

**Hazel Watershed Analysis**  
 Mass Wasting (Landslide) Hazard Timber Harvest Restriction Summary

<u>Map Unit</u>	<u>General Description</u>	<u>Restrictions</u>
1	Active deep-seated landslides	Harvest prohibited
2	Groundwater recharge	Harvest prohibited without detailed study
3	On slopes >50 percent	Harvest prohibited
4	Adjacent to certain stream types	Harvest prohibited
5	On slopes >50 percent adjacent to past deep-seated landslides	Harvest prohibited
6	On slopes >50 percent and adjacent to certain stream types	Harvest prohibited
7	On slopes >65 percent	Harvest prohibited on concave slopes; on planar slopes, harvest may not reduce tree canopy cover below 70 percent
8	On slopes >65 percent	Harvest prohibited on concave slopes; on convex or planar slopes, harvest may not reduce tree canopy cover below 70 percent
