

## Stream Shade Assessment Worksheet

### Forest Practices Application/Notification

Refer to Board Manual Section 1 (BM1) to evaluate stream shade and complete this worksheet.

Stream Identifier: \_\_\_\_\_ Stream Type (S, F) : \_\_\_\_\_ Stream Width(ft.): \_\_\_\_\_ Stream Length (ft.): \_\_\_\_\_

Temperature Category: 16° 18° Elevation: \_\_\_\_\_ Canopy Cover Required per Nomograph (%): \_\_\_\_\_

CANOPY CLOSURE										
Plot #	<i>Pre-harvest Condition</i>					<i>Proposed Post-harvest Condition</i>				
	Down Stream	Up Stream	Left	Right	Average	Down Stream	Up Stream	Left	Right	Average
		Pre-harvest Canopy Closure (%)					Post-harvest Canopy Closure (%)			
<b>NOTE:</b> Post-harvest canopy closure must meet or exceed required canopy cover per nomograph in BM1.						Difference between pre-harvest and post-harvest (%)				

**Note:** If the proposal is in Eastern Washington AND within the Bull Trout Overlay, harvest of shade trees is NOT permitted within 75' of the bankfull width (BFW) or channel migration zone (CMZ), whichever is greater (WAC 222-030-040 (1)).
