RE: APPROVAL OF FORESTRY COST-SHARE APPLICATION

We are pleased to inform you that the cost-share application for your property in Stevens County is APPROVED as itemized below. This approval is effective immediately and expires on APRIL 30, 2014.

Assuming all conditions of the program are met, you will be reimbursed for 50% of your written documented cost--OR-- at the "not to exceed" rate shown below, whichever amount is less.

FSP-1: Forest Stewardship Plan @ 50% not to exceed \$800.

IMPORTANT: The maximum amount of cost-share that you can potentially earn under this approval is \$800. If you complete less work than the amount approved above, your payment will be less. The payment cannot exceed the per unit rate (e.g. dollars per acre) shown above.

AU work must be completed and reported to DNR before the expiration date of this approval  
ALL WORK MUST BE COMPLETED AND REPORTED TO DNR NO LATER THAN  
APRIL 30, 2014 at which time this approval expires and will be cancelled if no performance is reported. There are no extensions of time.

All work must be done according to specifications acceptable to DNR

All work must be completed according to written specifications provided, or approved, by your DNR Stewardship Forester. If you have not been provided with written specifications, or if you have any questions, please contact your Stewardship Forester BEFORE beginning any work. Any changes in practice specifications must be approved, in writing, by the DNR Stewardship Forester.

Slash disposal

If slash (forest debris) disposal is included in this approval, the slash must be piled and burned, mechanically ground or chipped, or removed from the site according to the forester's specifications. If slash is disposed of by piling and burning, the piles must be burned before the practice expiration date. Unburned slash piles are not eligible for cost-share reimbursement.

All costs must be documented in writing

At the time of completion, you will need to provide DNR copies of cost documentation. These may be invoices or receipts for materials or for hired labor and/or a log of "do-it-yourself" labor. Do-it-yourself labor can be valued at any rate up to a maximum of \$20/hour for which you will be reimbursed at 50% not to exceed \$10/hour.

A DNR-approved Forest Stewardship Plan may be required before any payment can be made

If a Forest Stewardship Plan is required, DNR must approve and have a file copy of your plan before any cost-share payments can be made for other practices. If practices are completed before the plan is completed, then payment will be withheld until such time that the plan is approved by DNR.

Additional program requirements

You reviewed and agreed to the complete list of program terms, conditions, and requirements when you submitted and signed your application. A copy of these is enclosed for your reference.

Who to contact

If you have questions, or when you are ready to report completion, please contact the DNR Stewardship Forester highlighted on the attached sheet.

If at any time you decide to cancel your application, or reduce the amount of work you plan to do, please advise your DNR Stewardship Forester promptly so that we can make the funds available to another landowner.

Thank you for your participation in this cost-share program and for the proactive steps you are taking to improve forest health and reduce wildfire risk in your area.
