

Watershed Analysis Prescriptions and Forest Practices Applications

Forest Practices Board

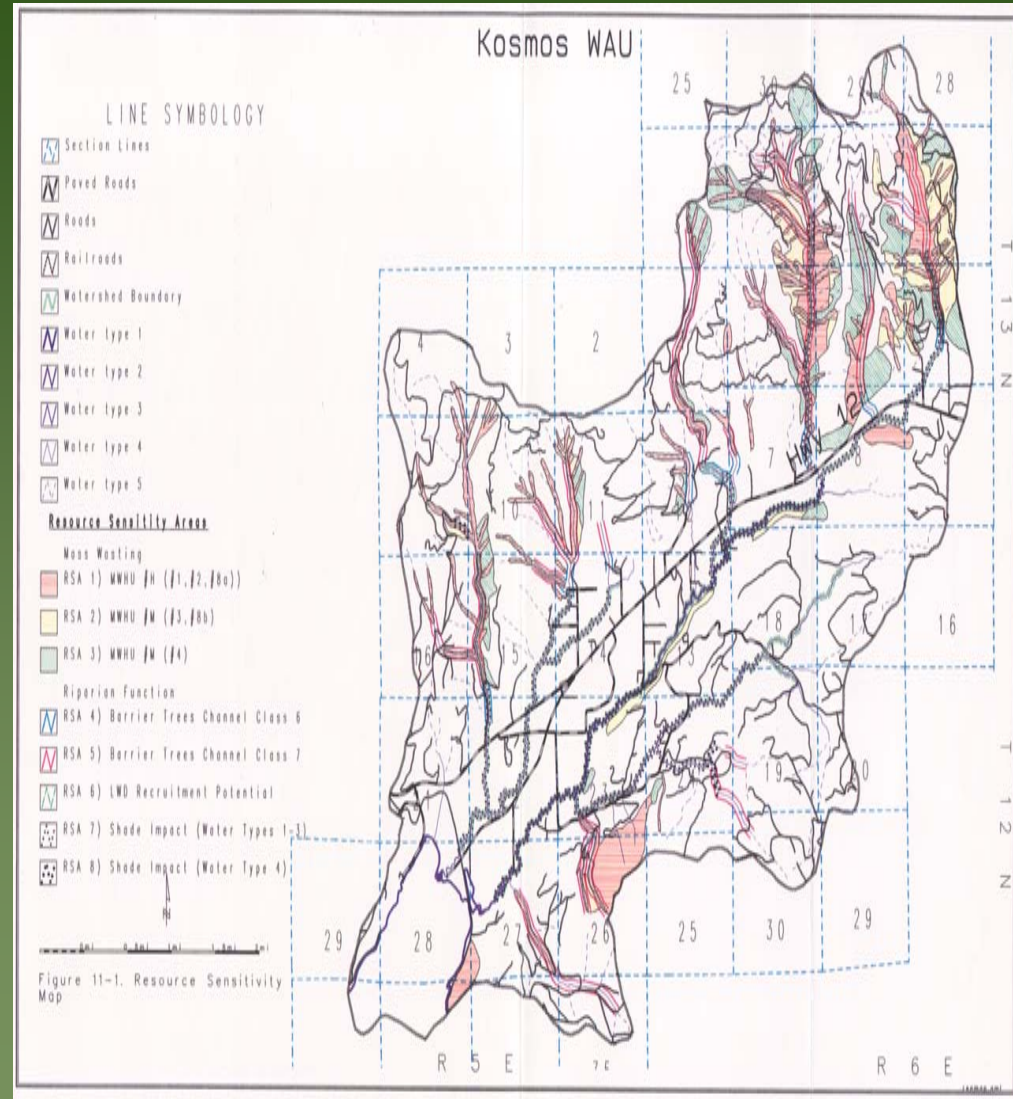

Meeting

February 13, 2008

Gary Graves
Dept. of Natural Resources
Forest Practices
Assistant Division Manager – Operations
360-902-1483

WA Prescriptions/FPAs

- ◆ Riparian
- ◆ Surface Erosion
- ◆ Hill slope Erosion
- ◆ Public Works
- ◆ Hydrology
- ◆ Unstable Slopes

WA Prescriptions/FPAs continued:

- ◆ Applicants need to identify the following if they occur within proposed harvest areas:
 - Areas Of Resources Sensitivity (ARS)
 - Appropriate Prescriptions
- ◆ DNR confirms information:
 - Paper review of information
 - Site reviews occur when the forest practice forester determines it is necessary

WA Prescriptions/FPAs continued:

◆ DNR

- Approves the FPA if consistent with WA prescriptions
- If the FPA is inconsistent with the prescriptions the FPA is processed as a Class IV Special

◆ DNR

- Reviews proposal/SEPA documents
- Conducts ID Team review
- Reviews comments from TFW process to evaluate if approval would meet current standard

Questions
