

# Washington Timber Harvest Report

## 16.1 Introduction

The Washington Timber Harvest reports provide an annual historical record of timber harvest activities by county, ownership classes and species. The annual timber harvest reports reflect harvest trends over time. The most recently published timber harvest report available on DNR's website is *Washington Timber Harvest 2002* at <http://www.dnr.wa.gov/htdocs/obe/timberharvest/th2002.pdf>.

## 16.2 Timber Harvest Report Data for 2003

Following is the summary data for the 2003 timber harvest report. It includes harvest data for both Eastern and Western Washington by landowner classes and species, along with a summary of statewide harvest data. It is not yet available on DNR's website. The timber harvest report summary data for 2004 and 2005 is expected to be available in September 2007.
