WASHINGTON STATE DEPARTMENT OF
Natural Resources
Peter Goldmark - Commissioner of Public Lands

Division of Geology and Earth Resources
David K. Norman - State Geologist

This is a list of historical maps kept at the Washington Geology Library. There are 114 pages in this file. It was composed to be printed on legal-size paper, in landscape format.

Code used:

pr = photorevised

pi = photo inspected

rev = revised

g = green (vegetation) overlay (a date without a “g” indicates a monotone (brown line) map *without* the green overlay)

Dates in **BOLD** indicate that a better copy of the map is needed.

Map locations:

1:24,000 (7½-minute quadrangle) maps are in the EASI files in the Reception area, Room 148.

The library set of Washington 7½-minute quadrangles (current editions) are in oversize bound volumes under the counter, across from the flat metal map file cabinets.

1:62,500 maps are in the flat metal map file cabinet drawers (both USGS and ARMY)

1:125,000 maps are in the wood map case against the west wall.

Also, view more than 600 maps in the Washington State University Libraries online collection Early Washington Maps, a digital collection at <http://www.wsulibs.wsu.edu/holland/masc/xmaps.html>.
