

Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. *The merchantability of the forest products.* The use of the term “merchantable” in any document is not intended to vary the foregoing.
- b. *The condition of the forest products.* All forest products will be conveyed “AS IS.”
- c. *The acreage contained within any sale area.* Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. *The volume, quality, or grade of the forest products.* The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. *The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.* These documents have been prepared for the State’s appraisal purposes only.
- f. *That the sale area is free from threatened or endangered species, or their habitat.* The State is not responsible for any interferences with forestry operations that result from the presence of any threatened or endangered species, or the presence of their habitat, within the sale area.
- g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.
- h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

- A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.
- B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA), Hydraulics Project Approval (HPA).
- C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.
- D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.
- E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.
- F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.
- G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map, sale preview packets and that in the timber sale contract, the signed contract will prevail.
- H. Timber sales are subject to the Washington State Forest Excise Tax (RCW Chapter 84.33).
- I. Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security specified on each Notice of Sale. The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation. Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.
- J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.
- K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

BIDDING PROCEDURES FOR TIMBER AUCTIONS (Continued)

Bidding Process

- A. All timber will be auctioned using the sealed bid method.
- B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.
- C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.
- D. All bids must include the completed Sealed Bid Form and bid deposit.
- E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number).
- F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.
- G. The apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced.

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

- A. Required bid deposits are listed on each Timber Notice of Sale.
 - B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
 - C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
 - D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**
-

Timber Sale Per Sale Bid Bonds

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Product Sales & Leasing Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. The bidder must supply a list of persons authorized to bid using the bond. Bid bonds are subject to approval by the Department of Natural Resources.
- D. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m. on the day of auction.**
- E. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- F. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashier's check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire

Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashier's check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements),
- Licensed to do business in the State of Washington,
- Eligible to bid on Export Restricted timber, and
- Capable of meeting all contract obligations.

Authorized Representatives

Companies may only use company officers or authorized representatives to bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources Product Sales & Leasing Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

PAYMENT

SECURITY: To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING

PROCEDURES: A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the Northeast Region Office in Colville, WA. Phone number (509) 684-7474.

HARVEST AND

DELIVERY COSTS: Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Haul Cost + ARRF). Use the following rates for estimating taxable stumpage: Harvest Cost = tons(\$27.55/ton , \$32.55/ton for poles, \$6.00/ton for utility). Haul Cost = (tons)(\$2.63 or \$3.63 poles) + tons(\$0.16x C miles) + tons(\$0.14 x A miles)). ARRF = \$22.25/mbf.

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All mbf and tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

A locked gate restricts access to the sale area. Contact the Northeast Region office at (509) 684-7474 for access.

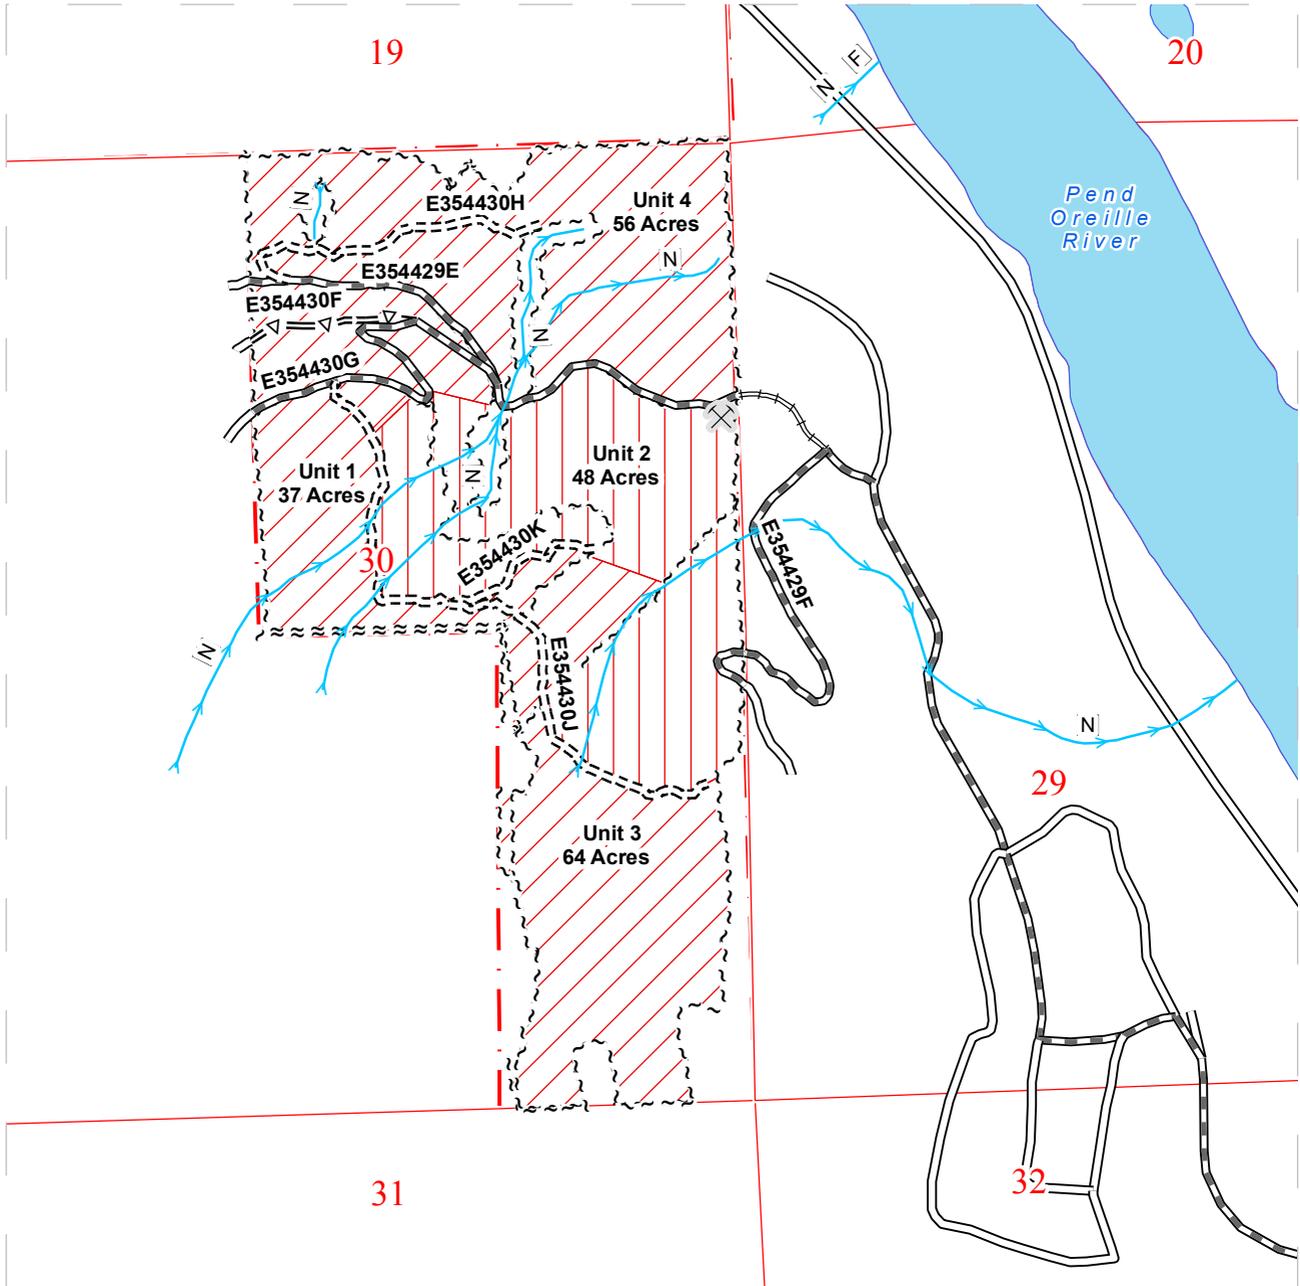

For more information regarding this log sort sale visit our web site:
<http://www.dnr.wa.gov/htdocs/fr/sales/>. If you have questions call Bob McKellar at the Northeast Region office at (509) 684-7474 or Steve Teitzel at the Product Sales and Leasing Division Office in Olympia at (360) 902-1741.

CONFIRMATION: Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned.

SPECIAL REMARKS: (1) Intermediate supports may be necessary in Unit #2. (2) This sale requires the girdling of 93 trees, marked with double bands of yellow paint on the bole. (3) Utility price for P-024 Clause is \$2.00 per Ton.

Schedule B
Deer Peak PC Thinning Prescription

Unit 1:

- Cut all Hardwoods
- Cut WH 6 to 13 inches DBH
- Cut PSF 6 to 14 inches DBH
- An additional 945 trees may be removed from Unit 1. These additional trees must meet the following criteria: 1) must be western hemlock, 2) must be between 14" and 21" DBH, 3) must be double-stemmed trees where the double stem originates within the first 32' log. If trees that meet this criteria are removed from the corridors, they will not count toward the total number allowed for removal.

Unit 2:

- Cut all Hardwoods
- Cut WH 6 to 13 inches DBH
- Cut PSF 6 to 14 inches DBH
- An additional 1,304 trees may be removed from Unit 2. These additional trees must meet the following criteria: 1) must be western hemlock, 2) must be between 14" and 21" DBH, 3) must be double-stemmed trees where the double stem originates within the first 32' log. If trees that meet this criteria are removed from the corridors, they will not count toward the total number allowed for removal.

Special Thinning Conditions:

- In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors.
- If optional construction is not built, purchaser is not authorized to remove the right of way timber. This must be identified by the purchaser and agreed upon in advance by the Contract Administrator.
- The number of additional trees described above represents the maximum allowed. Operational constraints or other considerations may prohibit removal. Additional trees shall not be cut if their removal creates an opening greater than 40 feet between leave trees.
- Corridors must be pre-marked and approved by the Contract Administrator prior to falling.
- Additional trees that will be removed shall be pre-marked by the operator and approved by the Contract Administrator prior to falling. The cut stump of each tree 14" and above that is removed shall be tagged by the Purchaser with tags provided by the State. Corridors will not be approved until all additional trees tributary to each setting are marked and approved.

Cable corridors: Landings will be located to provide for parallel yarding corridors whenever possible. All corridors will be field located by the Purchaser and approved by the Contract Administrator prior to falling. Where possible, minimize the number of streams that will be crossed with each corridor. Removal of wood from corridors that cross multiple streams or that would require yarding parallel to streams within the 100' riparian management zone will not be approved. Corridors will be limited to 12-feet including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are necessary from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3 – 5 feet of the center of the corridor should be removed prior to yarding. Following completion of yarding of each corridor, rub trees within 6 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 12-foot corridor.

Ground-based corridors: Ground-based yarding corridors will be limited to 14 feet including rub trees and no less than 70 feet apart as measured from the center of each corridor. All corridors will be field located and approved by the Contract Administrator prior to falling. Where possible, corridors should be located in a manner to minimize the damage to or removal of leave trees. No ground-based yarding will take place on slopes greater than 25%. Ground-based yarding equipment and corridors are prohibited within 25' of the inner zone of the riparian management zone. Trees felled along the inner zone must be felled into the unit and not into the inner zone.

Compartments for assessment of damage
Per contract clauses H-012 and D-040.

- A In Unit 1 from BD-5507 road south to unit boundary.
- B In Unit 1 from BD-5507 north to unit boundary.
- C In Unit 2 from BD-5509 south to unit boundary.
- D In Unit 2 from BD5509 north to unit boundary.

Down wood and snag recruitment: Trees marked with yellow bands have been designated for riparian habitat enhancement and are to treated as listed in the chart below:

	Girdle (double yellow bands)	Leave for future snag/down wood recruitment (single yellow band)
Unit 1	24	94
Unit 2	69	185

Certification of Fallers and Yarder Operators
(additional requirements beyond those outlined in H-011)

The Contract Administrator and faller/harvester operator will jointly review the take tree selection criteria as outlined in Schedule B of the sale contract.

In conjunction with the Contract Administrator, the faller/harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

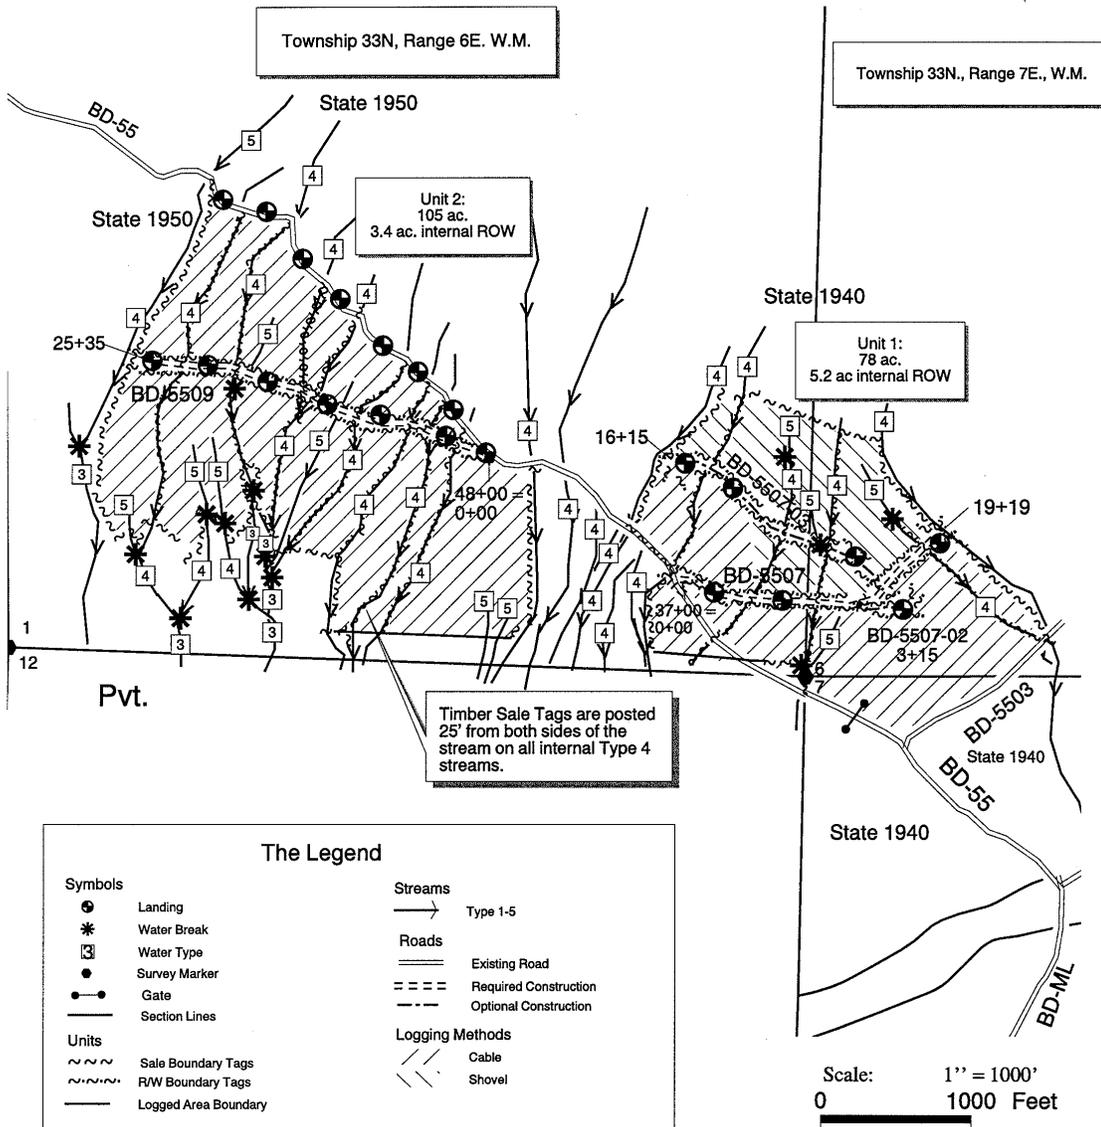

Certifications will be issued to individuals when they demonstrate to the Contract Administrator their ability to perform within the requirements set forth in the contract.

Permission to deviate in any manner from this prescription must be approved in writing by the Contract Administrator.

TIMBER NOTICE OF SALE

HARVEST AND

DELIVERY COSTS: Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Haul Cost + ARRF). Use the following rates for estimating taxable stumpage: Harvest Cost = tons (\$27.00 –estimated), Haul Cost = (tons)(\$2.63) + tons (\$0.16x C miles) + tons (\$0.14 x A miles)).

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing costs. All tonnage loads will be weighed at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

10% of PP volume has 12"+ top dib. The harvester for this sale will be selected after the Sorts are sold.

For more information regarding this log sort sale visit our web site:
<http://www.dnr.wa.gov/htdocs/fr/sales/>. If you have questions call Rod Pfeifle or Linda Hazlett at the Southeast Region office at (509) 925-8510.

CONFIRMATION: Final contract award is contingent upon the State's haul cost analysis. Allow up to 3 business days following bid opening for the State to announce the apparent high bidder. Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned.

products will not be permitted from October 31 to April unless authorized in writing by the Contract Administrator due to wet weather conditions.

### **ACREAGE DETERMINATION**

**CRUISE METHOD:** Acres were determined using a GPS. Cruise was done using a fix plot method and 32' log grades except for ponderosa pine which used 16' log grades.

**FEES:** On the day of sale Purchaser shall pay \$1,000.00 for utility wood . \$41,155.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

**SPECIAL REMARKS:** Snow machines may be necessary to access this sale during winter months. Cutting and yarding in Unit #2 and approximately 50 acres of Unit #1 will not be permitted from March 15th to August 31st to protect an endangered species. Purchaser must develop a plan for the pulling (including the roots) and piling of all green woody vegetation less than 6" dbh (mostly vine maple and hazel) on approximately 26% of Unit #1. An excavator or logging shovel must be used to pull the brush and a tractor may be used in piling. Scarification shall occur concurrently with logging operations. There are some ponderosa pine greater than 28" dbh marked with blue paint in Unit #1 from an old sale. These are NOT included in the products sold under this contract. No Douglas-fir, ponderosa pine or larch with a diameter of 28" and larger and more than 160 years old will be cut. There is approximately 289 Mbf of dead grand fir on this sale.

**Schedule A**  
**Monitored HCP Canopy Closure Requirements**

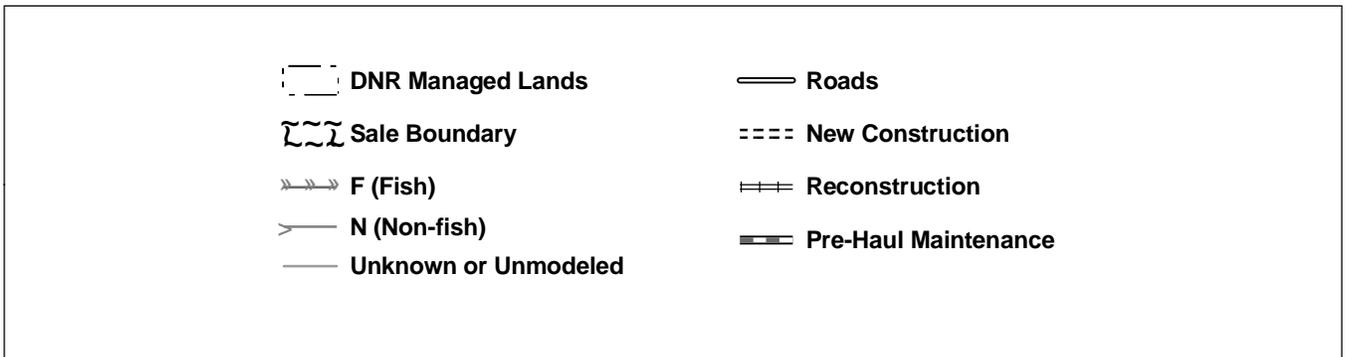

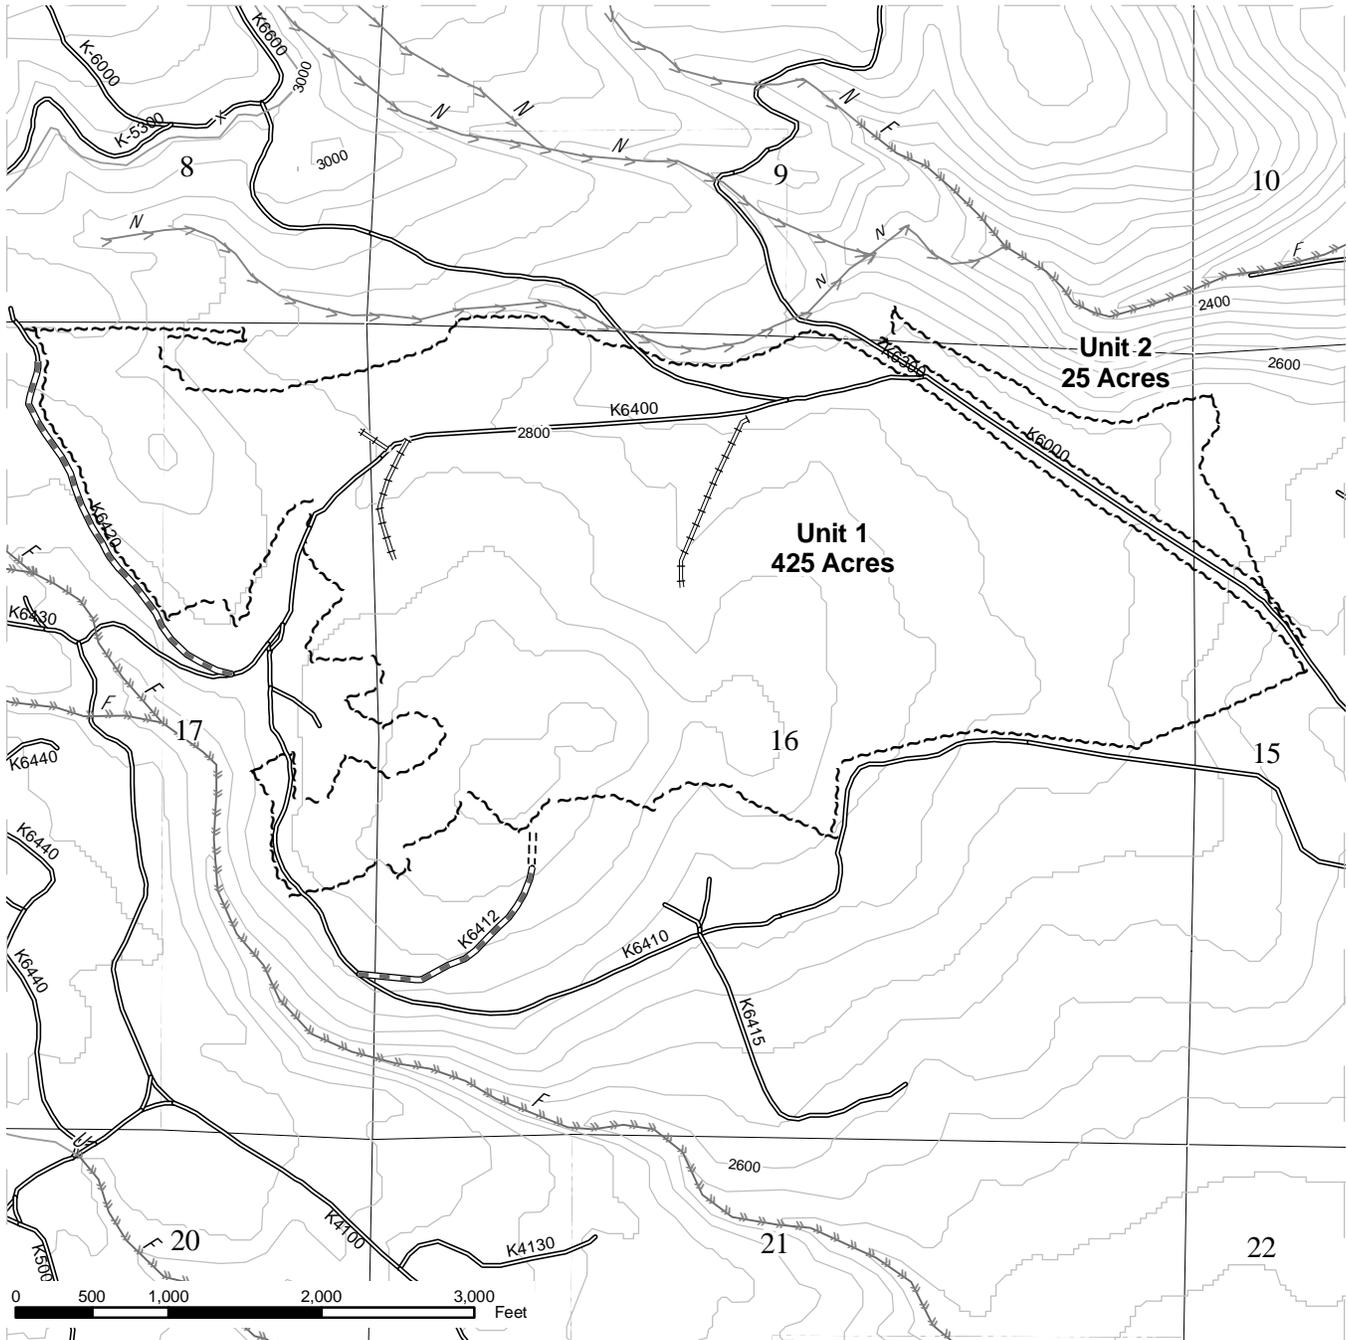

The sale has been marked with the objective of leaving adequate trees and at least 70% canopy closure so that the post-harvest stand meets the criterion of Nesting-Roosting-Foraging habitat as defined by DNR's Habitat Conservation Plan. To insure that this objective is achieved, the Department will monitor the canopy closure of the post-harvest stand on a regular basis as harvesting proceeds. If any deviation from the current marking is required, it is expected not to exceed 5%.

1. The Purchaser shall meet on site with the Contract Administrator on a regular basis as specified at the pre-work conference. The frequency of this meeting may be modified by the Contract Administrator at any time or at the Purchaser's request.
2. If the required 70% canopy closure is not being met as determined by the Department, the Purchaser shall modify the harvest by leaving additional blue painted trees to be cut as directed by the Contract Administrator. The number of blue painted trees will not be reduced by more than 5% of what is currently marked.
