATION cont'

Department of Revenue Tax *Registration Number (Unified Business Identifier) is **Required: 91-0374630**

Which of the following applies to Applicant (**Check One** and **Attach written authority to sign** - bylaws, power of attorney, etc):

Corporation <input checked="" type="checkbox"/> State of Registration: WA	Limited Partnership <input type="checkbox"/> State of Registration:	General Partnership <input type="checkbox"/> State of Registration:
------------------------------------------------------------------------------	------------------------------------------------------------------------	------------------------------------------------------------------------

Sole Proprietorship <input type="checkbox"/>	Marital Community Spouse: <input type="checkbox"/>	Government Agency <input type="checkbox"/>
----------------------------------------------	----------------------------------------------------	--------------------------------------------

Other (Please Explain:)

Has the site use been authorized before or is it currently under lease? Yes Lease Number:

Existing main encased within bridge under municipal ROW Franchise No Don't Know

III. LOCATION

The Body of Water on which the state property is located: GREEN RIVER	County in which the state property is located: KING	Government Lot: 8
	Section: 08	Township: 21N
	Range: 05	E <input checked="" type="checkbox"/> or W <input type="checkbox"/>

Note: A legal property survey including the legal description and other information about the property is **required** to obtain a use authorization. WA DNR survey requirements are attached to this form. The survey plat will be attached to the lease/easement as Exhibit A. **DO NOT HAVE THIS SURVEY CONDUCTED UNTIL YOU HAVE BEEN NOTIFIED IN WRITING THAT THE APPLICATION HAS BEEN ACCEPTED FOR PROCESSING.**

Physical description of Project Area (For example, Marsh, Tideflat adjacent to the Chehalis River, etc.):

LEA HILL BRIDGE CROSSING THE GREEN RIVER BETWEEN R STREET NE & 102ND AVE SE, AUBURN. Work to be on the bridge itself as well as on the bridge approaches.

Name of Owner(s) of Uplands, Shorelands, and/or Tidelands shoreward and adjacent to the Property:

Address:	City:	State:	Zip Code:
----------	-------	--------	-----------

Phone Number:	Fax Number:	E-mail:
---------------	-------------	---------

Note: Except for property located within established Harbor Areas, proof of ownership, or authorization to use the adjacent tideland, shoreland, or upland property may be required. If the applicant is the owner of the adjacent land, attach a copy of the deed.

County Parcel No(s). for adjacent properties, upland, and/or adjacent tideland properties:

IV. USE OF PROPERTY

Describe, in detail, the proposed use of the Property:

The existing natural gas main was installed inside the box girder on the bridge inside a steel casing. The existing main is now in contact with the casing which has created a short in the cathodic protection system and per agreements with the WUTC needs to be replaced. The proposed project will attach a new 8" natural gas main on the north side of the bridge to replace the existing 6". The new main will need to be installed and gassed up prior to the old main being retired in place.

Is or will the Property be subleased to another party? Yes No

If yes, submit a copy of the sublease agreement.

What are the current and past uses of the site? **BRIDGE FOR VEHICLE TRAFFIC**

Do you have any knowledge of contamination of the site by toxic or hazardous substances, or of past uses or practices that might have lead to contamination by such substances? Yes No

If so, please explain:

Do you know if any fill material has been placed on the property in question? Yes No

If yes, please explain: **During the original bridge construction the construction sequencing would have required osm fill material to be placed on the bridge approaches.**

V. IMPROVEMENTS

Physical improvements are structures placed on the land that cannot be removed without damage to the land. Examples of such structures include: pilings, dolphins, piers, wharves, piling-supported buildings, structures built on fill or concrete foundations, buried pipelines and cables, and support structures for bridges.

What physical improvements currently exist on the site? (Photos may be required.) **The existing Lea Hill Bridge.**

If there are physical improvements currently on the site, who owns them? **UNKNOWN**

If there are physical improvements currently on the site, describe their condition: **The current bridge is in good condition with no known plans for replacement.**

Which, if any, of the existing physical improvements will be removed, remodeled, or reconstructed? **The existing natural gas main will be retired in place. The existing bridge will have new anchors installed to attach the new natural gas main.**

Describe any physical improvements that the applicant is proposing to construct on the site: **A new 8" steel wrap natural gas main will be installed on the north side of the existing bridge.**

Has any fill material been placed on the site? Yes No

If Yes, please describe:

See above.

VI. LOCAL, STATE, AND FEDERAL REGULATORY PERMITS Copies of all Government Regulatory Permits, or Permit Waivers Are Required Before Issuance of a DNR Use Authorization. Your project may require all or some of the following.

Please include the following permit applications, permits, or waivers with the application:

JARPA (Joint Aquatic Resource Permit Application) - This one form is used to apply for all of the following individual permits:

1. Section 10 Permit (Required by the US Army Corps of Engineers for any work in or affecting navigable waters, e.g., floats, docks, piers, dredging, pilings, bridges, overhead power lines.)
2. Shoreline Substantial Development, Conditional Use, Variance Permit or Exemption (Issued by Local Government, and is required for work or activity in the 100 year flood plain, or within 200 feet of the Ordinary High Water mark of certain waters; and which included any one of the following: dumping, drilling, dredging, filling, placement or alteration of structures or any activity which substantially interferes with normal public use of the waters.)
3. Hydraulic Project Approval (Required by the Department of Fish and Wildlife if the project includes work that will use, divert, obstruct, or change the natural flow or bed of any fresh or salt water of the state.)
4. Section 404 Permit (Required by the US Army Corps of Engineers if your project will discharge or excavate any dredged or fill material waterward of the Ordinary High Water mark or the Mean Higher High Tide Line in tidal areas.)
5. Section 401 Water Quality Certification (Required by the Department of Ecology if a Section 404 permit is required.)

NPDES (National Pollutant Discharge Elimination System Permit) - Required by the Department of Ecology under delegated authority from the Federal Environmental Protection Agency for projects that include the discharge of fluid on or into surface water.

SEPA (State Environmental Policy Act) Checklist and Environmental Assessments - When you submit a permit application to any agency, if the project is not exempt, the lead agency will ask you to fill out an environmental checklist. Based on checklist answers and the reviewers knowledge of the project site, agency personnel will determine the types of impacts the project may have on the environment. The agency assessments may be the following forms: Determination of Nonsignificance, Determination of Significance, scoping documents, draft or final Environmental Impact Statements (EIS) or others prepared for the purpose of compliance.

Describe any habitat mitigation required by any of the permitting agencies identified above and identify where such mitigation is proposed to occur:

All answers and statements are true and correct to the best of my knowledge.
