

Public Auction Sale of Timber

Book 899

.....
January 2011

WASHINGTON STATE DEPARTMENT OF
Natural Resources

Peter Goldmark - Commissioner of Public Lands

Caring for
your natural resources ...
now and forever

IMPORTANT NOTICES

Natural Resources (DNR)

Governmental Regulatory Actions or Orders

The purchaser assumes the risk of liabilities related to regulatory actions or orders by any government agency that may affect the operability of these timber sales. Such regulatory actions or orders include, but are not limited to, actions taken pursuant to the State Forest Practices Act, Chapter 76.09 RCW, and the Federal Endangered Species Act, 16 U.S.C. §§ 1531-1544. Please see timber sale contract clauses G-066 and G-220 for further information.

Threatened and Endangered Species

DNR cannot verify the presence or absence of **any** threatened or endangered species that may affect the operability of the timber sale. Purchasers must rely on their own assessments.

Export Restricted

All timber purchased under these state DNR contracts shall not be exported outside of the United States until the timber has been processed. Purchasers shall not violate any of the prohibitions in WAC 240-15-015 (relating to the prohibitions on export and substitution), WAC 240-15-025 (relating to reporting requirements), and WAC 240-15-030 (relating to enforcement). If purchasers knowingly violate WAC 240-15-015, purchasers shall be barred from bidding on or purchasing export restricted timber as provided.

Cover photos

Timber Sales in this book are from state trust lands, managed to help build K-12 public schools, state universities, colleges, prisons, mental hospitals, the state Capitol; and to support local services in many counties.

Top left: State Forest Lands are managed to provide revenue to the counties in which they are located such as the Pacific County Courthouse in South Bend, Washington. Northwest Bridge Company of Portland, Oregon completed construction of the courthouse building in June of 1911. One unusual feature of the historic building is an "art glass dome" that crowns the structure. The courthouse is listed on the National Register of Historic Places.

Certification Opportunities for DNR Timber Purchasers

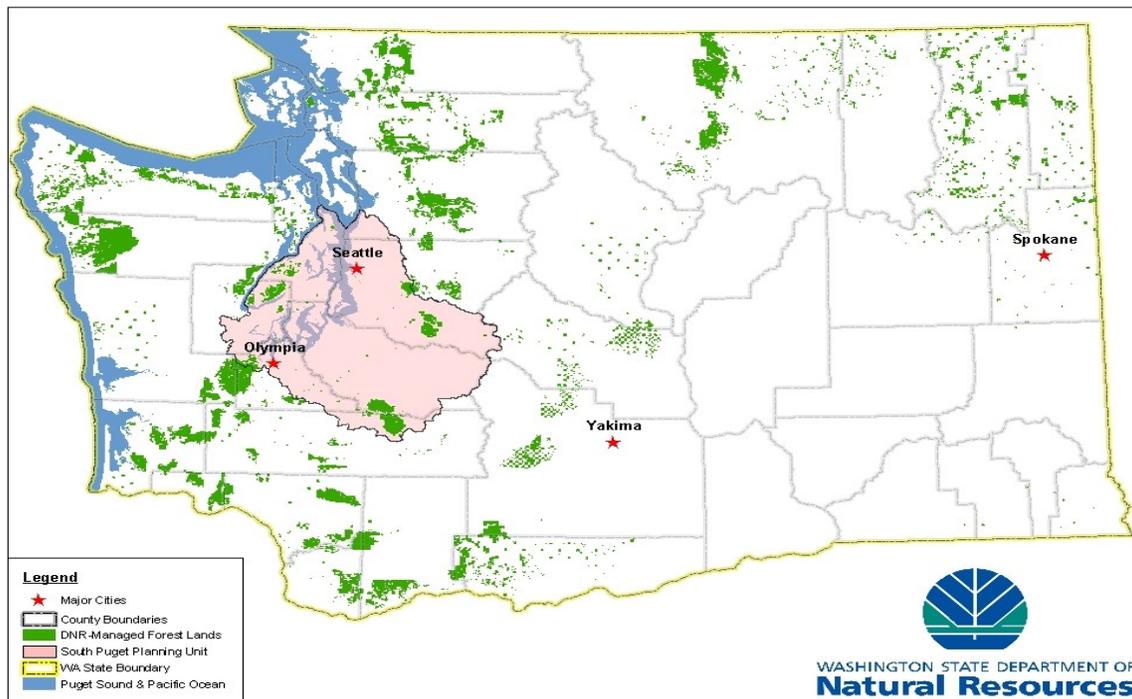

Certified forests are grown to an approved set of standards which demonstrate environmentally responsible, socially beneficial, and economically viable management practices that promote responsible forestry. This unique commitment to responsible forestry recognizes that forest landowners play a critical role in ensuring the long-term health and sustainability of our forests.

Forest Stewardship Council® (FSC®) is an independent, non-profit organization that promotes responsible management of the world's working forests through the development of forest management standards, a voluntary certification system, and trademarks that provide recognition and value to products bearing the FSC label in the marketplace. FSC standards ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way.

Sustainable Forestry Initiative, Inc. is an independent non-profit organization internationally endorsed and accepted around the world. The *Sustainable Forestry Initiative® (SFI®)* program is based on the premise that responsible environmental behavior and sound business decisions can co-exist. Its three-chamber Board of Directors governs all aspects of the SFI program, with equal representation from the environmental, economic and social sectors.

Currently, all Department of Natural Resources (DNR)-managed forested state trust lands in Washington State are certified under the 2010-2014 SFI program Standard. Lands within DNR's South Puget Habitat Conservation Plan Planning Unit, located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties, are dually certified under the FSC Pacific Coast Regional Standard and the 2010-2014 SFI program Standard.

Certification under each standard involves an inspection audit of the landowner's forest management activities by an independent third-party accredited team to verify that it meets specified forest management principles. If the forest unit complies with the specific standard, the landowner receives a certificate of conformance ensuring that responsible forestry is being practiced. Both standards encourage integration of perpetual growing and harvesting of trees with strong measures to protect wildlife, plants, soil, water, and air quality. Both standards provide a seal of approval that forests certified under these principles are well-managed. The global marketplace recognizes and endorses multiple forest certification standards. Each standard has individual market niches. By being dually certified, DNR can maximize its customer base and provide choices to the consumer.

DNR's FSC certificate number is: BV-FM / COC-080501

DNR's SFI certificate number is: BV-SFIS-US09000572

DNR-managed forested state trust lands within the South Puget Habitat Conservation Plan Planning Unit (located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties) are certified as being in compliance with the Forest Stewardship Council Pacific Coast Regional Standard. This makes DNR's SP Planning Unit dually certified under both the FSC and SFI program Standards.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the FSC Program, visit www.fscus.org.

To learn more about DNR timber sales certified under the FSC Standard, visit www.dnr.wa.gov.

FSC A.C. owns all right, title, and interest in and to the Forest Stewardship Council trademarks.

All DNR-managed forested state trust lands across the state have been certified as being in compliance with the 2010-2014 Sustainable Forestry Initiative program Standard.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the SFI program, visit www.sfiprogram.org.

To learn more about DNR timber sales certified under the SFI program Standard, visit www.dnr.wa.gov.

Sustainable Forestry Initiative® and SFI® word marks and logo marks used are registered marks owned by Sustainable Forestry Initiative Inc.

Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. ***The merchantability of the forest products.*** The use of the term "merchantable" in any document is not intended to vary the foregoing.
- b. ***The condition of the forest products.*** All forest products will be conveyed "AS IS."
- c. ***The acreage contained within any sale area.*** Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. ***The volume, quality, or grade of the forest products.*** The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. ***The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.*** These documents have been prepared for the State's appraisal purposes only.
- f. ***That the sale area is free from threatened or endangered species, or their habitat.*** The State is not responsible for any interferences with forestry operations that result from the presence of any

threatened or endangered species, or the presence of their habitat, within the sale area.

g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.

h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.

B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA).

C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.

D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.

E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.

F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.

G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map,

sale preview packets and that in the timber sale contract, the **signed contract will prevail**.

H. Purchasers must pay the Forest Excise Tax on the bid price, permanent road construction costs, and other considerations. The tax rate is 5% without the EARR credit and 4.2% with the credit. For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

I. **Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security** specified on each Notice of Sale. **The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation.** Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.

J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.

K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

Bidding Process

A. All timber will be auctioned using the sealed bid method.

B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.

C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.

D. All bids must include the completed Sealed Bid Form and bid deposit.

E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number). Sales added after the book is printed will be inserted to retain this order. Sort sales may be auctioned out of this sequence at the State's convince.

F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.

G. For sales offered on a stumpage basis, the apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced. **This option is not available for sales offered on a delivered basis.**

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

- A. Required bid deposits are listed on each Timber Notice of Sale.
- B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
- C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
- D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**

Timber Sale Per Sale Bid Bonds

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per Sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m., on the day of the auction.**
- D. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- E. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashiers' check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashiers' check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements)
- Licensed to do business in the State of Washington
- Eligible to bid on Export Restricted timber
- Authorized to submit bids

Authorized Representatives

Company officers or company authorized representatives may bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

Within 30 days of confirmation date the successful bidder agrees to furnish Performance Security acceptable to the State in the amount specified on the Notice of Sale. Performance Security must guarantee performance of all provisions of the contract and payment of any damages caused by operations under the contract or resulting from the successful bidders noncompliance with any rule or law.

Bidder's Warranty and Bid Signature

By signing and submitting this bid as an offer to purchaser forest products from the State, the Bidder hereby warrants to the State that they have had an opportunity to fully inspect the sale area and the forest products being sold. Bidder further warrants to the State that they enter this bid based upon their own judgments of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold. Bidder also warrants to the State that they enter this bid without any reliance upon the volume estimates, acreage, appraisals, pre-bid documentation, or any other representation by the Washington State Department of Natural Resources.

_____ Date _____
(Signature of Authorized Representative submitting this bid)

(Print name and title of Authorized Representative submitting this bid)

Note: all sales are subject to confirmation by the Commissioner of Public Lands (Refer 79.15.120)

Instructions For Completing Sealed Bid Form

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks on bid form must be completed including the bid bond number if the bidder is relying upon a bid bond for bid deposit.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box before 10:00 a.m. on the day of auction at the location specified in the Timber Notice of Sale.
 - B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be on the bid bond and timber sale contract. The bid form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Mailed Bids

- A. Bids that are mailed are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BIDE NCLOSED". The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The Sealed Bid Form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope.
 - B. Bids that are mailed will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery. The DNR assumes no responsibility for any delays caused by any delivery service.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Initial Deposit:

Lump Sum Sales - Initial Deposit must equal 10% of the total bid submitted.
(25% if the bidder is a defaulter as defined under WAC 332-140-300)

Weight Scale Sales - Initial Deposit must equal 10% of the bid per ton multiplied by the total sale estimated tonnage. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Scribner MBF Scale Sales - Initial Deposit must equal 10% of the bid per MBF multiplied by the total sale MBF. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

STATEWIDE BID BOND

Bond Number _____

_____ of _____,
(Principal's Name) (City, State)

hereinafter called PRINCIPAL, and _____ hereinafter called
SURETY,

a corporation organized under the laws of the State of _____, and authorized to transact surety business in the State of Washington, as SURETY, are held and firmly bound jointly and severally to the State of Washington, Department of Natural Resources, hereinafter called the STATE, in the sum of \$150,000.00 Dollars, lawful money of the United States of America. The PRINCIPAL binds itself, its heirs, executors, administrators, successors, and assigns, and the SURETY binds itself, its successors, and assigns, all jointly and severally.

This bond shall be governed by the laws of the State of Washington. In the event of a lawsuit involving this bond, a venue shall be proper only in Thurston County Superior Court.

Signed, sealed and dated this _____ day of _____, _____.
(month) (year)

This statewide bid bond may be used for bidding between the following dates:

Starting:

Ending:

It Is Hereby Understood and Agreed:

If PRINCIPAL is an apparent high bidder, PRINCIPAL shall before 4:30 p.m ., on day of sale, pay to the STATE the amount of the initial deposit in the form of a certified check, cashier's check, bank draft, cash or money order, then this agreement shall be void for the sale on which the payment is made; otherwise, it will remain in force.

SURETY will make payment to the STATE within ten days after demand by the STATE if the PRINCIPAL shall fail to make timely payment as described above.

The SURETY may cancel this bond by sending a written notice to the STATE, not less than forty-five days before a cancellation date; liability shall terminate as to acts or omissions of the PRINCIPAL that occur after the cancellation date.

The PRINCIPAL and the SURETY executed this bond on the date first mentioned.

Pole sorts (Distribution): Enter three or more lengths. Attach preferred manufacturing information.

Pole sorts (Transmission): Enter six or more lengths. Attach preferred manufacturing information.

Tonnage sorts: See bid form instructions for required log lengths. Enter additional custom lengths as desired.

Log Length Ranges	Bidder's Preferred Log Lengths (Log lengths exclude trim)
12 ft. through 20 ft.	
22 ft. through 30 ft.	
32 ft. through 40 ft.	
Distribution Poles – 35 ft. through 55 ft.	
Transmission Poles – 60 ft.+	

Additional Log or Pole Length Information:

To provide additional preferred cutting information you may attach a separate sheet or "Cutting card".

Log Delivery Information:

1) Designate the point of delivery and address (must be a street address)

(Location Name)

(Street Address)

(City, State and Zip)

2) Designate the state approved Scaling and Weighing facilities closest to the point of delivery as needed.

Scaling Location Information

(Scaling Location Name)

(Third Party Scaling Organization)

(Scaling Location Street Address)

(Scaling Location City, State and Zip)

Weighing Location Information

(Weighing Location Name)

(Weighing Location Owner)

(Weighing Location Street Address)

(Weighing Location City, State and Zip)

Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion. Additional terms or conditions requested by the bidder on or attached to the Log Sort Sealed Bid or Supplemental Information Forms are informational only and non-binding.

Instructions for Completing the Log Sort Sealed Bid and Supplemental Information Forms.

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form(s) provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks including Agreement Number, Sort Number, Bid amount (per mbf or ton as appropriate for the sort), Bid deposit amount and type. Signatures and date on bid form must be completed including the bid bond number if bidder is relying upon a bid bond for bid deposit.

Bids may not be accepted if a completed '**Log Sort Sealed Bid Supplemental Information Form**' is not included with the approved '**Log Sort Sealed Bid Form**'.

Required log lengths for tonnage sorts: Preferred log lengths for tonnage sawlog sorts shall include the following plus any additional lengths identified on the Bid Supplemental Information form:

Species Type	Preferred Lengths
Conifer Sorts	16', 20', 24', 26', 32', 40'
Hardwood Sorts	18', 20', 26', 28', 30', 36', 38', 40'

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box or auction envelope before 10:00 a.m. on the day of sale at the location specified in the notice of sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same as the name on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope, please.
- C. Sealed bid envelopes must contain the following:
 1. A completed Log Sort Sealed Bid form;
 2. A completed Supplemental Information form; and
 3. A bid deposit

Mailed Bids

- A. Mail-in bid envelopes are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED." The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope, please.
- B. Mail-in or otherwise delivered bids will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery they chose. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes must contain the following:
 1. A completed '**Log Sort Sealed Bid Form**';
 2. A completed '**Log Sort Sealed Bid Supplemental Information Form**' and;
 3. A bid deposit

Sale Total			3,887										

MINIMUM BID: \$301.5/MBF (est. value \$1,123,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE

SECURITY: \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: December 31, 2011 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$112,300.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable, Shovel and Track skidder. Ground-based systems will be restricted to 35% slopes and dry soil conditions.

ROADS: 4.81 stations of optional construction. 78.25 stations of required pre-haul maintenance. Rock is available at no charge to the Purchaser from the Weyerhaeuser 2400 Pit, located in the NW ¼ of Sec. 33, T10N, R02E, W.M. Purchaser shall manufacture approximately 600 cubic yards of PIT RUN rock. Rock not used for roads shall be stockpiled at a place approved in writing by the Contract Administrator. Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: Acreage was determined by GPS. Harvesting activities are estimated to be 20% ground-based harvesting and 80% cable harvesting.

TIMBER NOTICE OF SALE

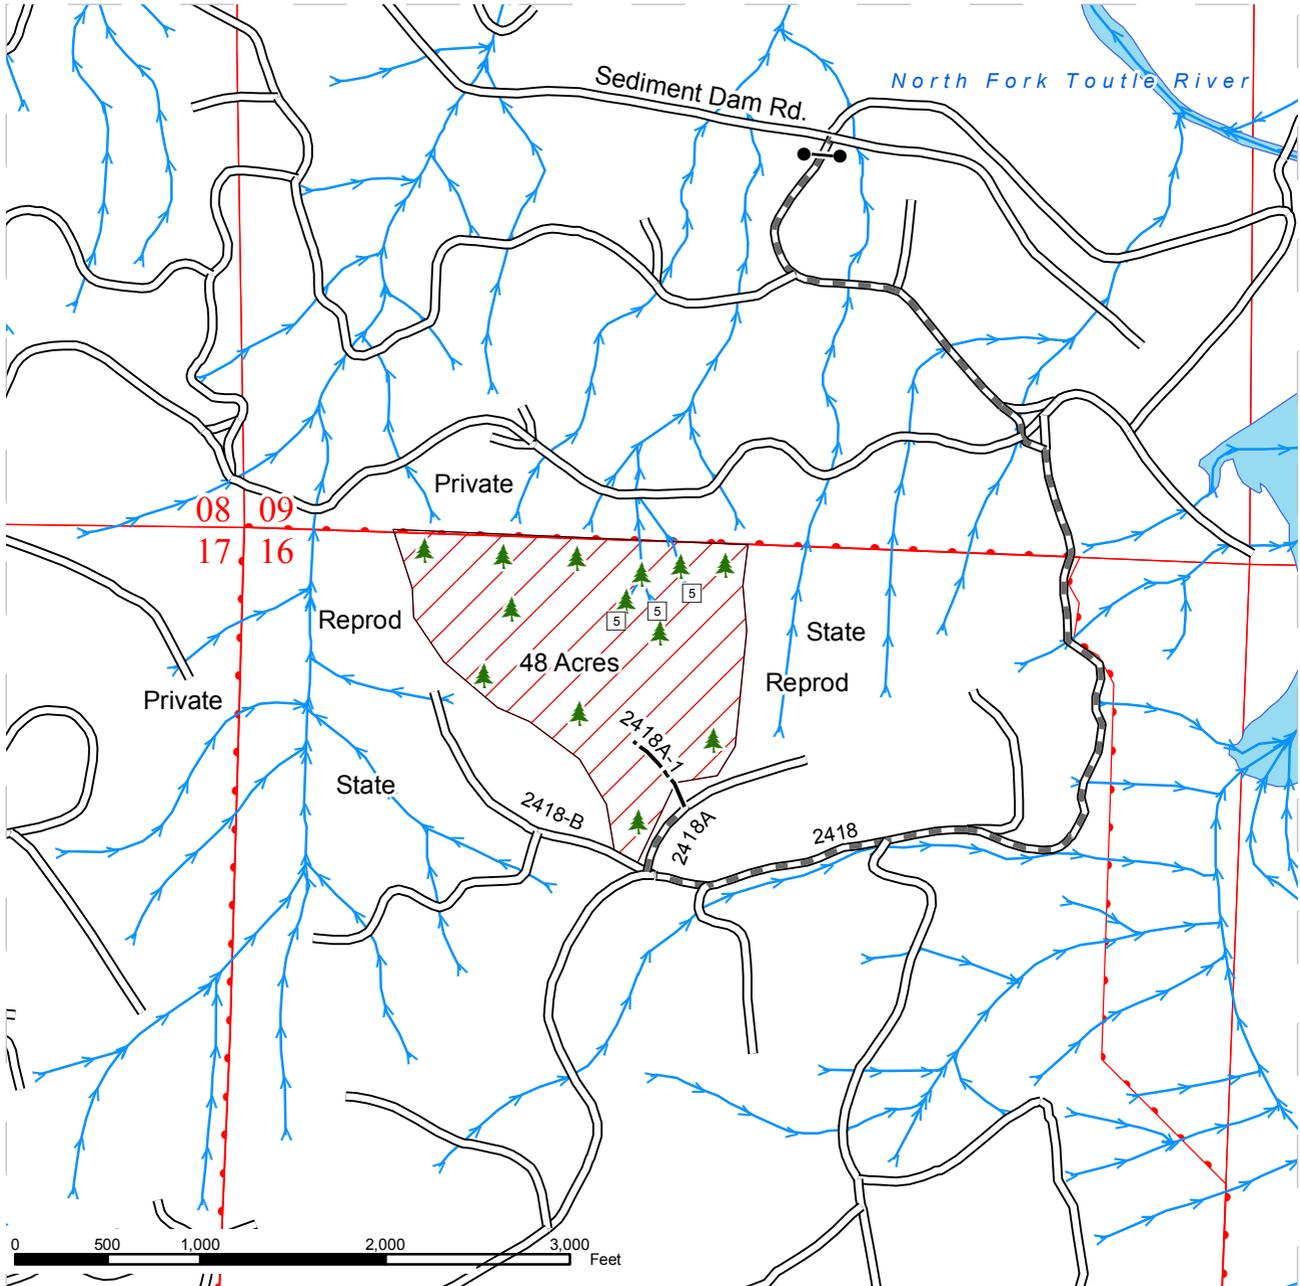

FEES: \$51,500.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: A L-A-D DNR/Weyco key will need to be obtained from the Pacific Cascade Region office to access the unit. Western red cedar volume is an estimate of incidental volume. No western red cedar will be cut or removed without Contract Administrative written approval.

EXPIRATION DATE: October 31, 2012 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$161,400.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Tracked ground based equipment. If Purchaser elects to shovel log, shovel logging shall be in accordance with the attached Schedule A, which is part of this contract. Yarding may be restricted during wet weather conditions if excessive rutting occurs in the opinion of the Contract Administrator. Falling and Yarding will not be permitted from November 1 to April 30, nor on weekdays from 7:00 pm to 7:00 am, weekends or state recognized holidays.

ROADS: 37.50 stations of required reconstruction. 50.07 stations of optional construction. 45.77 stations of abandonment, if constructed. Cross section designs are available at the South Puget Sound Region office upon request. Purchaser maintenance on all roads used. Road construction will not be permitted from November 1 to April 30, nor on weekdays from 7:00 pm to 7:00 am, weekends or state recognized holidays. The hauling of forest

TIMBER NOTICE OF SALE

products will not be permitted from November 1 to April 30, nor on weekdays from 7:00 pm to 7:00 am, weekends or state recognized holidays.

ACREAGE DETERMINATION

CRUISE METHOD: Unit acreages were determined by traversing boundaries by GPS. Right of way acreage was determined by a field measurement. Traverse GPS data files are available upon request by emailing audrey.mainwaring@dnr.wa.gov or calling Audrey Mainwaring at (360) 802-7001. Units were cruised using a variable plot sample with a BAF of 62.5 on a 246 x 246 foot grid. Right of way units were cruised using various sampling, see cruise specifications.

FEES: A check payable to DNR for \$958.00 is due on day of sale for a Right of Way Use Permit entered into with King County, Department of Development and Environmental Services for the construction of the access connection to 308th Place S.E., a drainage culvert and paved apron. \$55,186.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Purchaser shall pull vine maple and leave roots exposed and detached from the soil in the harvest area.

An HPA has been obtained for the removal of an 18" x 40' existing culvert and the installation of a 40' x 16' steel bridge on the 500 Road.

The haul route utilizes 308th Place SE and 308th Avenue, which are very narrow and winding county roads. All timber sale traffic will need to use extra precautions when traveling to and from the sale area.

Purchasers shall evaluate the overhead utility lines on 308th Avenue for adequate clearance for commercial truck traffic.

Timber purchased from Units #2 and #3 is FSC (Forest Stewardship Council Pacific Coast Regional Standard) certified under FSC certificate number BV-FM/COC-080501.

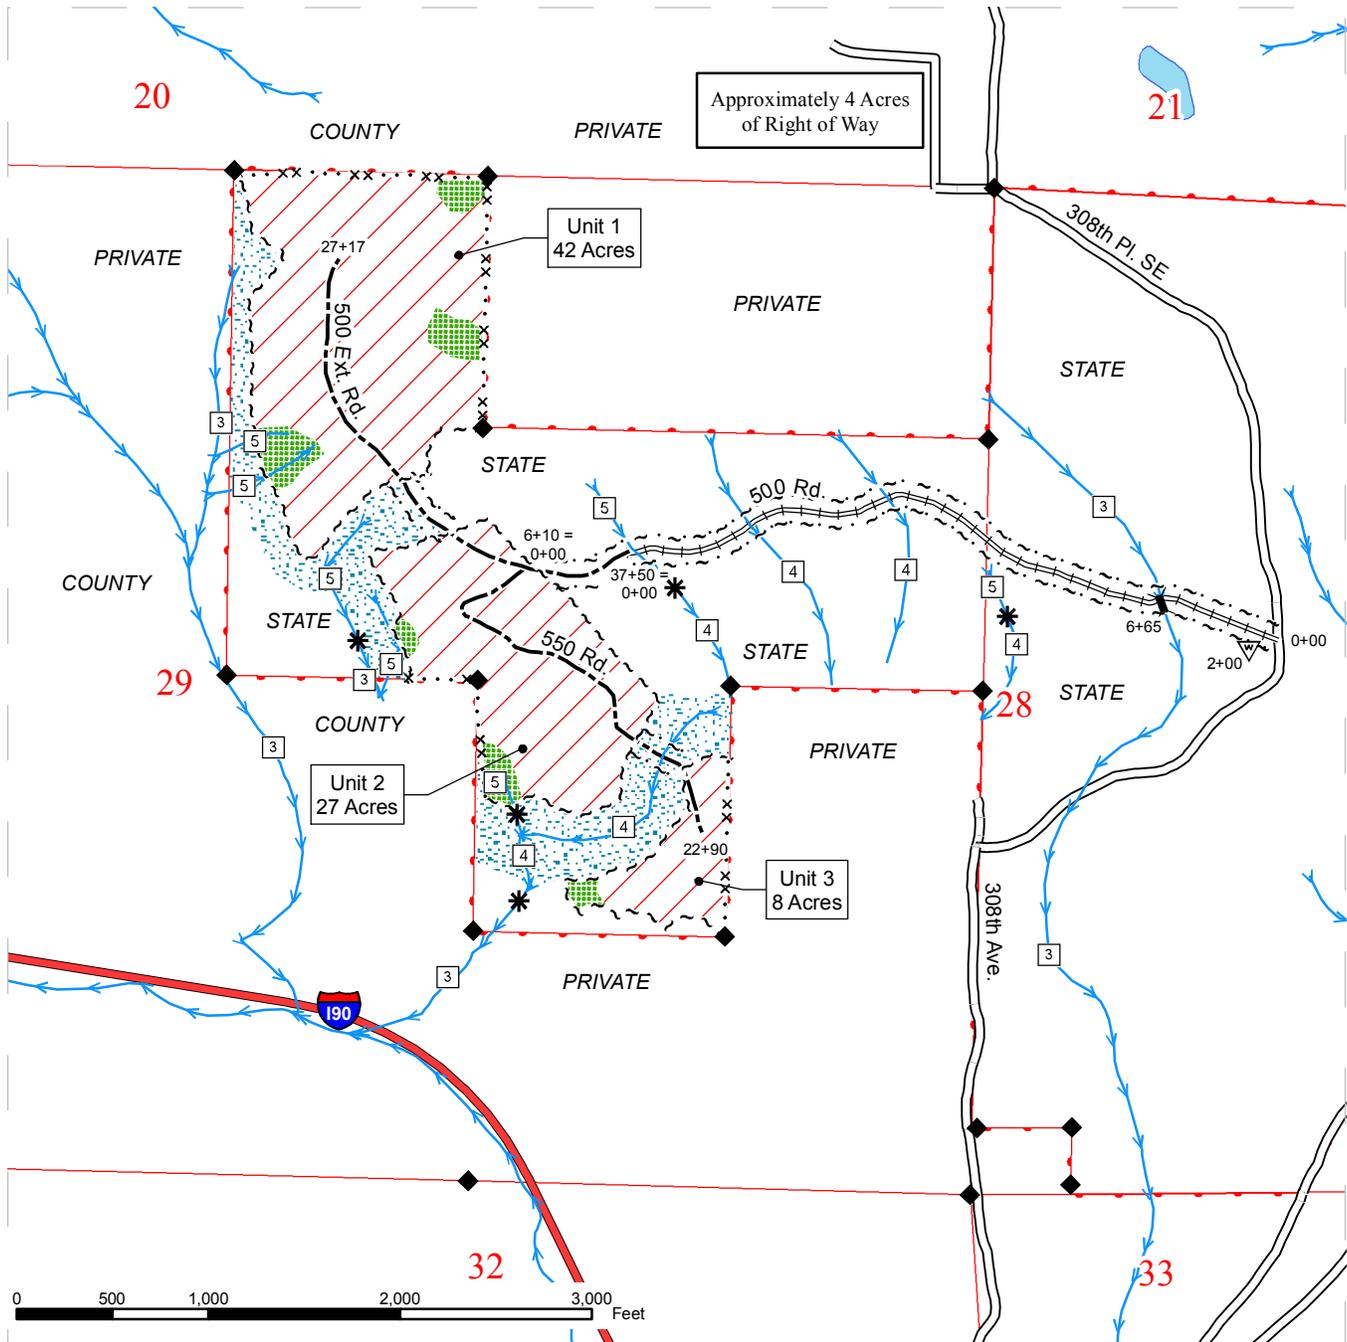

Purchaser assumes responsibility for any county road use permits and for all costs associated with permits, in addition to the permit covered under clause G-390, and extra maintenance or repair levied by a county for any county road used by the Purchaser.

See contract clause D-041, Reserve Tree Damage for damage amount.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

TIMBER NOTICE OF SALE

BID METHOD: Sealed Bids **UNIT OF MEASURE:** MBF scale/Tonnage scale

EXPIRATION DATE: June 30, 2011 **ALLOCATION:** Export Restricted

PAYMENT

SECURITY: To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING

PROCEDURES: A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the [Pacific Cascade Region Office](#) in [Castle Rock, WA](#). Phone number [\(360\) 577-2025](#).

TIMBER EXCISE

TAX: Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2% with the credit. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8849.

Use the following rates for estimating taxable stumpage:

Harvest Cost = [\[Insert harvest cost \\$/ton\] /MBF for sorts 2-5, 7, 9, and 10.](#)

[\\$8.00/Ton for sorts 1, 6, and 8.](#)

[\\$7.00/Ton for sort 11.](#)

Haul Cost (sorts 2, 3, 4, 5, 7, 9, 10) = ((tons/mbf rate)(\$2.63) + (tons/mbf rate)(\$0.16)(C miles) + (tons/mbf rate)(\$0.10)(A miles))(delivered net mbf).

Haul Cost(sort 1, 6, 8, 11) = (tons)(\$2.63) + tons(\$0.16x C miles) + tons(\$0.10 x A miles)).

ARRF (mbf sorts)= \$22.25 per mbf. ARRF(sort 1) = \$3.01 per ton. ARRF(sort 6) = \$2.82 per ton. ARRF(sort 8) = \$3.22 per ton. There is no ARRF charge for sort 11.

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All mbf and tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

For more information regarding this log sort sale visit our web site:

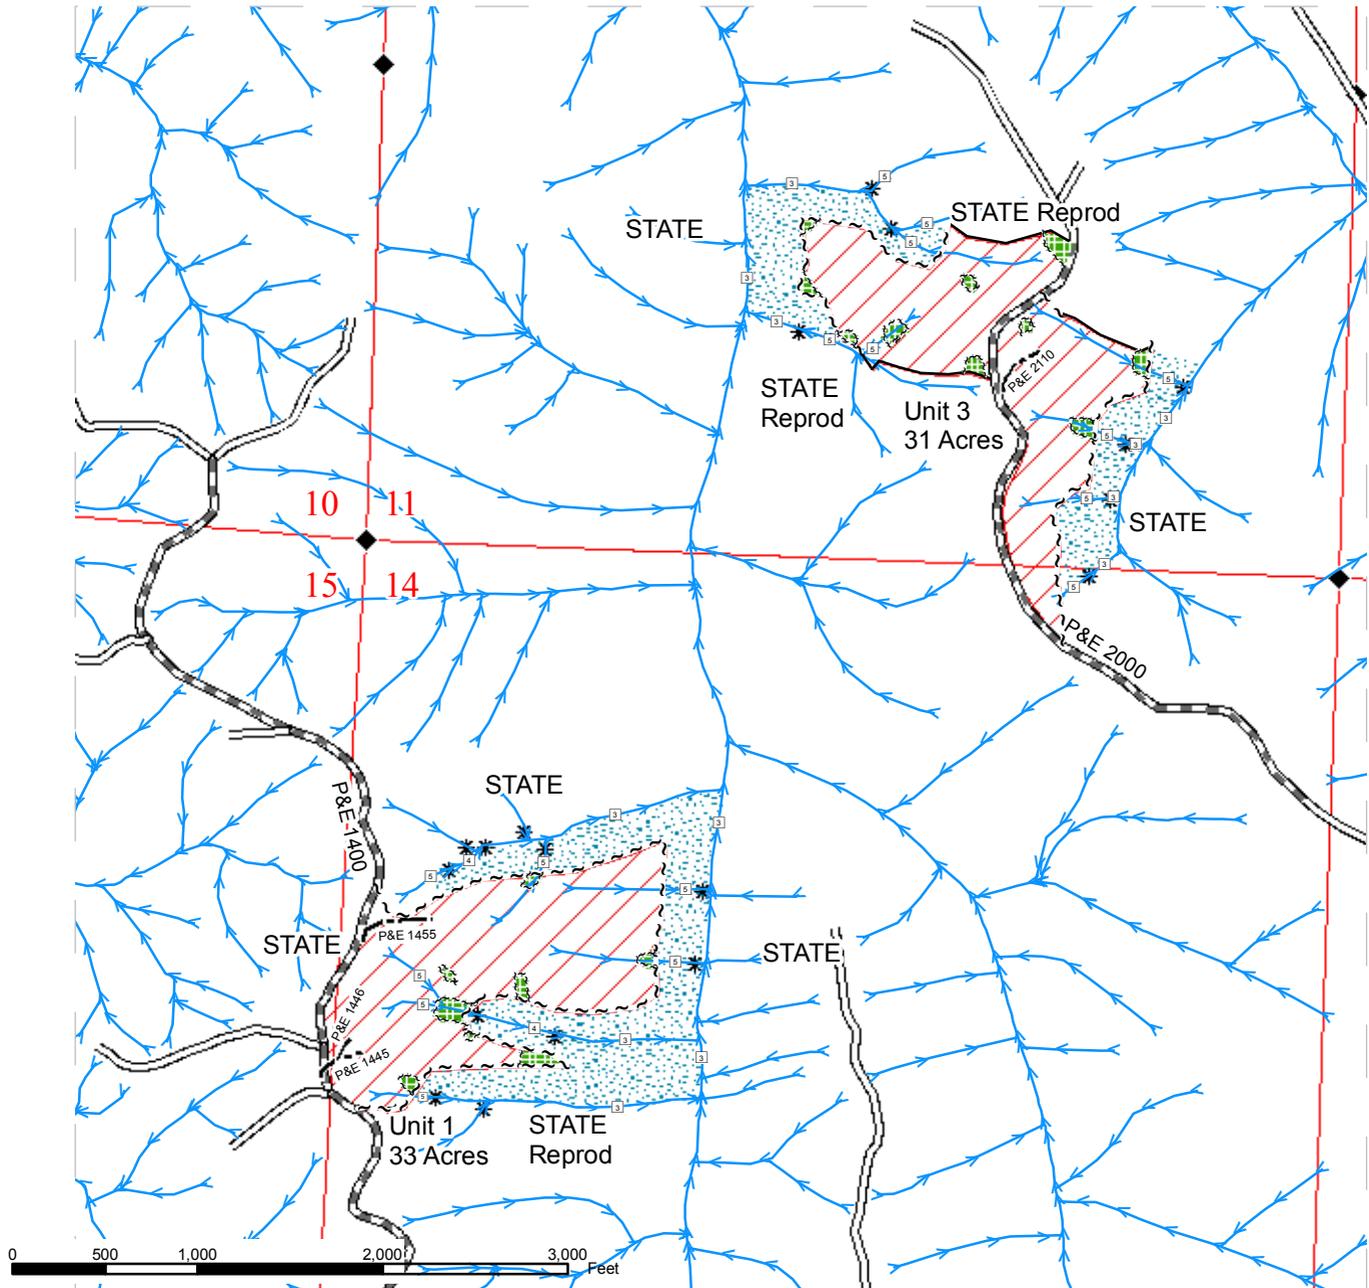

<http://www.dnr.wa.gov/htdocs/fr/sales/>. If you have questions call [Marcus Johns](#) at the [Pacific Cascade Region office](#) at [\(360\) 577-2025](#) or [Steve Teitzel](#) at the Product Sales and Leasing Division Office in Olympia at [\(360\) 902-1741](#).

CONFIRMATION: Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion.

MINIMUM BID: \$1,348,000.00

BID METHOD: Sealed Bids

PERFORMANCE SECURITY: \$100,000.00

SALE TYPE: Lump Sum

EXPIRATION DATE: September 30, 2013

ALLOCATION: Export Restricted

BID DEPOSIT: \$134,800.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

TIMBER NOTICE OF SALE

HARVEST METHOD: Cable; cable, shovel, or tracked skidder/forwarder on sustained slopes 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 9.06 stations of required construction. 47.52 stations of optional construction. 47.52 stations of road to be abandoned if built. Two gravel deck log stringer bridge installations (35-foot and 40-foot span gravel deck log stringer bridge).

Development of an existing hardrock source (WV-0502-01 Hardrock Pit) at station 2+30 of the WV-0502 Road. Will involve drilling, shooting, and processing rock to generate approximately 261 cubic yards of riprap and approximately 4,423 cubic yards of 3-inch-minus ballast. This rock is available at no cost on State land.

Road construction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 134.6 acres gross. 4.1 acres deducted for green tree retention clumps and 67.1 deducted for RMZ areas. 63.4 acres net. Cruised using variable plot method. Expansion factor used is 54.45. Sighting height is 4.5 feet.

HQ DF noted within the sale area. See cruise or further details (approximately 192 mbf of the above listed DF 2S is deemed high quality by the Department).

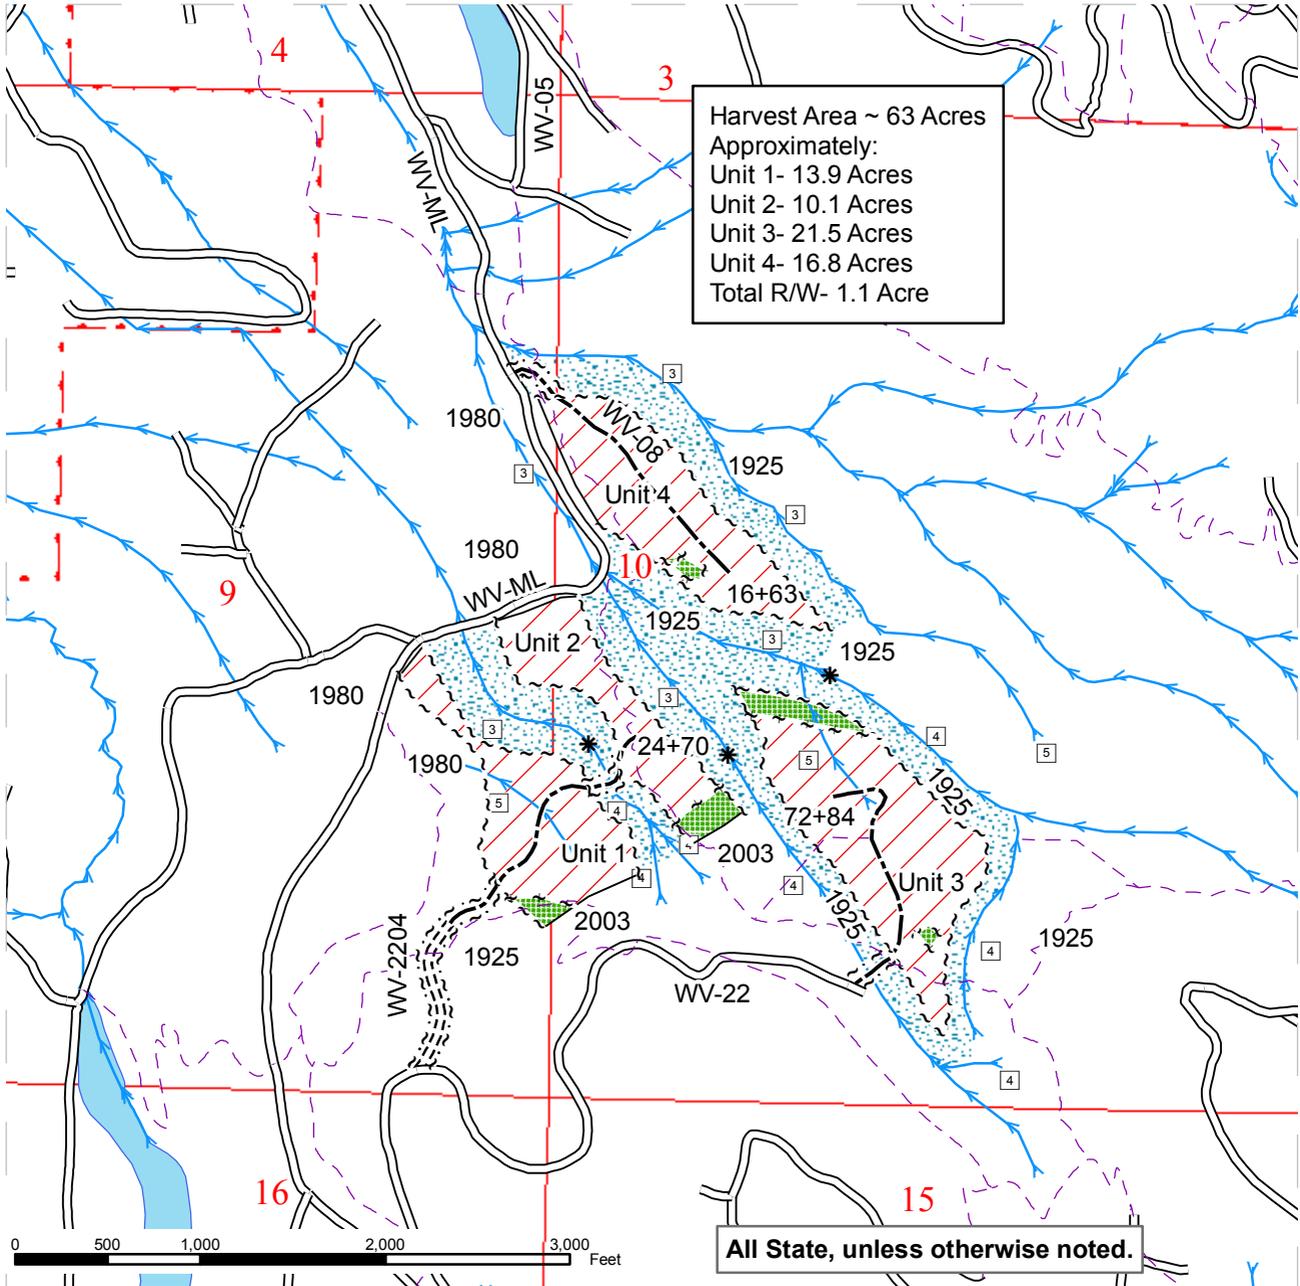

FEES: \$55,610.25 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: See FPN for conditions related to installation of log stringer bridges.

MINIMUM BID: \$1,097,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2012 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$109,700.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 36.79 stations of required construction. 15.59 stations of required reconstruction. 33.72 stations of optional construction. 33.72 stations of road to be abandoned if built.

TIMBER NOTICE OF SALE

Development of an existing hardrock source (SP-0202 Hardrock Pit) at station 9+61 of the SP-02 Road will involve stripping, drilling, shooting, and processing rock to generate approximately 278 cubic yards of riprap and approximately 6,710 cubic yards of 3-inch-minus ballast. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse on Units and GPS/GIS on R/W. 121.3 acres gross. 5.6 acres deducted for green tree retention clumps and 0.8 acres deducted for balds. 114.9 acres net. Cruised using variable plot method. Expansion factor used is 54.45. Sighting height is 4.5 feet. 68 plots taken.

HQ DF noted within the sale area. See cruise for further details (approximately 87 mbf and 97 mbf of the above listed DF SM and 2S, respectively, is deemed high quality by the Department).

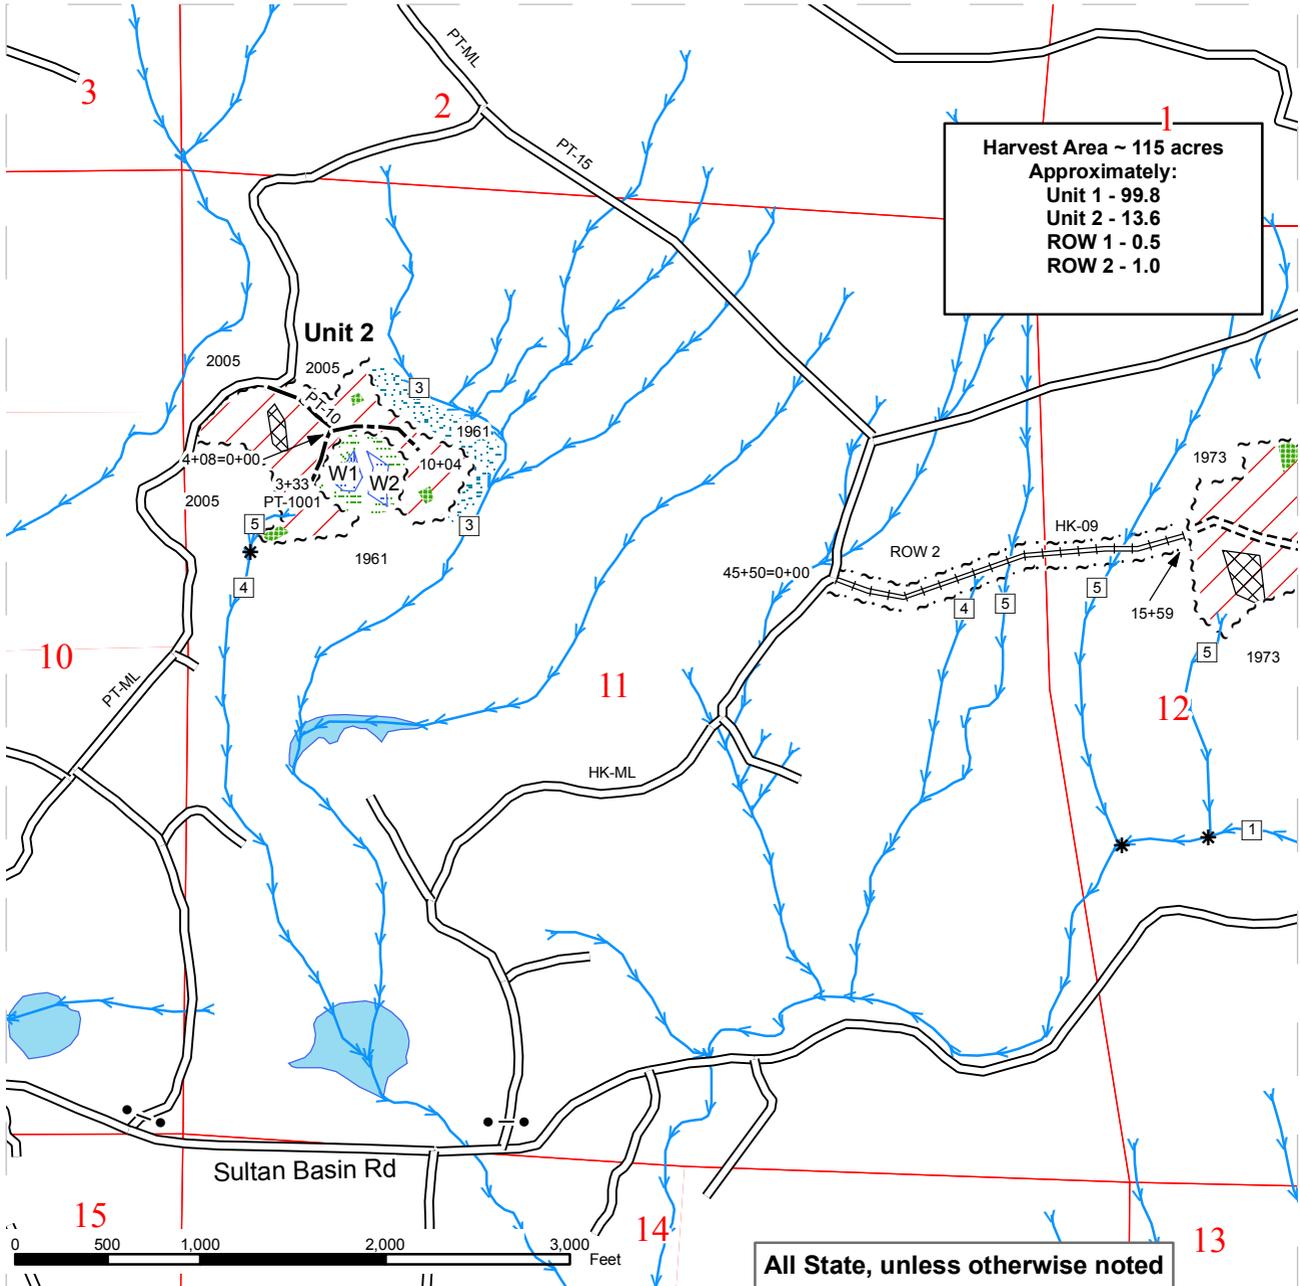

FEES: \$61,639.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: This sale has a Class IV Special FPA. Please see Forest Practices FPA Notice of Decision for details regarding this proposal.

TIMBER NOTICE OF SALE

SALE NAME: GOLD FEVER

AGREEMENT NO: 30-086038

AUCTION: January 26, 2011 starting at 10:00 a.m., **COUNTY:** Snohomish
Northwest Region Office, Sedro Woolley, WA

SALE LOCATION: Sale located approximately 10 miles northeast of Monroe, WA.

**PRODUCTS SOLD
AND SALE AREA:**

All timber bounded by white timber sale boundary tags, adjacent young stands, and the LL-ML Road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #1.

All timber bounded by white timber sale boundary tags, blue special management tags along property lines, adjacent young stands, and the LL-12 and LL-1208 roads, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, forest products tagged out by blue special management tags and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

Trees marked by blue special management tags along property lines located in Unit #2.

Trees marked with orange paint located in the WMZ (which is tagged out by blue special management tags) in Unit #2.

All timber bounded by orange right of way tags, except that title to the timber within the right of way tags is not conveyed to the Purchaser unless the road segment is actually constructed.

The above described products on part(s) of Sections 1, 2, 11 and 12 all in Township 28 North, Range 7 East, W.M., containing 131 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

TIMBER NOTICE OF SALE

EXPIRATION DATE: September 30, 2012

ALLOCATION: Export Restricted

BID DEPOSIT: \$152,200.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 25% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 108.42 stations of optional construction. Development of an existing hardrock source (TL-01 Hardrock Pit) at station 5+28 of the TL-ML Road will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

Development of an existing hardrock source (WL-0705 Hardrock Pit) at station 27+00 of the WL-07 Road will involve stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

This project is estimated to need approximately 171 cubic yards of riprap and approximately 6,500 cubic yards of 3-inch-minus ballast.

Road construction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS and GIS traverse. 137.0 acres gross. 5.0 acres deducted for green tree retention clumps and 1.1 acres deducted for WMZ area that will not be thinned. 130.9 acres net. Cruised using variable plot method. Expansion factor used is 40.00 on RA in Unit #1 and 54.45 on all else. Sighting height is 4.5 feet. A total of 70 plots taken.

HQ DF noted within the sale area. See cruise or further details (approximately 496 mbf of the above listed DF 2S is deemed high quality by the Department).

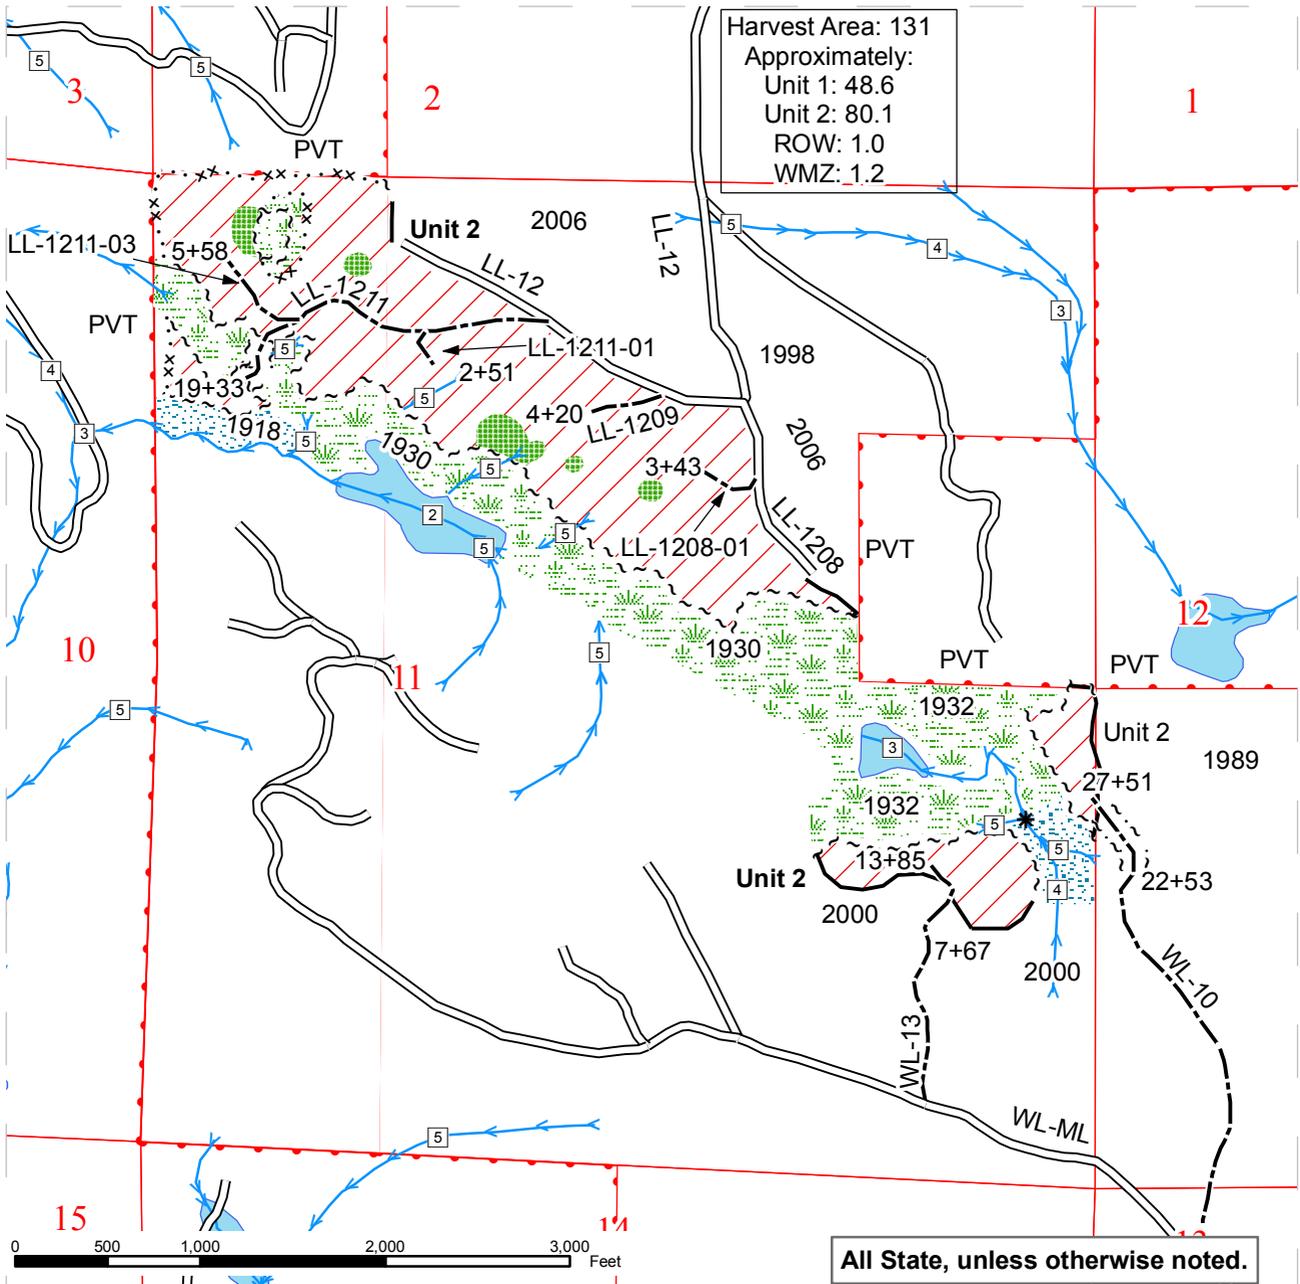

FEES: \$78,903.75 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Blue special management tags demarcate: 1.) Property line boundary in Unit #2. 2.) The outer edge of the WMZ in Unit #2.

TIMBER NOTICE OF SALE

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

BID METHOD: Sealed Bids **UNIT OF MEASURE:** MBF scale/Tonnage scale

EXPIRATION DATE: May 31, 2011 **ALLOCATION:** Export Restricted

PAYMENT SECURITY: To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING PROCEDURES: A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the Pacific Cascade Region Office in Castle Rock, WA. Phone number (360) 577-2025.

TIMBER EXCISE TAX:

Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8849.

Use the following rates for estimating taxable stumpage:

Harvest Cost = \$65.00 Mbf for Sorts 2 – 11 (Estimated)

\$8.00 per ton for Sort 1

\$7.00 per ton for Sort 12

Haul Cost (Sorts 2 – 11) = ((tons/mbf rate)(\$2.63) + (tons/Mbf rate)(\$0.16)(C miles) + (tons/Mbf rate)(\$0.10)(A miles))(delivered net Mbf).

Haul Cost (Sorts 1 & 12) = (tons)(\$2.63) + tons(\$0.16x C miles) + tons(\$0.10x A miles).

ARRF = \$22.25 per Mbf for Sorts 2 – 11. ARRF = \$2.75 per ton for Sort 1. There is no ARRF charge for Sort 12.

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

For more information regarding this log sort sale visit our web site:

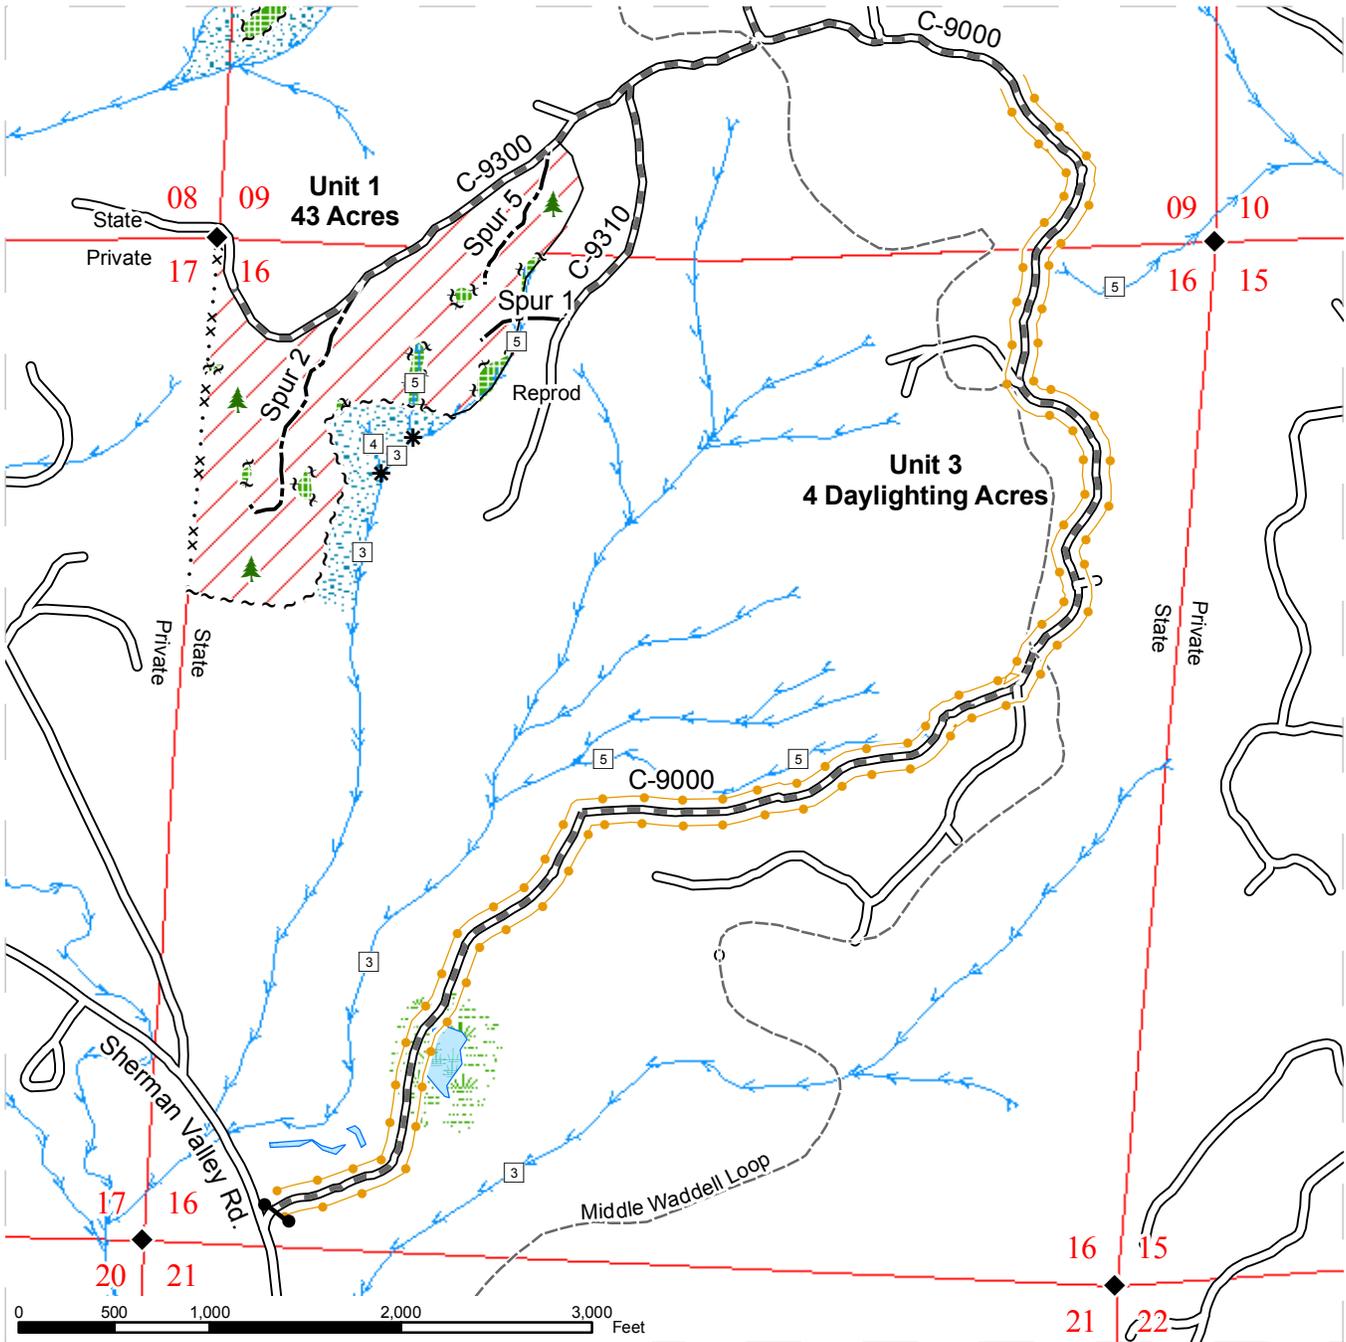

<http://www.dnr.wa.gov/htdocs/fr/sales/>. If you have questions call Marcus Johns at the Pacific Cascade Region office at (360) 577-2025 or Steve Teitzel at the Forest Resources and Conservation Division Office in Olympia at (360) 902-1741 .

CONFIRMATION: Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion.

Sale Total			4,331									

MINIMUM BID: \$1,267,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: October 31, 2011 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$126,700.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable, Shovel and Track skidder. Harvesting activities are estimated to be approximately 33% ground-based and 67% cable harvesting. Ground-based harvesting equipment shall be restricted to dry soil conditions and slopes of 35% and less. Tracked skidders shall only be used for the removal of poles. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator.

ROADS: 13.13 stations of optional construction. 205.76 stations of required pre-haul maintenance. Rock for construction and pre-haul maintenance work under this contract may be obtained, at no charge to the Purchaser, from the Greenline Quarry, located in Section 29, Township 17N, Range 03 West, W.M. Rock for construction and pre-haul maintenance work under this contract may also be obtained from any commercial source, as approved by the Contract Administrator. Hauling will be stopped if rutting over 6" occurs, hauling may resume with Contract Administrator approval.

TIMBER NOTICE OF SALE

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method.

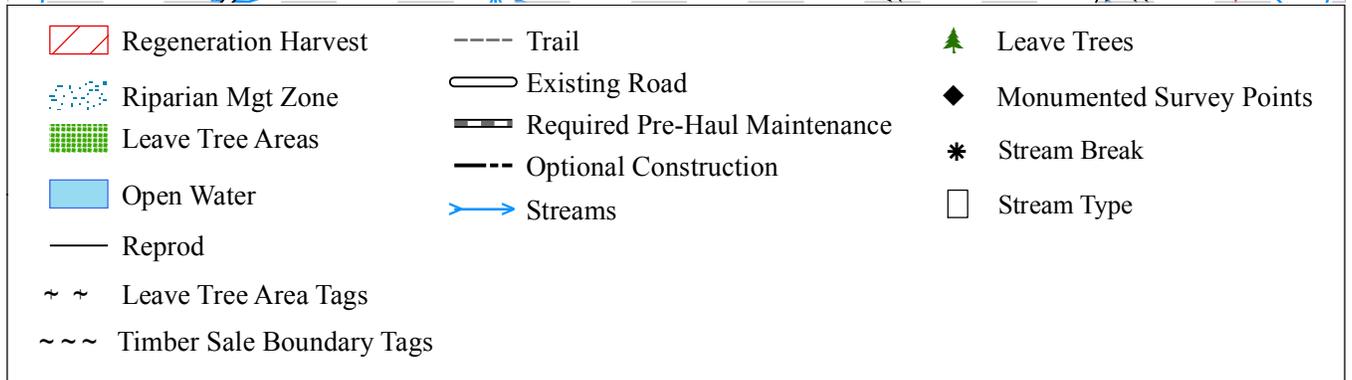

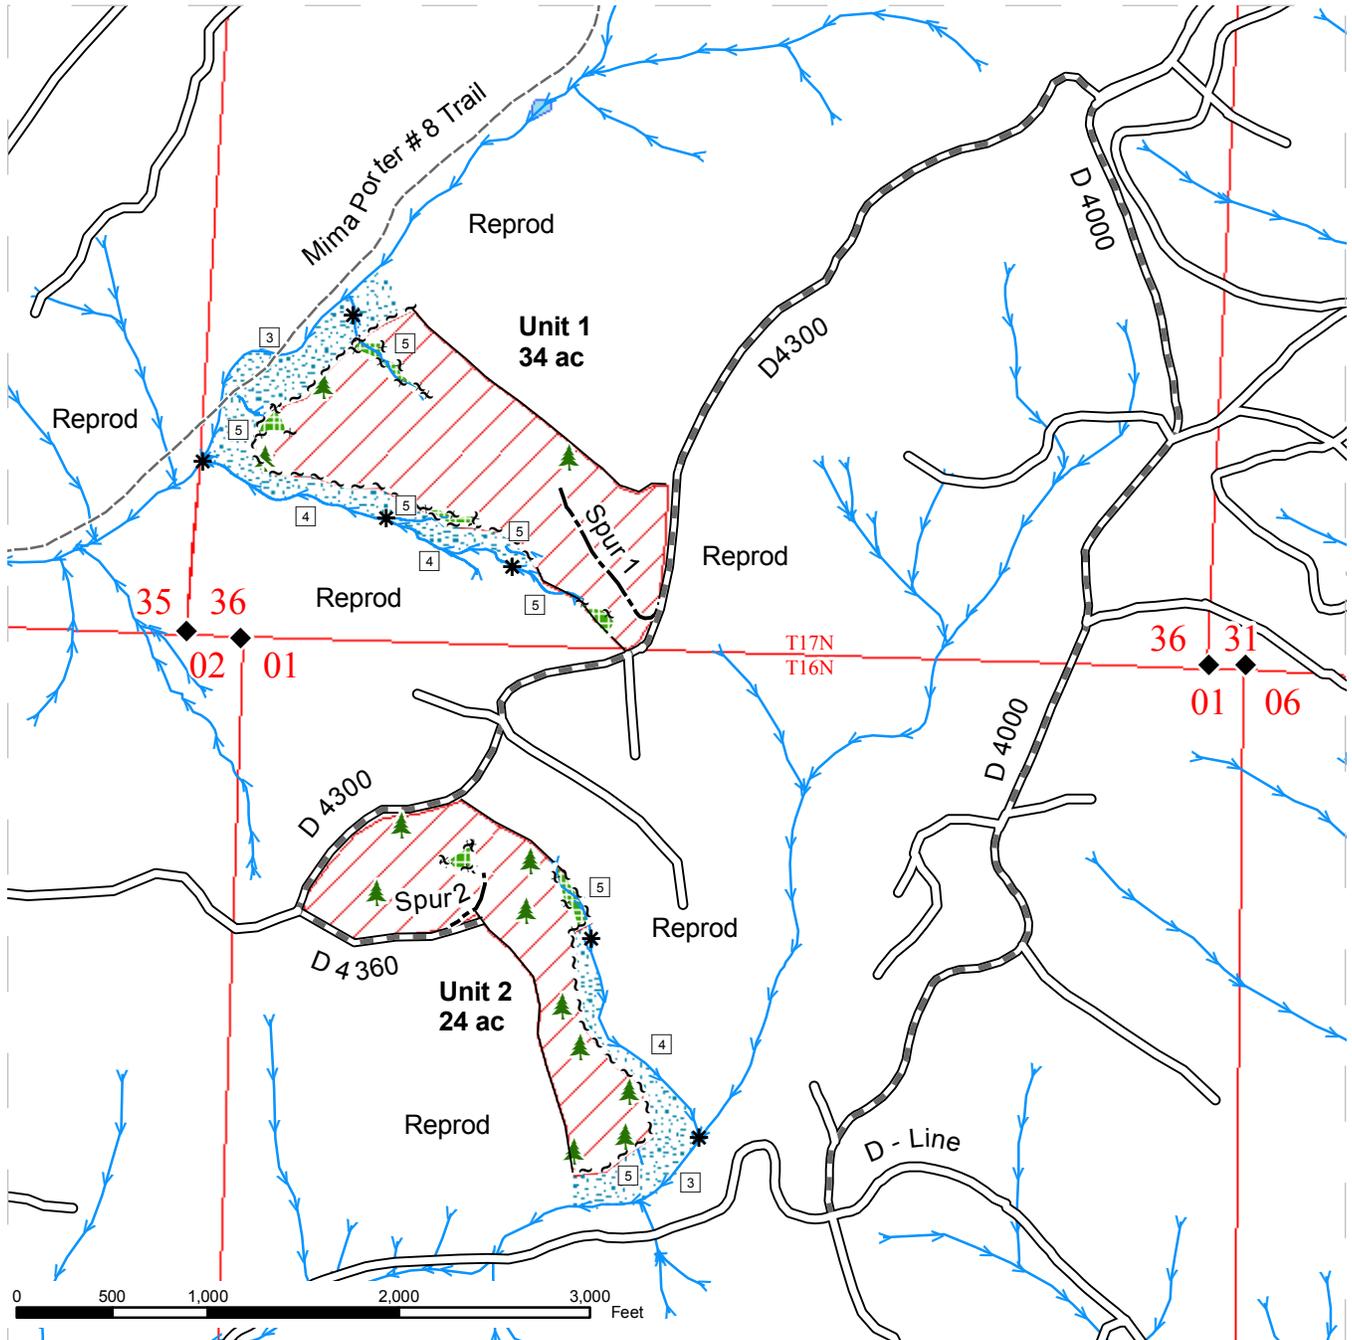

FEES: \$57,400.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: This sale may contain poles. Intermediate supports may be required to prevent soil rutting in Units #1 and #2 off of Spur 1 and Spur 2. Only 1 external yarding corridor will be allowed along the western portion of Unit #2 off of Spur 2. Purchaser shall mark 73 additional leave trees in Unit #1, see Schedule Z for further details. At the completion of logging operations in Unit 1, it is expected that within 15 days, the Purchaser shall repair any damage to and clean out all logging debris from the Mima Porter #8 recreational trail.

Sale Total			6,838									

MINIMUM BID: \$1,594,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2012 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$159,400.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable, shovel, tracked skidder, processor or forwarder on slopes 30% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

Yarding or operation of heavy machinery, felling or bucking shall not be permitted during the daily peak activity period (1 hour before to 2 hours after official sunrise and 1 hour before to 1 hour after official sunset) within the critical nesting season (April 1st – August 31st) for wildlife as illustrated on the TS prospectus map. The restrictions area is south of the ‘Wildlife Timing Restriction’ line in Unit 1 and north of the ‘Wildlife Timing Restriction’ line in Unit 2, as shown on the timber sale map.

TIMBER NOTICE OF SALE

ROADS: 102.54 stations of required construction. 104.56 stations of required reconstruction. 6.38 stations of optional construction. 6.38 stations of road to be abandoned if built.

Development of an existing hardrock source (Doc Spratley Hardrock Pit) at station 3+25 of the ML-04 Road will involve drilling, shooting, and processing rock to generate approximately 236 cubic yards of riprap and approximately 12,855 cubic yards of 3-inch-minus ballast rock. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation, however a "Closed Season Waiver" will not be granted for construction of the ML-1411 Road.

On the ML-ML (73+65 to 92+17): The hauling of forest products will not be permitted from October 15 to April 30 unless authorized in writing by the Contract Administrator; this is NOT WAIVABLE. Also, due to sensitive road conditions, the reconstruction and hauling of rock on the ML-ML (73+65 to 92+17) shall not be permitted between October 15 and April 30; this is NOT WAIVABLE; See Road plan for further details.

The hauling of forest products on all remaining roads shall not be permitted between November 1 and March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 137.37 acres gross. 6.63 acres deducted for green tree retention clumps and 1.82 acres deducted for existing roads. 128.92 acres net. Cruised using variable plot method. Expansion factor used is 40.00, 54.45 and 62.5. Sighting height is 4.5 feet. A total of 72 plots were taken.

HQ DF noted within the sale area. See cruise or further details (approximately 94 mbf of 3P, 493 mbf of SM and 168 mbf of 2S is deemed high quality by the Department).

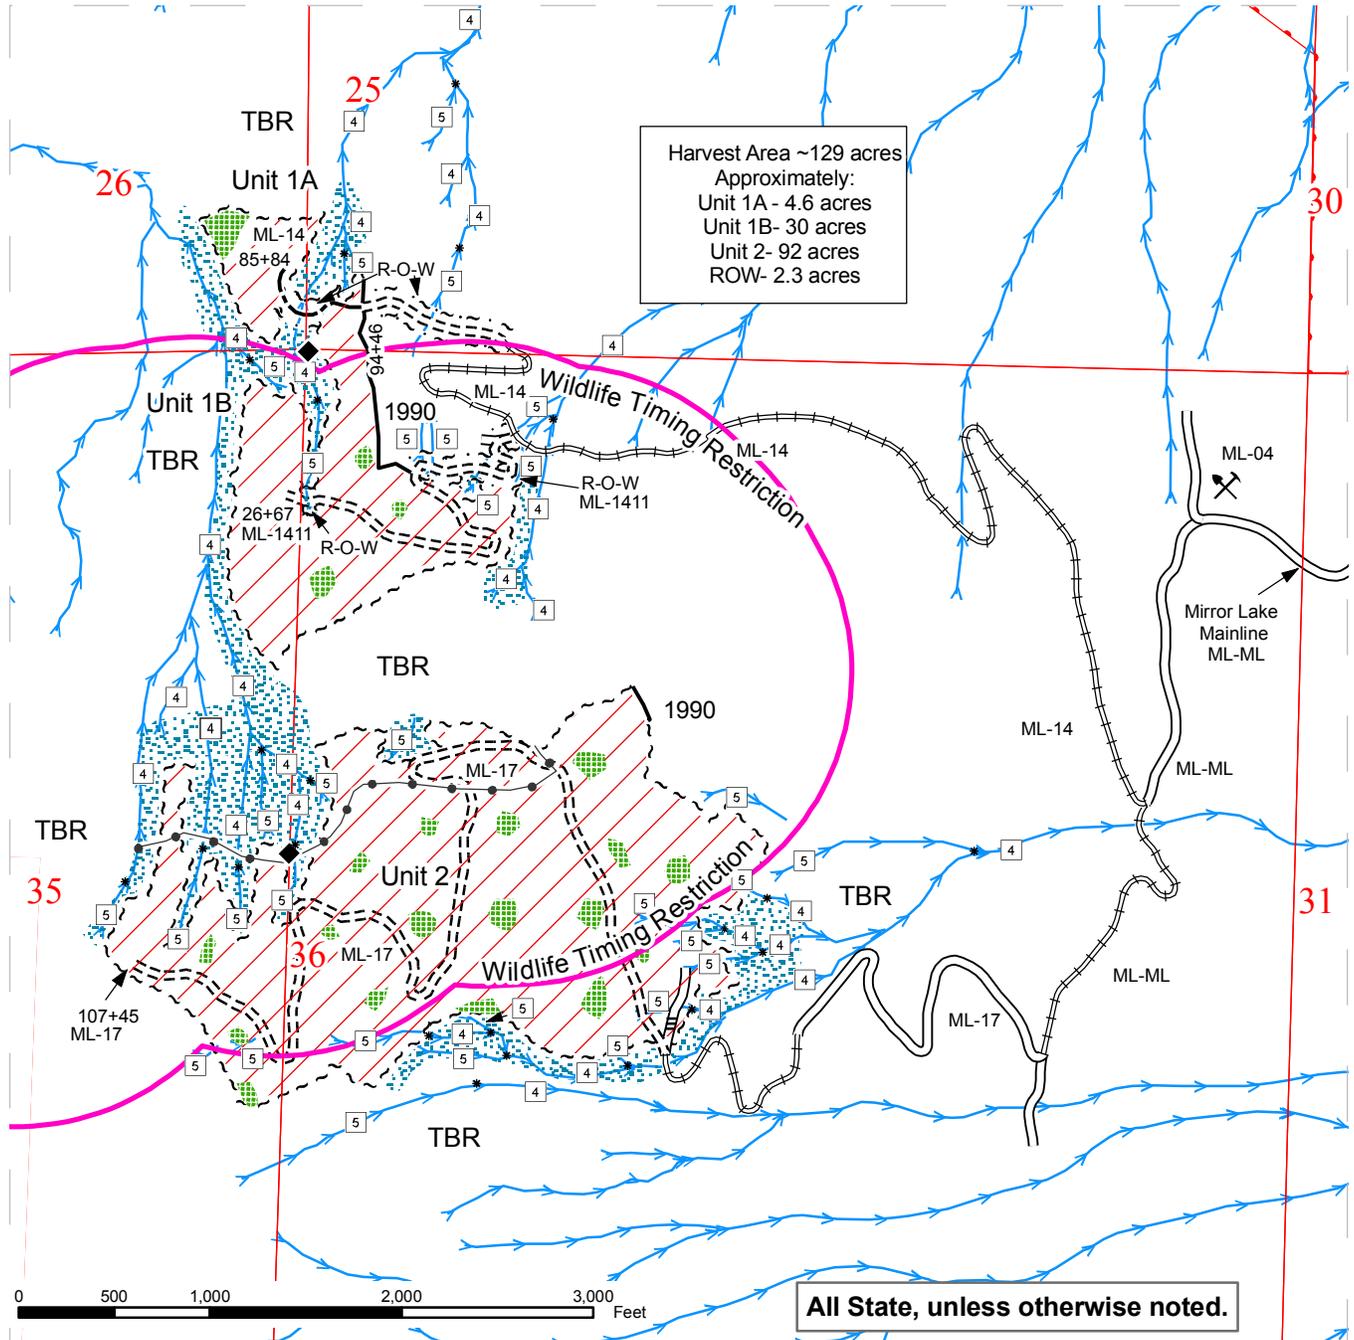

FEES: \$90,603.50 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: There is a high density of blue marked leave trees in the northernmost portion of Unit #2. This correlates with the wildlife management buffer.

Unit 1: Turn right (north) onto the ML-14 and travel approx. 1.1 mi to Sta 0+00 of the ML-1411 rd or approx. 1.4 to the end of the road and the beginning of the ML-14 new construction. Unit 2: Continue .35 mi on ML-ML to the jtn of the ML-17. Turn right (west) onto the ML-17 and travel .75 mi to the beginning of the ML-17 new construction.

TIMBER NOTICE OF SALE

SALE NAME: RED CAMP

AGREEMENT NO: 30-085937

AUCTION: January 26, 2011 starting at 10:00 a.m., **COUNTY:** Whatcom
Northwest Region Office, Sedro Woolley, WA

SALE LOCATION: Sale located approximately 2 miles northeast of Maple Falls, WA.

**PRODUCTS SOLD
AND SALE AREA:**

All timber (which is to include trees with blue special management tags AND yellow paint on the bole located adjacent to the westernmost type 5 stream equipment limitation zone), bounded by white timber sale boundary tags, the RM-19 and RM-20 roads, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps, and forest products tagged out by blue special management tags (onset of the WMZ/RMZ areas) in Unit #1.

All timber as designated for removal in Schedule B, within the thinning areas (WMZ/RMZ areas), located within Unit #1.

All timber bounded by white timber sale boundary tags, adjacent young stands, and property lines, except trees marked with blue paint on the bole and root collar, and forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

The above described products on part(s) of Sections 23, 24, 25 and 26 all in Township 40 North, Range 5 East, W.M., containing 123 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

MINIMUM BID: \$899,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2012 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$89,900.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

TIMBER NOTICE OF SALE

HARVEST METHOD: Cable; cable, tracked skidder/forwarder or shovel on slopes 35% or less.

Cutting and yarding in the variable density thinning portions of the timber sale will not be permitted during the bark slippage season unless authorized in writing by the Contract Administrator. This season is estimated to be from April 1 to July 15 but will vary depending on weather conditions. If permission is granted to operate during the bark slippage season the purchaser will be required to provide a plan outlining mitigation measures. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 38.36 stations of optional construction. 35.87 stations of optional reconstruction. 15.88 stations of existing road to be abandoned. 38.36 stations of road to be abandoned if built.

Development of an existing hardrock source (Red Mountain Quarry) at station 20+53 of the RM-23 Road will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch minus ballast. This rock is available at no cost on State land.

This project is estimated to use 5,345 cubic yards of gravel ballast and 130 cubic yards of riprap.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 139.4 acres gross. 8.9 acres deducted for RMZs, 4.3 acres deducted for green tree retention clumps, and 3.1 acres deducted for exiting road area. 123.1 acres net. Cruised using variable plot method. Expansion factor used is 40.00 and 54.45 in Units #1 and #2. Sighting height is 4.5 feet.

HQ DF noted within sale area. See cruise for further details (approximately 19 mbf and 80 mbf of the above listed DF SM and 2S, respectively, is deemed high quality by the Department).

FEES: \$48,084.25 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Unit #1 has two blue special management taglines: 1) blue special management tags demarcate the onset of the RMZ (riparian management zone) and/or WMZ (wetland management zone); and 2) blue tagged trees with also have a band of yellow paint around the bole of the tree demarcate an equipment limitation zone.

The road leading into Unit #2 will run very close to the private property line to the north, this line cannot be crossed. The adjacent private property has been harvested within the last ten years and there is a monumented corner approximately 200 feet east of the area of main concern.

Schedule B
Red Camp WMZ & RMZ Thinning Prescription

- Retain an average of 100 to 120 trees per acre from the dominant and co-dominant crown classes.
- Cut pacific silver fir up to 20 inches DBH
- Cut western hemlock up to 16 inches DBH
- Cut all hardwoods.
- Openings created by felling trees shall not exceed 30 feet between leave trees in designated RMZ thinning areas. If no conifers exist to fill spacing requirement, hardwoods will be substituted.

Special Thinning Conditions: In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors or skid trails. These areas must be identified and agreed upon in advance with the Contract Administrator.

Corridors must be marked by the Purchaser and approved by the Contract Administrator. Non-prescription trees which fall within corridors may be felled and must be paid for as additional volume per Clause G-101. Trees marked with a blue special management area tag along the RMZ/WMZ boundary may be removed if they either meet the prescription as described in this Schedule B, or are necessary for yarding corridors.

Ground yarding corridors: Corridors are limited to 14 feet wide (including rub trees) and no less than 75 feet apart as measured from the center of the corridor. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees.

Cable corridors: If cable yarding is necessary in thinning areas, then the following apply: Landings will be located to provide for parallel yarding corridors whenever possible. Corridors will be limited to 12-feet including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3 – 5 feet of the center of the corridor should be removed prior to yarding. Following completion of yarding of each corridor, rub trees within 6 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 12-foot corridor.

Down wood and snag recruitment: All Douglas-fir and western redcedar trees that are marked with orange paint on the bole and root collar shall be made into snags through girdling at the base of the bole or topping the tree above 16 feet. All other trees marked with orange paint on

the bole and root collar shall be felled toward the stream channel and left as downed woody debris.

Compartments for assessment of damage:

Per contract clauses H-012 & D-040.

All thinning areas will be treated as one continuous damage compartment.

Certification of Fallers and Yarder Operators

(Additional requirements beyond those outlined in H-011)

The Contract Administrator and faller/harvester operator will jointly review the take tree selection criteria as outlined in Schedule B of the sale contract.

In conjunction with the Contract Administrator, the faller/harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

Certifications will be issued to individuals when they demonstrate to the Contract Administrator their ability to perform within the requirements set forth in the contract.

Bark Slippage Season

Cutting and yarding in the variable density thinning portions of the timber sale will not be permitted during the bark slippage season unless authorized in writing by the Contract Administrator. This season is estimated to be from April 1 to July 15 but will vary depending on weather conditions. If permission is granted to operate during the bark slippage season the purchaser will be required to provide a plan outlining mitigation measures.

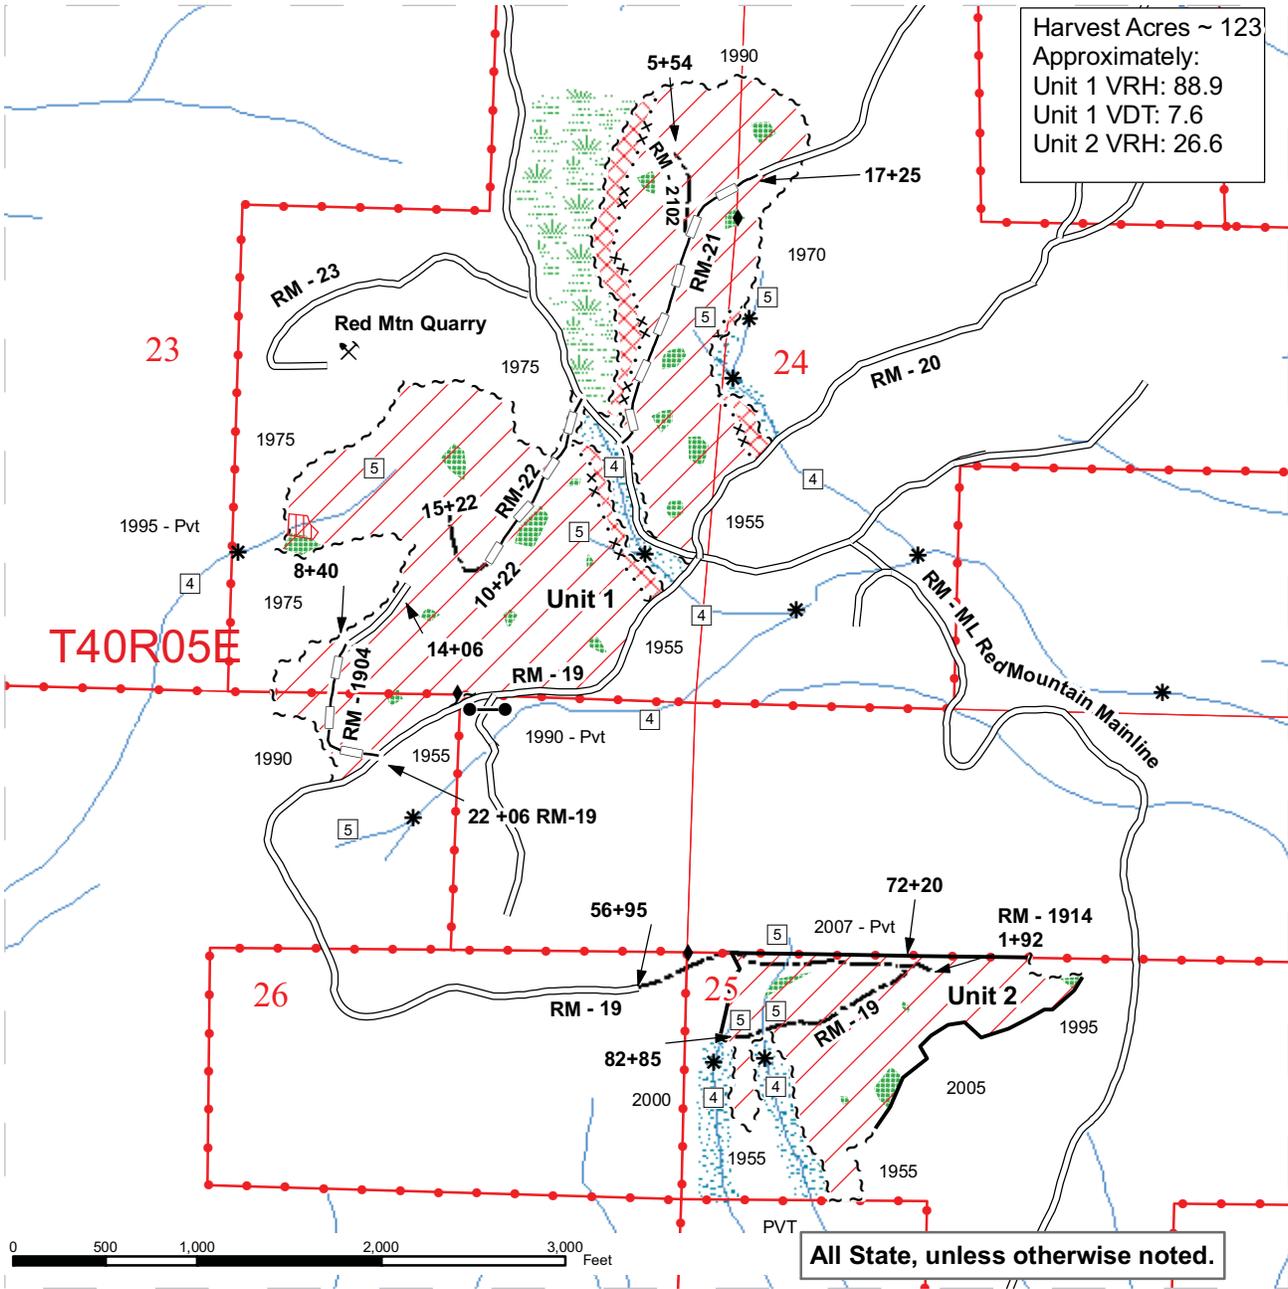

Compliance

A 1/20 acre fixed radius plot (26.3 feet) will be measured to determine trees per acre. The number of trees in a plot will be multiplied by 20 determine the trees per acre for that plot. The average of all plots in the thinning areas will determine the trees per acre for the thinning portions of the sale.
