

Public Auction Sale of Timber

Book 898

.....
December 2010

WASHINGTON STATE DEPARTMENT OF
Natural Resources

Peter Goldmark - Commissioner of Public Lands

Caring for
your natural resources ...
now and forever

IMPORTANT NOTICES

Natural Resources (DNR)

Governmental Regulatory Actions or Orders

The purchaser assumes the risk of liabilities related to regulatory actions or orders by any government agency that may affect the operability of these timber sales. Such regulatory actions or orders include, but are not limited to, actions taken pursuant to the State Forest Practices Act, Chapter 76.09 RCW, and the Federal Endangered Species Act, 16 U.S.C. §§ 1531-1544. Please see timber sale contract clauses G-066 and G-220 for further information.

Threatened and Endangered Species

DNR cannot verify the presence or absence of **any** threatened or endangered species that may affect the operability of the timber sale. Purchasers must rely on their own assessments.

Export Restricted

All timber purchased under these state DNR contracts shall not be exported outside of the United States until the timber has been processed. Purchasers shall not violate any of the prohibitions in WAC 240-15-015 (relating to the prohibitions on export and substitution), WAC 240-15-025 (relating to reporting requirements), and WAC 240-15-030 (relating to enforcement). If purchasers knowingly violate WAC 240-15-015, purchasers shall be barred from bidding on or purchasing export restricted timber as provided.

Cover photos

Timber Sales in this book are from state trust lands, managed to help build K-12 public schools, state universities, colleges, prisons, mental hospitals, the state Capitol; and to support local services in many counties.

Top left: State Forest Lands are managed to provide revenue to the counties in which they are located such as the Pacific County Courthouse in South Bend, Washington. Northwest Bridge Company of Portland, Oregon completed construction of the courthouse building in June of 1911. One unusual feature of the historic building is an "art glass dome" that crowns the structure. The courthouse is listed on the National Register of Historic Places.

Certification Opportunities for DNR Timber Purchasers

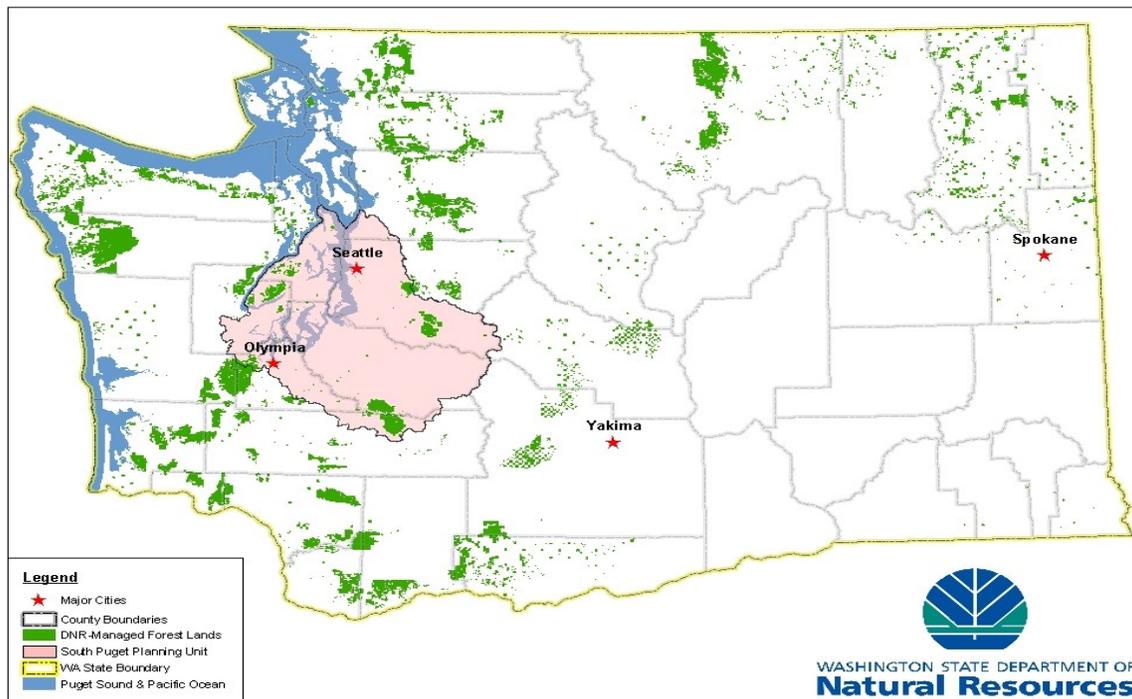

Certified forests are grown to an approved set of standards which demonstrate environmentally responsible, socially beneficial, and economically viable management practices that promote responsible forestry. This unique commitment to responsible forestry recognizes that forest landowners play a critical role in ensuring the long-term health and sustainability of our forests.

Forest Stewardship Council® (FSC®) is an independent, non-profit organization that promotes responsible management of the world's working forests through the development of forest management standards, a voluntary certification system, and trademarks that provide recognition and value to products bearing the FSC label in the marketplace. FSC standards ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way.

Sustainable Forestry Initiative, Inc. is an independent non-profit organization internationally endorsed and accepted around the world. The *Sustainable Forestry Initiative® (SFI®)* program is based on the premise that responsible environmental behavior and sound business decisions can co-exist. Its three-chamber Board of Directors governs all aspects of the SFI program, with equal representation from the environmental, economic and social sectors.

Currently, all Department of Natural Resources (DNR)-managed forested state trust lands in Washington State are certified under the 2010-2014 SFI program Standard. Lands within DNR's South Puget Habitat Conservation Plan Planning Unit, located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties, are dually certified under the FSC Pacific Coast Regional Standard and the 2010-2014 SFI program Standard.

Certification under each standard involves an inspection audit of the landowner's forest management activities by an independent third-party accredited team to verify that it meets specified forest management principles. If the forest unit complies with the specific standard, the landowner receives a certificate of conformance ensuring that responsible forestry is being practiced. Both standards encourage integration of perpetual growing and harvesting of trees with strong measures to protect wildlife, plants, soil, water, and air quality. Both standards provide a seal of approval that forests certified under these principles are well-managed. The global marketplace recognizes and endorses multiple forest certification standards. Each standard has individual market niches. By being dually certified, DNR can maximize its customer base and provide choices to the consumer.

DNR's FSC certificate number is: BV-FM / COC-080501

DNR's SFI certificate number is: BV-SFIS-US09000572

DNR-managed forested state trust lands within the South Puget Habitat Conservation Plan Planning Unit (located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties) are certified as being in compliance with the Forest Stewardship Council Pacific Coast Regional Standard. This makes DNR's SP Planning Unit dually certified under both the FSC and SFI program Standards.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the FSC Program, visit www.fscus.org.

To learn more about DNR timber sales certified under the FSC Standard, visit www.dnr.wa.gov.

FSC A.C. owns all right, title, and interest in and to the Forest Stewardship Council trademarks.

All DNR-managed forested state trust lands across the state have been certified as being in compliance with the 2010-2014 Sustainable Forestry Initiative program Standard.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the SFI program, visit www.sfiprogram.org.

To learn more about DNR timber sales certified under the SFI program Standard, visit www.dnr.wa.gov.

Sustainable Forestry Initiative® and SFI® word marks and logo marks used are registered marks owned by Sustainable Forestry Initiative Inc.

Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. ***The merchantability of the forest products.*** The use of the term "merchantable" in any document is not intended to vary the foregoing.
- b. ***The condition of the forest products.*** All forest products will be conveyed "AS IS."
- c. ***The acreage contained within any sale area.*** Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. ***The volume, quality, or grade of the forest products.*** The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. ***The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.*** These documents have been prepared for the State's appraisal purposes only.
- f. ***That the sale area is free from threatened or endangered species, or their habitat.*** The State is not responsible for any interferences with forestry operations that result from the presence of any

threatened or endangered species, or the presence of their habitat, within the sale area.

g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.

h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.

B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA).

C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.

D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.

E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.

F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.

G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map,

sale preview packets and that in the timber sale contract, the **signed contract will prevail**.

H. Purchasers must pay the Forest Excise Tax on the bid price, permanent road construction costs, and other considerations. The tax rate is 5% without the EARR credit and 4.2% with the credit. For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

I. **Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security** specified on each Notice of Sale. **The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation.** Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.

J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.

K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

Bidding Process

A. All timber will be auctioned using the sealed bid method.

B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.

C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.

D. All bids must include the completed Sealed Bid Form and bid deposit.

E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number). Sales added after the book is printed will be inserted to retain this order. Sort sales may be auctioned out of this sequence at the State's convince.

F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.

G. For sales offered on a stumpage basis, the apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced. **This option is not available for sales offered on a delivered basis.**

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

- A. Required bid deposits are listed on each Timber Notice of Sale.
- B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
- C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
- D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**

Timber Sale Per Sale Bid Bonds

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per Sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m., on the day of the auction.**
- D. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- E. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashiers' check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashiers' check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements)
- Licensed to do business in the State of Washington
- Eligible to bid on Export Restricted timber
- Authorized to submit bids

Authorized Representatives

Company officers or company authorized representatives may bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

Within 30 days of confirmation date the successful bidder agrees to furnish Performance Security acceptable to the State in the amount specified on the Notice of Sale. Performance Security must guarantee performance of all provisions of the contract and payment of any damages caused by operations under the contract or resulting from the successful bidders noncompliance with any rule or law.

Bidder's Warranty and Bid Signature

By signing and submitting this bid as an offer to purchaser forest products from the State, the Bidder hereby warrants to the State that they have had an opportunity to fully inspect the sale area and the forest products being sold. Bidder further warrants to the State that they enter this bid based upon their own judgments of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold. Bidder also warrants to the State that they enter this bid without any reliance upon the volume estimates, acreage, appraisals, pre-bid documentation, or any other representation by the Washington State Department of Natural Resources.

_____ Date _____
(Signature of Authorized Representative submitting this bid)

_____ (Print name and title of Authorized Representative submitting this bid)

Note: all sales are subject to confirmation by the Commissioner of Public Lands (Refer 79.15.120)

Instructions For Completing Sealed Bid Form

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks on bid form must be completed including the bid bond number if the bidder is relying upon a bid bond for bid deposit.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box before 10:00 a.m. on the day of auction at the location specified in the Timber Notice of Sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be on the bid bond and timber sale contract. The bid form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope.
- C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
- D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.

Mailed Bids

- A. Bids that are mailed are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BIDE NCLOSED". The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The Sealed Bid Form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope.
- B. Bids that are mailed will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
- D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.

Initial Deposit:

Lump Sum Sales - Initial Deposit must equal 10% of the total bid submitted.
(25% if the bidder is a defaulter as defined under WAC 332-140-300)

Weight Scale Sales - Initial Deposit must equal 10% of the bid per ton multiplied by the total sale estimated tonnage. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Scribner MBF Scale Sales - Initial Deposit must equal 10% of the bid per MBF multiplied by the total sale MBF. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

STATEWIDE BID BOND

Bond Number _____

_____ of _____,
(Principal's Name) (City, State)

hereinafter called PRINCIPAL, and _____ hereinafter called
SURETY,

a corporation organized under the laws of the State of _____, and authorized to transact surety business in the State of Washington, as SURETY, are held and firmly bound jointly and severally to the State of Washington, Department of Natural Resources, hereinafter called the STATE, in the sum of \$150,000.00 Dollars, lawful money of the United States of America. The PRINCIPAL binds itself, its heirs, executors, administrators, successors, and assigns, and the SURETY binds itself, its successors, and assigns, all jointly and severally.

This bond shall be governed by the laws of the State of Washington. In the event of a lawsuit involving this bond, a venue shall be proper only in Thurston County Superior Court.

Signed, sealed and dated this _____ day of _____, _____.
(month) (year)

This statewide bid bond may be used for bidding between the following dates:

Starting:

Ending:

It Is Hereby Understood and Agreed:

If PRINCIPAL is an apparent high bidder, PRINCIPAL shall before 4:30 p.m ., on day of sale, pay to the STATE the amount of the initial deposit in the form of a certified check, cashier's check, bank draft, cash or money order, then this agreement shall be void for the sale on which the payment is made; otherwise, it will remain in force.

SURETY will make payment to the STATE within ten days after demand by the STATE if the PRINCIPAL shall fail to make timely payment as described above.

The SURETY may cancel this bond by sending a written notice to the STATE, not less than forty-five days before a cancellation date; liability shall terminate as to acts or omissions of the PRINCIPAL that occur after the cancellation date.

The PRINCIPAL and the SURETY executed this bond on the date first mentioned.

(Weighing Location City, State and Zip)

Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion. Additional terms or conditions requested by the bidder on or attached to the Log Sort Sealed Bid or Supplemental Information Forms are informational only and non-binding.

Instructions for Completing the Log Sort Sealed Bid and Supplemental Information Forms.

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form(s) provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks including Agreement Number, Sort Number, Bid amount (per mbf or ton as appropriate for the sort), Bid deposit amount and type. Signatures and date on bid form must be completed including the bid bond number if bidder is relying upon a bid bond for bid deposit.

Bids may not be accepted if a completed '**Log Sort Sealed Bid Supplemental Information Form**' is not included with the approved '**Log Sort Sealed Bid Form**'.

Required log lengths for tonnage sorts: Preferred log lengths for tonnage sawlog sorts shall include the following plus any additional lengths identified on the Bid Supplemental Information form:

Species Type	Preferred Lengths
Conifer Sorts	16', 20', 24', 26', 32', 40'
Hardwood Sorts	18', 20', 26', 28', 30', 36', 38', 40'

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box or auction envelope before 10:00 a.m. on the day of sale at the location specified in the notice of sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same as the name on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope, please.
- C. Sealed bid envelopes must contain the following:
 1. A completed Log Sort Sealed Bid form;
 2. A completed Supplemental Information form; and
 3. A bid deposit

Mailed Bids

- A. Mail-in bid envelopes are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED." The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope, please.
- B. Mail-in or otherwise delivered bids will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery they chose. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes must contain the following:
 1. A completed '**Log Sort Sealed Bid Form**';
 2. A completed '**Log Sort Sealed Bid Supplemental Information Form**' and;
 3. A bid deposit

Totals **3341** **3978** **\$1,357,760**

MINIMUM BID AND ESTIMATED LOG SORT VOLUMES:

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

TIMBER NOTICE OF SALE

BID METHOD: Sealed Bids **UNIT OF MEASURE:** MBF scale/Tonnage scale

EXPIRATION DATE: April 30, 2011 **ALLOCATION:** Export Restricted

PAYMENT SECURITY: To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING PROCEDURES: A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the Pacific Cascade Region Office in Castle Rock, WA. Phone number (360) 577-2025.

TIMBER EXCISE

TAX: Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8849.

Use the following rates for estimating taxable stumpage: Harvest Cost = \$71.23 per mbf for sorts 2, 3, 4, 5, 7, and 8; \$7.00 per Ton for sort 10; and \$8.00 per ton for sorts 1, 6, and 9.

Haul Cost = $(\$2.63 \times \text{Conversion Rate}) + (\$0.10 \times \text{Conversion Rate} \times \text{A miles}) + (\$0.16 \times \text{Conversion Rate} \times \text{B/C miles}) \times \text{Delivered Net mbf}$ for sorts 2, 3, 4, 5, 7, and 8.
Haul Cost = $(\$2.63 + (\$0.10 \times \text{A miles}) + (\$0.16 \times \text{B/C miles})) \times \text{Delivered Net tons}$ for sorts 1, 6, 9, and 10.

ARRF = \$22.25 per Mbf for sorts 2, 3, 4, 5, 7, and 8; or \$2.75 per ton for sorts 1 and 6, and \$3.32 per ton for sort 9. There is no ARRF charge for sort 10.

CONFIRMATION: Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion.

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed. Sort #10 contains both hardwood and conifer pulp. Pulp loads may be sorted by species at Purchaser's request.

For more information regarding this log sort sale visit our web site:
<http://www.dnr.wa.gov/htdocs/fr/sales/>. If you have questions call Marcus Johns at the Pacific Cascade Region office at (360) 577-2025 or Steve Teitzel at the Forest Resources and Conservation Division Office in Olympia at (360) 902-1741.

MINIMUM BID: \$ 1,000,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$ 100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: October 31, 2011 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$100,000.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and Shovel. Ground-based harvesting equipment shall be restricted to slopes of 35% and less during dry soil conditions. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator.

ROADS: 25.73 stations of optional construction. 150.70 stations of required pre-haul maintenance. 9.98 stations of deactivation if road is built. 15.75 stations of abandonment if road is built. Rock for construction and pre-haul maintenance work under this contract may be obtained, at no charge to the Purchaser, from the Low Bank Quarry, located in Section 15, Township 17 North, Range 04 West, W.M. Rock for construction and pre-haul maintenance work under this contract may also be obtained from any commercial source, as approved by the Contract Administrator. Hauling shall be suspended when wheel track rutting exceeds 6 inches; hauling may resume with written Contract Administrator approval. Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

TIMBER NOTICE OF SALE

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method. Harvesting activities are estimated to be approximately 13% ground-based and 87% cable harvesting.

FEES: \$50,000.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Units may contain high quality Douglas-fir. Purchaser will be responsible for identifying and marking 81 leave trees in Unit 1 and 110 leave trees in Unit 2 as required in Schedule Z. Purchaser will be responsible for posting and maintaining trail closure signs for the Fuzzy Top Trail prior to harvest operations. Within 15 days after the completion of logging operations, the Fuzzy Top Trail will be repaired, cleaned out, and re-opened.

BID DEPOSIT: \$119,400.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Shovel in areas outside of approved designated skid trails; and shovel, forwarder or tracked skidder on approved designated skid trails, but in the WMZ thinning area of Unit 3, equipment will be limited to shovels operating on designated skid trails. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion. However, no ground-based operations shall be allowed in Unit 3 from November 1 through June 30; this is NOT WAIVABLE.

ROADS: 46.40 stations of optional construction. 21.67 stations of optional reconstruction. 7.87 stations of existing road to be abandoned. 46.40 stations of road to be abandoned if built.

Development of an existing hardrock source (Alger Hardrock Pit) at station 216+50 of the AL-ML Road will involve drilling, shooting, and processing rock to generate approximately 50 cubic yards of riprap and approximately 4,380 cubic yards of 3-inch-minus ballast. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

However, hauling on the CBO-19 (7+87 to 29+66) or the CER-34 shall not be permitted from November 1 - May 31; this is NOT WAIVABLE.

Also, construction of the CBO-19 (7+87 to 29+66) or reconstruction of the CER-34 shall not be permitted from November 1 - May 31; this is NOT WAIVABLE.

On all other roads: The hauling of forest products will not be permitted from November 1 to May 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 114.8 acres gross. 3.1 acres deducted for green tree retention clumps and 28.2 acres deducted for RMZ/WMZ area excluded from harvest. 83.5 acres net. Cruised using variable plot method. Expansion factor used is 40.00 for red alder and 54.45 for all other species. Sighting height is 4.5 feet. Pole quality cedar was noted within the sale area. See cruise for further details.

FEES: \$32,926.25 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: None.

Schedule B
Hobson Cedar Prescription

Unit 3 Wetland Complex WMZ Thinning:

This special management unit is bounded by blue-special management unit boundary tags and white flagging. Within this area, all red alder less than or equal to 17" dbh may be harvested. Any additional timber that must be removed for designated skid trails must be approved by the Contract Administrator. If a designated take tree or additional take tree (as approved by the Contract Administrator) has a blue special management unit tag on it, it may be harvested.

Unit 3 RMZ Hardwood Conversion:

This special management unit is bounded by blue-special management unit boundary tags and orange flagging on the outer edge and white timber sale boundary tags on the inner edge. Within this area, all hardwoods shall be harvested. No conifer may be felled. Any part of a take tree inadvertently felled beyond the timber sale boundary tags must be bucked off at the timber sale boundary tags and left on site. Hardwoods with blue special management boundary tags may be harvested.

Unit 3 RMZ Conifer Release:

This special management unit is bounded by blue special management unit boundary tags and green flagging on the outer edge and white timber sale boundary tags on the inner edge. Within this area all hardwoods marked with orange paint on the bole may be harvested. Any hardwood marked with orange paint and blue special management unit boundary tags may be harvested. If a selected tree cannot be felled without damage to unmarked timber in or beyond the timber sale boundaries, it shall not be harvested.

Unit 4 WMZ Thinning:

This special management unit is bounded by blue special management unit boundary tags and white timber sale boundary tags on the inner edge. Within this area all timber greater than or equal to 10" dbh and less than or equal to 36" dbh may be harvested. Any designated take tree with a blue special management unit boundary tag may be harvested.

- Timber Sale Unit
- Interstate 5
- County Road
- Construction/Reconstruction
- Gate

DRIVING DIRECTIONS:

Unit 1: From Exit 236 of I-5, travel west on Bow Hill Rd for 0.6 miles until you reach the intersection of Bow Hill Rd and Hobson Rd. The harvest unit is on the northwest corner of the intersection.

Unit 2: From Exit 236 of I-5, travel west on Bow Hill Rd. for 1 mile. Turn north onto the existing CBO-19 road through a pasture and continue for ~400 feet until you reach the harvest unit boundary.

Unit 3: From Exit 236 of I-5, travel west on Bow Hill Rd for 1.3 miles and turn north onto Ershig Rd. Continue on Ershig for 0.5 miles and turn east onto CER-34 Rd. The harvest unit is located to the south of this road. Additionally, new right-of-way construction heading northwest from Unit 2 will connect the two units.

Unit 4: From Exit 236 of I-5, travel west on Bow Hill Rd for 0.6 miles and turn north onto Hobson Rd. After approximately 0.35 miles, you will see an existing approach with new road construction stakes to the east through a pasture. This is the CHO-10 road. The harvest unit begins ~350' east of the beginning of new construction.

Rock Pit: From Exit 236 of I-5, proceed east on Bow Hill Rd. for 0.8 miles. Turn north onto Old Highway 99 and continue for 2.6 miles. Turn east onto Parson Creek Rd. and proceed for 1 mile. Turn north onto Skaarup Rd. and continue for 0.75 miles until you reach a gate. Continue on the AL-ML for 3.6 miles until you reach the existing Alger Rock Pit.

TIMBER NOTICE OF SALE

SALE NAME: ROCKABILLIE

AGREEMENT NO: 30-085311

AUCTION: December 15, 2010 starting at 10:00 a.m., **COUNTY:** Skagit
Northwest Region Office, Sedro Woolley, WA

SALE LOCATION: Sale located approximately 13 miles northeast of Arlington, WA.

**PRODUCTS SOLD
AND SALE AREA:**

All timber bounded by white timber sale boundary tags and adjacent young stands, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #1.

All timber bounded by white timber sale boundary tags and the BC-4241 Road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

All timber bounded by white timber sale boundary tags and the WB-ML Road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #3.

The above described products on part(s) of Sections 27, 28 and 34 all in Township 33 North, Range 7 East, W.M., containing 121 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

HARVEST METHOD: Cable; cable or shovel on sustained slopes 30% or less. Falling and Yarding will not be permitted from October 1 to April 30 unless authorized in writing by the Contract

TIMBER NOTICE OF SALE

Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS:

14.98 stations of required construction.

Development of an existing hardrock source (WB-28 Hardrock Pit) at station 147+40 of the WB-ML Road will involve drilling, shooting, and processing rock to generate approximately 39 cubic yards of riprap and approximately 1,445 cubic yards of 3-inch-minus ballast. This rock is available at no cost on State land.

Road construction and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. However, due to sensitive road conditions, no hauling on the WB-ML Road 66+24 to 73+39 "Sandhill Cut" shall be permitted between November 1 and March 31; this is NOT WAIVABLE.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 208 acres gross. 6.1 acres deducted for green tree retention clumps, 77.2 deducted for RMZ/WMZ areas and 3.3 acres deducted for existing road area. 121.4 acres net. Cruised using variable plot method. Expansion factor used is 54.45. Sighting height is 4.5 feet.

FEES:

\$79,632.50 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Blue special management tags demarcate an equipment limitation zone.

SPECIAL REMARKS: No ne.

Schedule B
RMZ Thinning Prescription Waiver

WAVER
SCHEDULE B-THINNING PRESCRIPTION

RMZ UNIT 1-Compartment A:
Cut all RA
Cut all WH 18 inches and below
Leave WRC and CW
LWD: 17 WH trees between 16-18 inches DBH

RMZ UNIT 1-Compartment B:
Cut all RA
Leave WRC, DF, WH, and CW
LWD: 18 WH trees between 15-18 inches DBH

RMZ UNIT 2:
Cut all RA
Cut all WH 17 inches and below
Leave WRC and CW
LWD: 28 WH trees between 15-17 inches DBH

LARGE WOODY DEBRIS (LWD) CREATION:
Retain all snags greater than or equal to 20 inches DBH and 20 feet tall, except where it cannot be accomplished safely. Five (5) of the designated conifer prescription trees per acre, from the largest DBH class, shall be felled towards the stream where feasible to remain as LWD. Purchaser shall mark and they shall be approved by Contract Administrator before felling. These trees shall be marked within 25 feet of the white timber sale tags. (25 to 50 feet from the stream channel)

SPECIAL THINNING CONDITIONS:
Where the prescription would leave an opening greater than 50 feet in diameter, the purchaser must leave a conifer take tree from the largest diameter, largest crown class, best form, and undamaged. Species preference in order of importance: DF, RC, WH

In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors or skid trails. These areas must be identified and agreed upon in advance with the Contract Administrator.

Location of yarding corridors will be approved by the Contract Administrator. Trees felled for corridors that do not meet the prescription above will not be treated as additional volume unless

the Contract Administrator determines that corridor location, spacing, or widths have not been in compliance with this schedule.

CABLE YARDING CORRIDORS:

All radial yarding corridors must be no wider than 12 feet wide, located as close to parallel as possible.

When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the thinning unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. Following completion of yarding of each corridor, rub trees that do not meet take tree specifications shall be left standing. It is not required to remove all leave trees from the 12-foot corridor.

Corridor trees felled within the 25-foot inner core of stream RMZ's for corridors are to be left on ground, not yarded. These trees should be felled towards the stream where feasible.

When yarding through type 4 stream buffers and type 5 streams the Contract Administrator must approve all corridors prior to yarding. Corridor widths will be no more than 12 feet in width and rub trees will not be cut. Full suspension is needed over type 4 and 5 streams and when not possible, cribbing will need to be in place.

GROUND YARDING CORRIDORS:

Corridors are limited to 14 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the corridor. Where possible corridors should be located in a manner to minimize the damage to, residual trees.

Location of yarding corridors will be approved by the Contract Administrator. Trees felled for corridors that do not meet the prescription above will not be treated as additional volume unless the Contract Administrator determines that corridor location, spacing, or widths have not been in compliance with this schedule.

CERTIFICATION OF FALLERS AND YARDER OPERATORS

All persons engaged in the felling and yarding of timber must receive certification in writing from the Contract Administrator. Certification may be revoked when the Contract Administrator determines that non-compliance of leave tree selection criteria or cut tree selection criteria is occurring, or excessive damage to leave trees or skid trails is occurring.

When leave tree damage exceeds the limits set forth in clause below, Purchaser shall be subject to liquidated damages set forth below.

LEAVE TREE DAMAGE DEFINITION

Leave tree damage exists when one or more of the following criteria are satisfied as a result of Purchaser's operation:

- a. A leave tree has one or more scars on its trunk exposing the cambium layer, which in total exceeds 100 square inches.

- b. A leave tree top is broken or the live crown ratio is reduced below 30 percent.
- c. A leave tree has more than 1/3 of the circumference of its root system injured such that the cambium layer is exposed.

Excessive damage is established when more than 5 percent of the leave trees are damaged in a unit. The damaged trees will be identified by the Contract Administrator.

Maple	19		17	\$185.00						7	7		3	
Grand fir	13		3	\$176.00								2	1	
Sale Total			2,280											

MINIMUM BID: \$272/MBF (est. value \$615,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$ 100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: October 31, 2011 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$61,500.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Shovel, Track skidder and Cable. Ground-based harvesting equipment is restricted to slopes of 35% and less, and allowed only during dry soil conditions. Tracked skidder may be used in Units 1 and 6 for pole removal only, and in Units 2, 3, 4, 5, 7, and 8 with Contract Administrator approval. All western redcedars less than 7 inches DBH shall be retained where operationally feasible. See clause H-140 and Schedule L for further harvest restrictions. Within Unit 5, trees that will be felled toward the stream and left on site are marked with a double band of red paint. See Schedule A for further RMZ

TIMBER NOTICE OF SALE

thinning guidelines. The HPA must be onsite during all felling and harvesting operations within Unit 5. A detailed felling and yarding plan shall be required prior to the start of any harvest activities, and approved in writing by the Contract Administrator. Within the RMZ and WMZ units, ground-based equipment will be prohibited within 50 feet of the edge of the type 3 stream or forested wetlands. Yarding may be suspended at the discretion of the Contract Administrator when soil rutting exceeds four inches as measured from the natural ground line when there is potential for damage to any public resource. If yarding is suspended, the Contract Administrator must be assured that future harvest operations will not potentially damage any public resource. To reduce damage to the soil, the Contract Administrator may require water bars to be constructed and grass seed, hay or straw to be placed on exposed soils. Ground Based Yarding will not be permitted from November 1 to April 30 unless authorized in writing by the Contract Administrator.

ROADS: 2.49 stations of required reconstruction. 38.23 stations of optional construction. 84.57 stations of required pre-haul maintenance. 3.57 stations of required light abandonment. 121.72 stations of required deactivation. Rock for construction or pre-haul maintenance under this contract may be obtained from the South Waddell Basalt Quarry located in Sec. 21, T17N, R03W, and/or the Greenline Quarry located in Sec. 29, T17N, R03W, W.M., at no charge to the Purchaser. Purchaser will be required to purchase 110 cubic yards of 1 1/4 INCH MINUS CRUSHED from a commercial source. Rock for this contract may be obtained from any commercial source as approved in writing by the Contract Administrator. Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method. Harvesting activities are estimated to be 97% ground-based harvesting and 3% cable harvesting.

FEES: \$30,200.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Units may contain poles and high quality Douglas-fir. Within shovel logging areas in Units 1 and 6, the shovel operator shall break up concentrations of logging debris greater than 10 feet by 10 feet to allow exposure of natural forest soils to ensure proper reforestation. In Unit 1, Purchaser shall complete slash abatement adjacent to private residences and Waddell Creek County Road. The Purchaser will be responsible for posting and closing the Middle Waddell Loop recreation trail during harvest activities, and cleaning and re-opening the trail within 15 days of completion of harvest activities. No operations, including road construction, shall occur on any weekends, State recognized holidays, or from 7 pm to 7 am on weekdays unless authority to do so is granted in writing by the Contract Administrator.

Sale Total			2,069									

MINIMUM BID: \$ 597,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$ 100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2011 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$59,700.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on slopes 25% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion. Intermediate support and lift trees located in the harvest units must be marked before felling operations begin. A timing restriction shall be in place on operations in Unit #2 from April 1 to August 31. This restriction will prohibit operations

TIMBER NOTICE OF SALE

one hour before official sunrise to two hours after official sunrise and one hour before official sunset to one hour after official sunset.

ROADS:

9.02 stations of required construction. 38.79 stations of required reconstruction. 16.08 stations of optional construction. 16.08 stations of road to be abandoned if built.

Development of an existing hardrock source (Santa Maria Hardrock Pit) at station 15+00 of the ED-36 Road will involve clearing, stripping, drilling, shooting, and processing rock to generate approximately 20 cubic yards of riprap and approximately 3,730 cubic yards of 3-inch-minus ballast rock. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD:

Acres determined by GPS traverse. 115.0 acres gross. 45 acres deducted for RMZ/WMZ, 3.1 acres deducted for green tree retention clumps, 1.5 acres deducted for existing roads, and 0.1 acres deducted for exclusion area. 65.3 acres net. Cruised using variable plot method. Expansion factor used is 40.00 in Unit #1 and 54.45 in Unit #2. Sighting height is 4.5 feet. Grid size plot spacing is 240 x 200 feet in Units #1 and #2. Plot ratio cruise count is 1:1 in Units #1 and #2. 45 plots were taken in Unit #1, and 13 plots taken in Unit #2, for a total of 58 plots. HQ DF noted within sale area. See cruise for further details (approximately 96 mbf SM, 37 mbf 2S contained in the summarized values listed in the volume section).

FEES:

\$27,414.25 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: No ne.

Driving Directions:

To Unit 1:
 From the intersection of State Route 9 and State Route 20 in Sedro-Woolley, proceed north on SR 9 for approximately 12.7 miles until you reach Saxon Rd on the west side. Turn onto Saxon Rd and continue for 3.3 miles until you reach a Y at the end of the road. Veer right and proceed over the Skookum Creek bridge and continue through the yellow gate (accessible with an F1-3 key) onto the ED-ML. After 1.3 miles, veer right at the Y intersection. At 0.3 miles, you'll reach a white gate that is accessible with an F1-3 key. Continue for 0.8 miles until you reach the intersection with the ED-27 road. Keep on the ED-27 road for 0.6 miles until you reach the beginning of new road construction at the end of the ED-27.

Unit 2:
 Follow the directions given above to the intersection of the ED-ML and the ED-27. Rather than continue on the ED-27, turn left and continue on the ED-ML for 0.2 till you reach a "T" intersection. Keep on the ED-ML by turning right and continue for 2 miles. At this point, the ED-ML intersects the harvest unit for ~800'. Continue on the ED-ML for another 0.8 to the intersection with the ED-58. Keep on the ED-58 for 0.25 until you reach the site of new road construction on the west side.

To Rockpit:
 At the intersection of the ED-ML and the ED-27, continue 0.9 miles further down the ED-ML until you reach the ED-36 on the west. Continue down this road for 0.25 miles until you reach the existing rockpit.
