

Application for Fish Passage Barrier Evaluation

The Family Forest Fish Passage Program (FFFPP) is a program for small forest landowners to improve fish passage on their forestlands. If you think you may have a fish barrier and are interested in receiving assistance with replacing this barrier, please complete this application. A fish barrier is any artificial in-stream structure such as a culvert, dam or road crossing that impedes the free passage of fish. For a full explanation of this program, please refer to FFFPP Guidelines that are available from the Small Forest Landowner Office (SFLO) website www.dnr.wa.gov/sflo or call (360) 902-1404 for assistance.

When the SFLO receives your application, a field representative will contact you to set up a date for a site visit and provide you with a detailed explanation of the program. If it is determined that you do not have a barrier, you will no longer be enrolled in the program.

Landowner(s) name: _____
Company/Corporation name: _____
Mailing address: _____
City: _____ State: _____ Zip: _____
Site Address (if different): _____
City: _____ State: _____ Zip: _____
County: _____ County Assessor Parcel No. at Site: _____
