

# Public Auction Sale of Timber

Book 892

.....  
June 2010

WASHINGTON STATE DEPARTMENT OF  
**Natural Resources**

**Peter Goldmark** - Commissioner of Public Lands

Caring for  
your natural resources ...  
now and forever

# IMPORTANT NOTICES

## *Natural Resources (DNR)*

### **Governmental Regulatory Actions or Orders**

The purchaser assumes the risk of liabilities related to regulatory actions or orders by any government agency that may affect the operability of these timber sales. Such regulatory actions or orders include, but are not limited to, actions taken pursuant to the State Forest Practices Act, Chapter 76.09 RCW, and the Federal Endangered Species Act, 16 U.S.C. §§ 1531-1544. Please see timber sale contract clauses G-066 and G-220 for further information.

### **Threatened and Endangered Species**

DNR cannot verify the presence or absence of **any** threatened or endangered species that may affect the operability of the timber sale. Purchasers must rely on their own assessments.

### **Export Restricted**

All timber purchased under these state DNR contracts shall not be exported outside of the United States until the timber has been processed. Purchasers shall not violate any of the prohibitions in WAC 240-15-015 (relating to the prohibitions on export and substitution), WAC 240-15-025 (relating to reporting requirements), and WAC 240-15-030 (relating to enforcement). If purchasers knowingly violate WAC 240-15-015, purchasers shall be barred from bidding on or purchasing export restricted timber as provided.

### **Cover photos**

Timber Sales in this book are from state trust lands, managed to help build K-12 public schools, state universities, colleges, prisons, mental hospitals, the state Capitol; and to support local services in many counties.

**Top left:** State Forest Lands are managed to provide revenue to the counties in which they are located such as the Pacific County Courthouse in South Bend, Washington. Northwest Bridge Company of Portland, Oregon completed construction of the courthouse building in June of 1911. One unusual feature of the historic building is an "art glass dome" that crowns the structure. The courthouse is listed on the National Register of Historic Places.

## **Certification Opportunities for DNR Timber Purchasers**

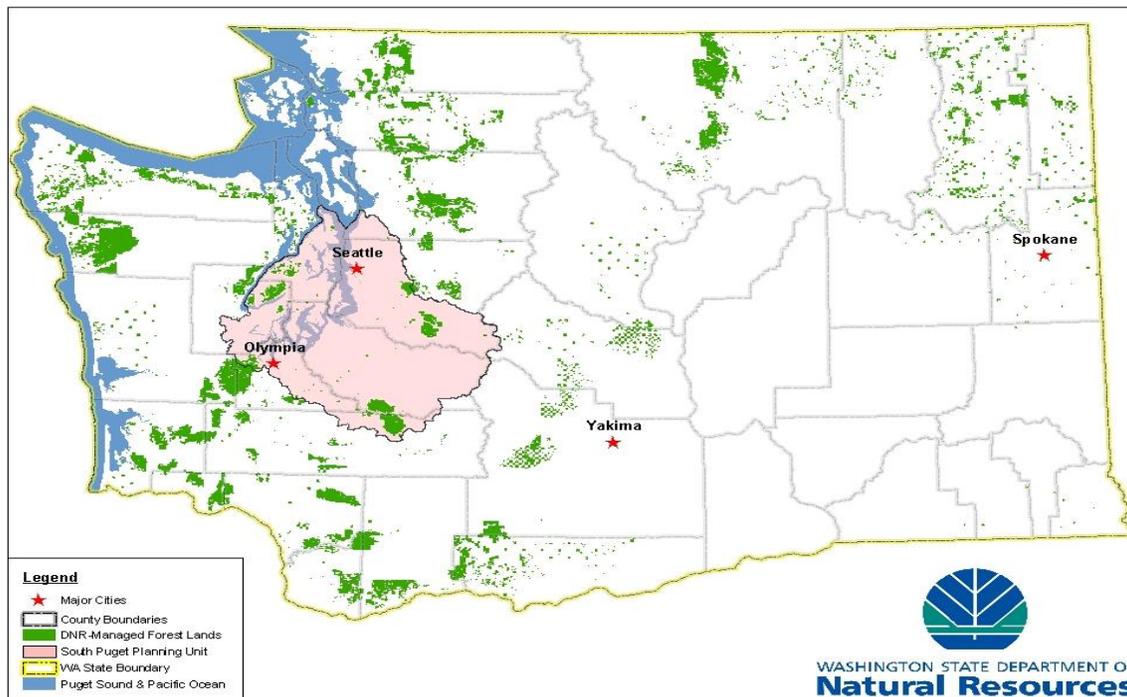

Certified forests are grown to an approved set of standards which demonstrate environmentally responsible, socially beneficial, and economically viable management practices that promote responsible stewardship and sustainable forestry. This unique commitment to sustainable forestry recognizes that forest landowners play a critical role in ensuring the long-term health and sustainability of our forests.

Forest Stewardship Council (FSC) is an independent, non-profit organization that promotes responsible management of the world's working forests through the development of forest management standards, a voluntary certification system, and trademarks that provide recognition and value to products bearing the FSC label in the marketplace. FSC standards ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way.

Sustainable Forestry Initiative® (SFI) is an independent non-profit organization internationally endorsed and accepted around the world. The SFI program is based on the premise that responsible environmental behavior and sound business decisions can co-exist. Its three-chamber Board of Directors governs all aspects of the SFI program, with equal representation from the environmental, economic and social sectors.

Currently, all Department of Natural Resources (DNR)-managed forested state trust lands in Washington State are certified under the Sustainable Forestry Initiative® (SFI) Standard. Lands within DNR's South Puget Habitat Conservation Plan Planning Unit, located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties, are dually certified under the Forest Stewardship Council Pacific Coast Regional Standard (FSC) and the SFI Standard.

Certification under each standard (FSC and SFI) involves an inspection audit of the landowner's forest management activities by an independent third-party accredited team to verify that it meets specified forest management principles. If the forest unit complies with the specific standard, the landowner receives a certificate of conformance characterizing their forests as "green." Both standards encourage integration of perpetual growing and harvesting of trees with strong measures to protect wildlife, plants, soil, water, and air quality. Both standards provide a seal of approval that forests certified under these principles are well-managed. The global marketplace recognizes and endorses multiple forest certification standards. Each standard has individual market niches. By being dually certified, DNR can maximize its customer base and provide choices to the consumer.

**Forest Stewardship Council**

DNR's FSC Certificate number is: BV-FM / COC-080501

DNR-managed forested state trust lands within the South Puget Habitat Conservation Plan Planning Unit (map below), located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties, are certified as being in compliance with the Forest Stewardship Council Pacific Coast Regional Standard, which would make that planning unit dually certified under both the FSC and SFI Standards.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the FSC Program and use the Licensed Marks, visit [www.fscus.org](http://www.fscus.org).

To learn more about DNR timber sales certified under this standard, please visit [www.dnr.wa.gov](http://www.dnr.wa.gov).

Forest Stewardship Council owns all right, title, and interest in and to the Forest Stewardship Council Program Marks.

**SUSTAINABLE FORESTRY INITIATIVE**

DNR's SFI Certificate number is: BV-SFIS-US09000572

All DNR-managed forested state trust lands across the state have been certified as being in compliance with the 2005-2009 Sustainable Forestry Initiative® Program.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the SFI Program and use the Licensed Marks, visit [www.sfiprogram.org](http://www.sfiprogram.org).

To learn more about DNR timber sales certified under this standard, please visit [www.dnr.wa.gov](http://www.dnr.wa.gov).

Sustainable Forestry Initiative, Inc. owns all right, title, and interest in and to the Sustainable Forestry Initiative® (SFI) Program group of service marks and collective membership marks.

# Washington State Department of Natural Resources (DNR)

## **Bidder's/Purchaser's Inspection of Sale Area and Forest Products**

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

*Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.*

## **Exclusion and Disclaimer of Warranties**

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. ***The merchantability of the forest products.*** The use of the term "merchantable" in any document is not intended to vary the foregoing.
- b. ***The condition of the forest products.*** All forest products will be conveyed "AS IS."
- c. ***The acreage contained within any sale area.*** Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. ***The volume, quality, or grade of the forest products.*** The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. ***The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.*** These documents have been prepared for the State's appraisal purposes only.
- f. ***That the sale area is free from threatened or endangered species, or their habitat.*** The State is not responsible for any interferences with forestry operations that result from the presence of any

threatened or endangered species, or the presence of their habitat, within the sale area.

g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.

h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

## **BIDDING PROCEDURES FOR TIMBER AUCTIONS**

*The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).*

### **General Information**

*The State reserves the right to waive minor irregularities and the right to reject any or all bids.*

A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.

B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ [www.dnr.wa.gov](http://www.dnr.wa.gov), this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA).

C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.

D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.

E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.

F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.

G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map,

sale preview packets and that in the timber sale contract, the **signed contract will prevail**.

H. Purchasers must pay the Forest Excise Tax on the bid price, permanent road construction costs, and other considerations. The tax rate is 5% without the EARR credit and 4.2% with the credit. For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

I. **Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security** specified on each Notice of Sale. **The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation.** Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.

J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.

K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

## **Bidding Process**

A. All timber will be auctioned using the sealed bid method.

B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.

C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.

D. All bids must include the completed Sealed Bid Form and bid deposit.

E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number). Sales added after the book is printed will be inserted to retain this order. Sort sales may be auctioned out of this sequence at the State's convince.

F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.

G. For sales offered on a stumpage basis, the apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced. **This option is not available for sales offered on a delivered basis.**

## **Auction Time and Location**

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

## **Bid Deposits**

- A. Required bid deposits are listed on each Timber Notice of Sale.
- B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
- C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
- D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**

## **Timber Sale Per Sale Bid Bonds**

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per Sale Bid Bond are available at any DNR region office.

## **Timber Sale Statewide Bid Bond**

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m., on the day of the auction.**
- D. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- E. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

## **Payments**

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashiers' check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire Initial Deposit amount by 4:30 p.m. on the day of auction.

## **Fees due on the day of sale must be paid by 4:30 p.m.**

All payments must be in the form of a certified check, cashiers' check, bank draft, cash, money order or wire transfer.

## **Eligibility to Bid**

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements)
- Licensed to do business in the State of Washington
- Eligible to bid on Export Restricted timber
- Authorized to submit bids

## **Authorized Representatives**

Company officers or company authorized representatives may bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

**STATEWIDE BID BOND**

Bond Number \_\_\_\_\_

\_\_\_\_\_ of \_\_\_\_\_,  
(Principal's Name) (City, State)

hereinafter called PRINCIPAL, and \_\_\_\_\_ hereinafter called  
SURETY,

a corporation organized under the laws of the State of \_\_\_\_\_, and authorized to transact surety business in the State of Washington, as SURETY, are held and firmly bound jointly and severally to the State of Washington, Department of Natural Resources, hereinafter called the STATE, in the sum of \$150,000.00 Dollars, lawful money of the United States of America. The PRINCIPAL binds itself, its heirs, executors, administrators, successors, and assigns, and the SURETY binds itself, its successors, and assigns, all jointly and severally.

This bond shall be governed by the laws of the State of Washington. In the event of a lawsuit involving this bond, a venue shall be proper only in Thurston County Superior Court.

Signed, sealed and dated this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.  
(month) (year)

This statewide bid bond may be used for bidding between the following dates:

Starting:

Ending:

**It Is Hereby Understood and Agreed:**

If PRINCIPAL is an apparent high bidder, PRINCIPAL shall before 4:30 p.m ., on day of sale, pay to the STATE the amount of the initial deposit in the form of a certified check, cashier's check, bank draft, cash or money order, then this agreement shall be void for the sale on which the payment is made; otherwise, it will remain in force.

SURETY will make payment to the STATE within ten days after demand by the STATE if the PRINCIPAL shall fail to make timely payment as described above.

The SURETY may cancel this bond by sending a written notice to the STATE, not less than forty-five days before a cancellation date; liability shall terminate as to acts or omissions of the PRINCIPAL that occur after the cancellation date.

The PRINCIPAL and the SURETY executed this bond on the date first mentioned.

(Location Name)

\_\_\_\_\_  
(Street Address)

\_\_\_\_\_  
(City, State and Zip)

**Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion. Additional terms or conditions requested by the bidder on or attached to the Log Sort Sealed Bid or Supplemental Information Forms are informational only and non-binding.**

## **Instructions for Completing the Log Sort Sealed Bid and Supplemental Information Forms.**

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form(s) provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks including Agreement Number, Sort Number, Bid amount (per mbf or ton as appropriate for the sort), Bid deposit amount and type. Signatures and date on bid form must be completed including the bid bond number if bidder is relying upon a bid bond for bid deposit.

Bids may not be accepted if a completed '**Log Sort Sealed Bid Supplemental Information Form**' is not included with the approved '**Log Sort Sealed Bid Form**'.

**Required log lengths for tonnage sorts:** Preferred log lengths for tonnage sawlog sorts shall include the following plus any additional lengths identified on the Bid Supplemental Information form:

<b>Species Type</b>	<b>Preferred Lengths</b>
Conifer Sorts	16', 20', 24', 26', 32', 40'
Hardwood Sorts	18', 20', 26', 28', 30', 36', 38', 40'

For more specific information, contact the appropriate region office.

### **In-Person Bids**

- A. Sealed bids must be in auction box or auction envelope before 10:00 a.m. on the day of sale at the location specified in the notice of sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same as the name on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope, please.
- C. Sealed bid envelopes must contain the following:
  1. A completed Log Sort Sealed Bid form;
  2. A completed Supplemental Information form; and
  3. A bid deposit

### **Mailed Bids**

- A. Mail-in bid envelopes are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED." The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope, please.
- B. Mail-in or otherwise delivered bids will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery they chose. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes must contain the following:
  1. A completed '**Log Sort Sealed Bid Form**';
  2. A completed '**Log Sort Sealed Bid Supplemental Information Form**' and;
  3. A bid deposit

**HARVEST METHOD:** Ground-based harvesting shall only operate during dry soil conditions and will not be permitted on slopes over 35% unless authorized in writing by the Contract Administrator. Ground Based Yarding will not be permitted from October 15 to April 15 unless authorized in writing by the Contract Administrator.

**ROADS:** 34.42 stations of optional construction. 57.75 stations of optional reconstruction. 265.06 stations of required pre-haul maintenance. Rock for construction under this contract may be obtained at no cost to the Purchaser from the CG-2210 Pit located in Section 13, Township 03 North, Range 07 East, W.M. Development and use shall be in accordance with the attached written "Development Plan" prepared by the State. Upon completion of

## TIMBER NOTICE OF SALE

---

operations, the rock source shall be left in the condition specified in said plan, subject to approval by the Contract Administrator. Use of material from any other source must have prior written approval from the Contract Administrator. The Purchaser shall give the Contract Administrator 5 days notice prior to commencing any operations in the listed rock source. Road construction will not be permitted from October 15 to April 30 unless authorized in writing by the Contract Administrator. The hauling of forest products will not be permitted from October 15 to April 15 unless authorized in writing by the Contract Administrator. CG-2100, CG-2116, CG-2120, CG-2200, CG-2210, CG-2211, Spur B and Spur C

### **ACREAGE DETERMINATION**

**CRUISE METHOD:** The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method. Harvesting activities are estimated to be approximately 100% ground-based.

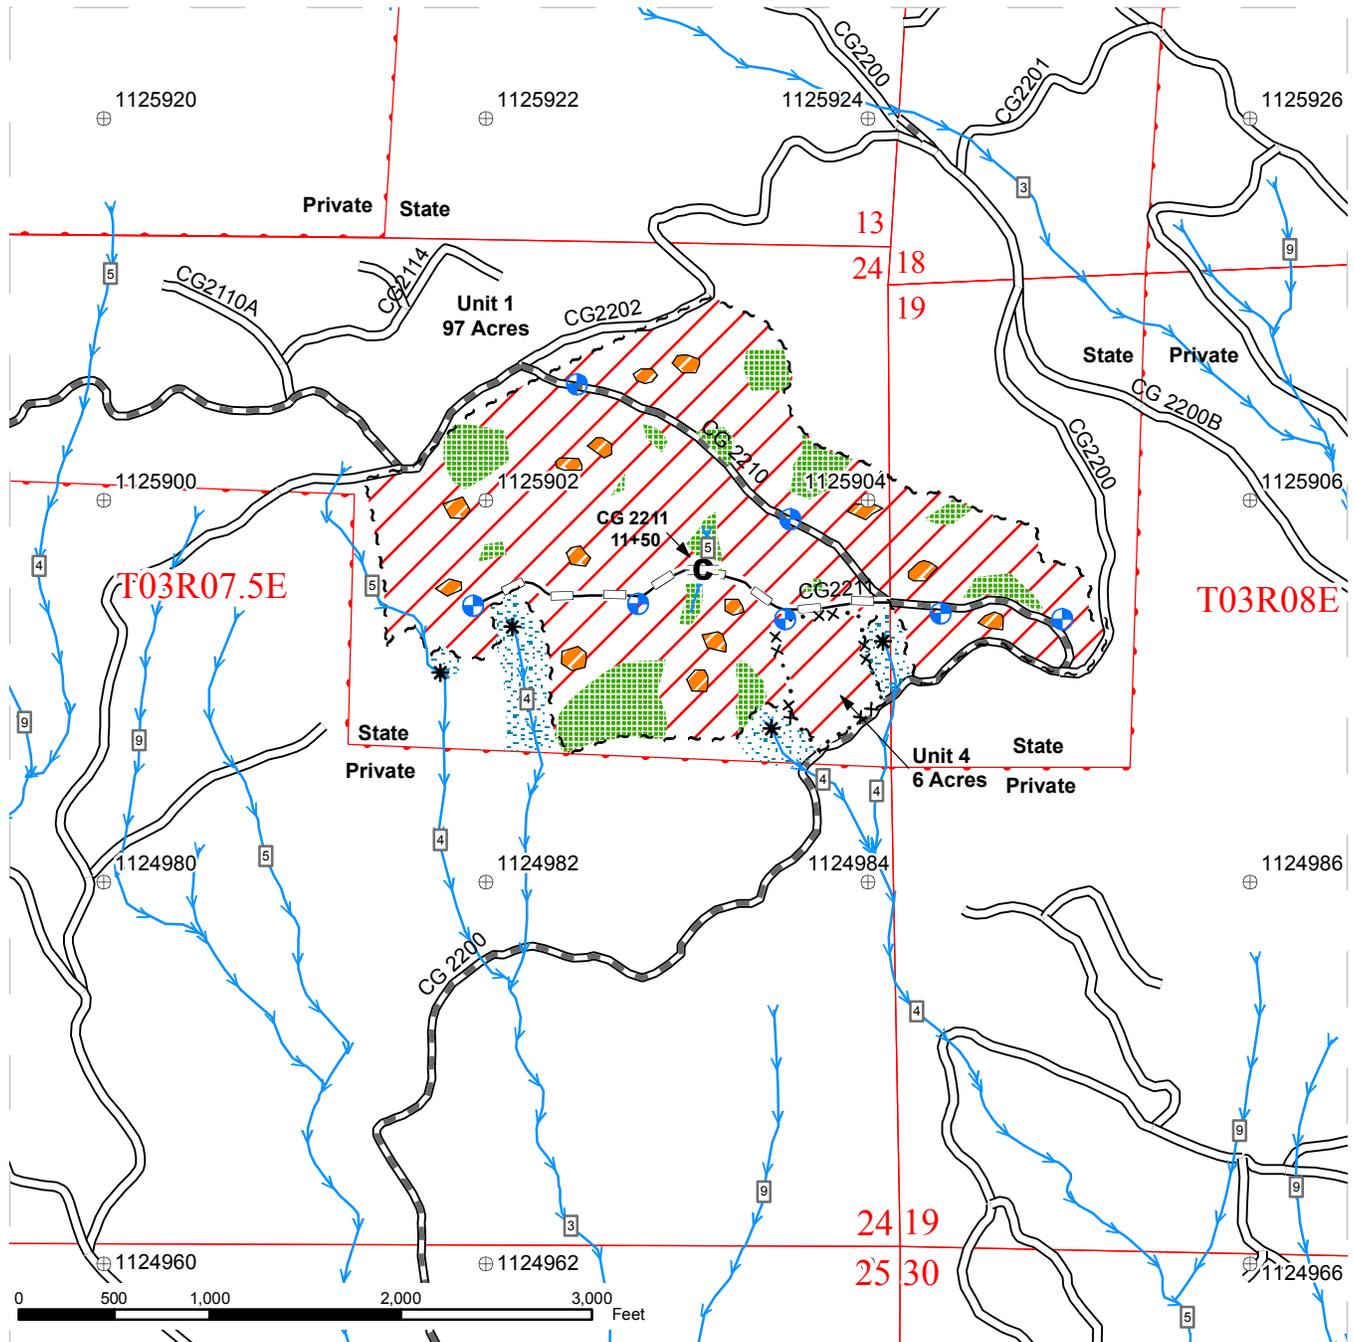

**FEES:** Purchaser will provide the State a check payable to Sam Risjord in the amount of \$1,000.00 on day of sale for Right-of-Way timber to be removed from the Risjord property. Purchaser will provide the State a check payable to Longview Timber in the amount of \$3,044.88 on day of sale for Right-of-Way timber to be removed from the Longview Timber property. \$48,362.50 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

**SPECIAL REMARKS:** All trees banded with orange paint in Units 1 and 3 will be considered sale volume and are labeled "gaps" on the maps. All timber within Unit 4, except blue painted trees, will be considered sale volume.

**BID DEPOSIT:** \$140,900.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

## TIMBER NOTICE OF SALE

---

**HARVEST METHOD:** Cable; cable or shovel on sustained slopes of 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

**ROADS:** 7.50 stations of required reconstruction. 62.27 stations of optional construction. 3.56 stations of optional reconstruction. 10.50 stations of existing road to be abandoned. 62.27 stations of road to be abandoned if built.

Development of an existing hardrock source at station 12+00 of the MC-31 Road will involve clearing, stripping, drilling, shooting, and processing rock.

Development of an existing hardrock source at station 9+61 of the SP-02 Road will involve clearing, stripping, drilling, shooting, and processing rock.

The hardrock sources will be used to generate approximately 197 cubic yards of riprap and approximately 5,160 cubic yards of 3-inch-minus ballast rock and shot rock. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

### ACREAGE DETERMINATION

**CRUISE METHOD:** Acres determined by GPS traverse. 158.4 acres gross. 7.1 acres deducted for green tree retention clumps and 0.7 acres deducted for existing road. 150.6 acres net. Cruised using variable plot method. Expansion factor used is 54.45 in Units #1 and 2, and 40.00 in Unit #3. Sighting height is 4.5 feet. Grid size plot spacing is 300 x 200 feet in Units #1 and 3, and 400 x 200 in Unit #2. Plot ratio cruise count is 1:1. 24 plots were taken in Unit #1, 35 plots taken in Unit #2, and 28 plots taken in Unit #3, for a total of 87 plots.

**FEES:** \$70,702.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

**SPECIAL REMARKS:** Blue special management tags demarcate the onset of the RMZ (riparian management zone) and/or WMZ (wetland management zone).

**Schedule B**  
**Garden Party WMZ & RMZ Thinning Prescription**

**WMZ PRESCRIPTION:**

All take trees are marked with orange paint and may additionally have blue special management area tags, these trees are also marked at the base. No western redcedar, or Sitka spruce shall be cut unless permission is granted by the Contract Administrator for yarding corridors.

**RMZ PRESCRIPTION:**

All take trees are marked with orange paint and may additionally have blue special management area tags, these trees are also marked at the base. No western redcedar, or Sitka spruce shall be cut unless permission is granted by the Contract Administrator for down wood (DW).

**SPECIAL THINNING CONDITIONS:**

Do not put in yarding corridors in areas where thinning is not necessary. These areas must be identified and agreed upon in advance with the Contract Administrator. Trees marked with a blue special management area tags along the RMZ and WMZ boundary may be removed if they are marked with orange paint on the bole and base.

Three trees per RMZ acre shall be selected from the first 25-50 feet outside the "No-harvest" 25-foot zone (marked with white timber sale boundary tags) and felled towards the typed water to serve as down wood (DW) as designated by the following table and 2 trees per RMZ acre shall be topped at no less than 20 feet or double girdled:

Stream Type: 4

Average Distance between DW Trees: 90 feet

Acceptable Distance Range: 60 – 120 feet

Preferred Species as DW: 1)Western hemlock 2)Western redcedar 3)Douglas-fir

DW DBH Range: 12 – 16 inches DBH

**GROUND YARDING CORRIDORS:**

Corridors are limited to 14 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the corridor. Where possible, corridors should be located in a manner to minimize the damage to or removal of leave trees. No ground yarding will take place on slopes greater than 35%.

**COMPARTMENTS FOR ASSESSMENT OF DAMAGE:**

All RMZ where thinning will take place will be considered one compartment.

**CERTIFICATION OF FALLERS AND YARDER OPERATORS**

The Contract Administrator and faller/harvester operator will jointly review the take tree selection criteria as outlined in Schedule B of the sale contract.

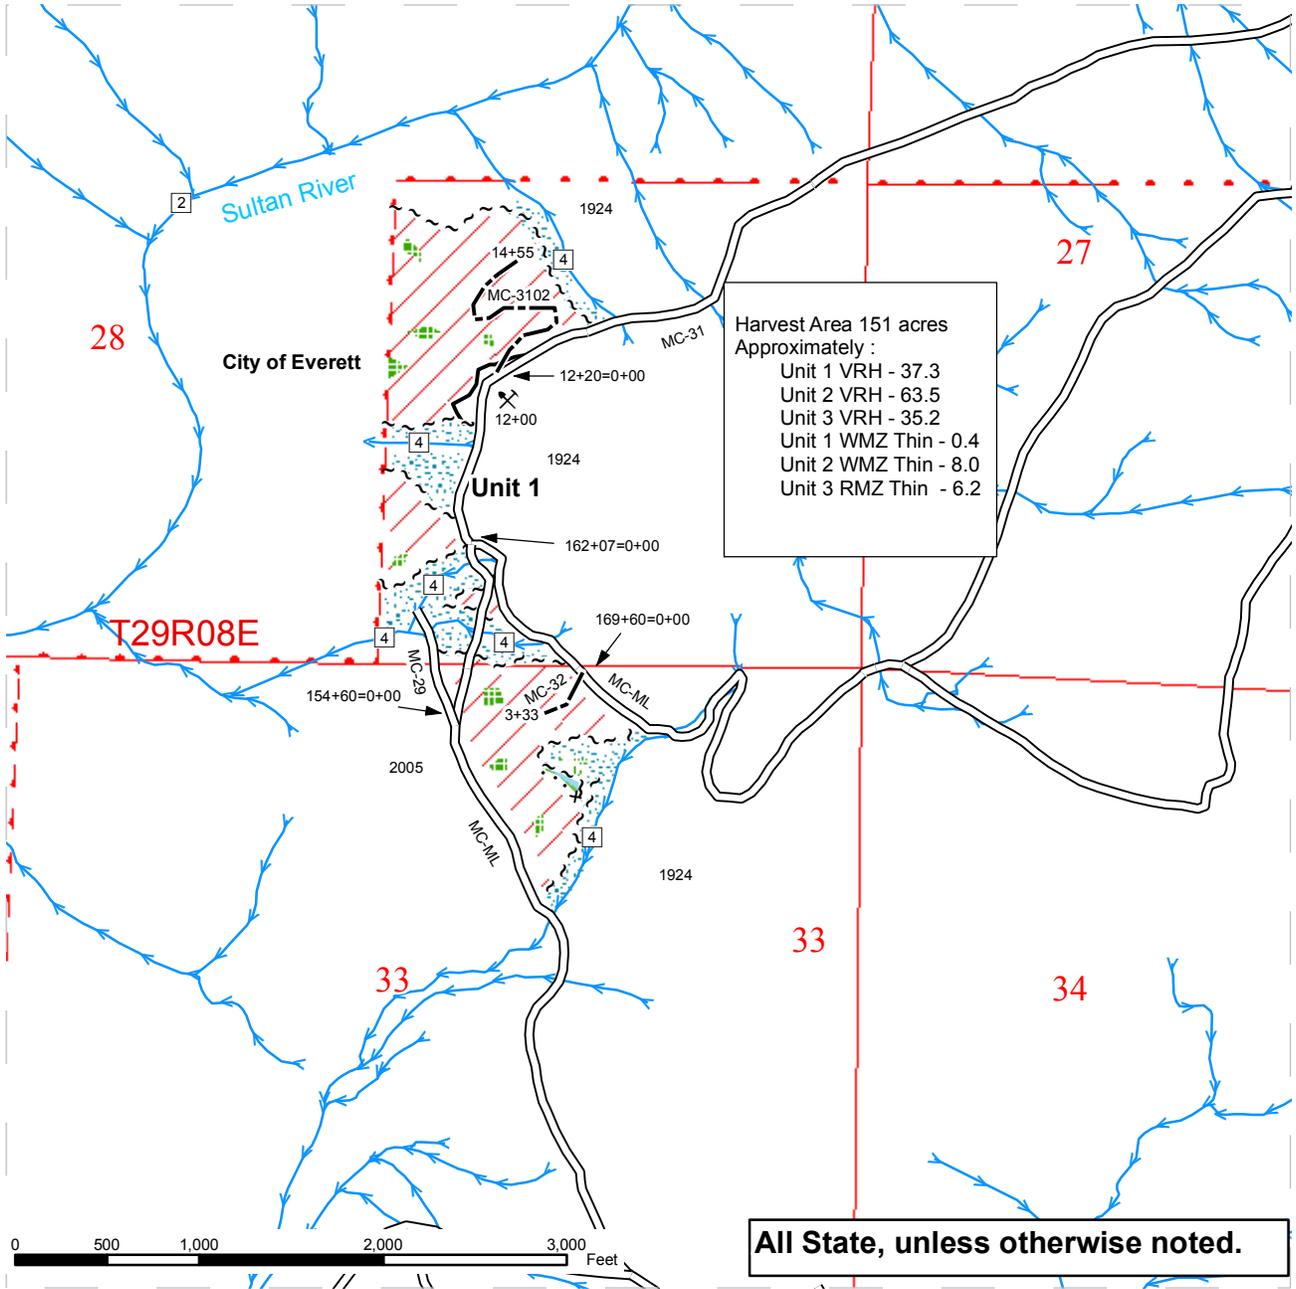

In conjunction with the Contract Administrator, the faller/harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

Certifications will be issued to individuals when they demonstrate to the Contract Administrator their ability to perform within the requirements set forth in the contract.

**AGREEMENT NO:** *30-084288*

**AUCTION:** June 16, 2010 starting at 10:00 a.m.,  
Northwest Region Office, Sedro Woolley, WA

**COUNTY:** Snohomish

**SALE LOCATION:** Sale located approximately 15 miles southeast of Granite Falls, WA.

**PRODUCTS SOLD  
AND SALE AREA:**

All timber bounded by white timber sale boundary tags, adjacent young stands, and the EK-ML and EK-49 roads, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in the Unit #1.

All timber bounded by white timber sale boundary tags, adjacent young stands, and the EK-64 and EK-6409-0201 roads, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, forest products tagged out by blue special management tags, and cedar snags, dead and down cedar trees, logs and stumps in the Unit #2.

All timber designated for removal as described in Schedule B, located in the RMZ within Unit #2.

All forest products bounded by orange right of way tags.

All forest products within 30-feet of centerline of the EK-4908 Road (labeled ROW #3 on the prospectus map).

The above described products on part(s) of Sections 7 and 8 all in Township 29 North, Range 8 East, Sections 12 all in Township 29 North, Range 7 East, W.M., containing 92 acres, more or less.

**CERTIFICATION:** This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

**PERFORMANCE**

**SECURITY:** \$100,000.00

**SALE TYPE:** Lump Sum

**EXPIRATION DATE:** September 30, 2011

**ALLOCATION:** Export Restricted

## TIMBER NOTICE OF SALE

---

**BID DEPOSIT:** \$86,500.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

**HARVEST METHOD:** Cable; cable or shovel on sustained slopes of 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

**ROADS:** 2.20 stations of required reconstruction. 84.44 stations of optional construction. 2.50 stations of existing road to be abandoned. 78.88 stations of road to be abandoned if built.

Development of an existing hardrock source (EK-6612 Hard Rock Pit) at station 65+50 of the EK-66 Road will involve clearing, stripping, drilling, shooting, and processing rock to generate approximately 394 cubic yards of riprap, and approximately 6,410 cubic yards 3-inch-minus ballast rock and shot rock. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

### ACREAGE DETERMINATION

**CRUISE METHOD:** Acres determined by GPS/GIS traverse. 93.5 acres gross. 1.7 acres deducted for green tree retention clumps. 91.8 acres net. Cruised using variable plot method.

**FEES:** \$53,795.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

**SPECIAL REMARKS:** Blue tagged trees demarcate the onset of the RMZ thinning area.

**Schedule B**  
**Aftersound RMZ Thinning Prescription**

Cut all Pacific silver fir (SF) that are less than or equal to 16.0 inches DBH and cut all western hemlock (WH) that are less than or equal to 14.0 inches DBH. Cut all hardwoods. Retain all Douglas-fir (DF), and western redcedar (RC).

**SPECIAL THINNING CONDITIONS:**

In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors or skid trails. These areas must be identified and agreed upon in advance with the Contract Administrator. All non prescription trees can be removed if necessary for locating yarding corridors. Such trees will be paid for by the purchaser as additional volume according to the rates set forth in the G-101 clause. Trees marked with a blue special management area tag along the RMZ boundary may be removed if they either meet the prescription as described in this Schedule B, or are necessary for yarding corridors.

**GROUND YARDING CORRIDORS:**

Corridors are limited to 14 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the corridor. Where possible, corridors should be located in a manner to minimize the damage to or removal of leave trees. No ground yarding will take place on slopes greater than 35%.

**COMPARTMENTS FOR ASSESSMENT OF DAMAGE:**

All RMZ where thinning will take place will be considered one compartment.

**CERTIFICATION OF FALLERS AND YARDER OPERATORS**

(ADDITIONAL REQUIREMENTS BEYOND THOSE OUTLINED IN H-011)

The Contract Administrator and faller/harvester operator will jointly review the take tree selection criteria as outlined in Schedule B of the sale contract.

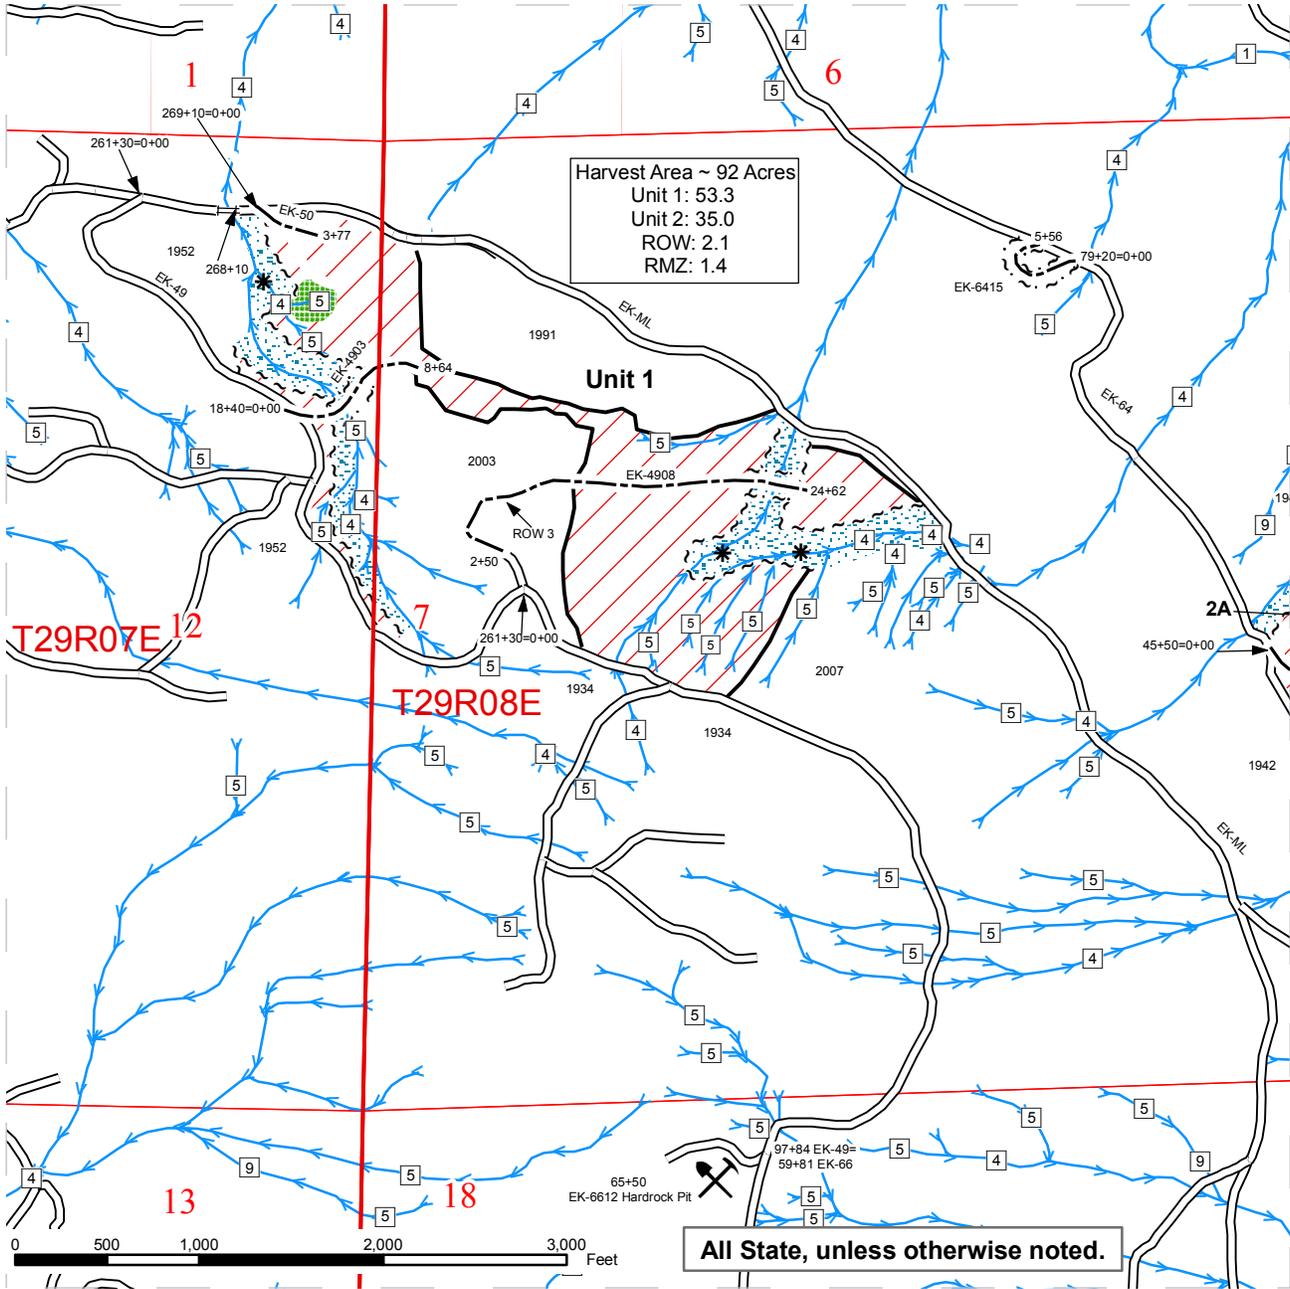

In conjunction with the Contract Administrator, the faller/harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

Certifications will be issued to individuals when they demonstrate to the Contract Administrator their ability to perform within the requirements set forth in the contract.

**BID DEPOSIT:** \$96,000.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

**HARVEST METHOD:** Cable; cable or shovel on slopes 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

**ROADS:** 25.20 stations of required construction. 46.86 stations of required reconstruction. 31.93 stations of optional construction. 8.28 stations of optional reconstruction. 40.21 stations of road to be abandoned if built.

Development of an existing hardrock source at station 2+68 of the SU-4124 Road will involve clearing, stripping, drilling, shooting, and processing rock to generate approximately 166 cubic yards of riprap and approximately 6,526 cubic yards of 3-inch-minus ballast rock. This rock is available at no cost on State land.

## TIMBER NOTICE OF SALE

---

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

### **ACREAGE DETERMINATION**

**CRUISE METHOD:** Acres determined by GPS traverse. 116.0 acres gross. 3.6 acres deducted for green tree retention clumps and 42 acres deducted for exclusion areas. 70.7 acres net. Cruised using variable plot method. Expansion factor used is 54.45. Sighting height is 4.5 feet. Grid size plot spacing is 280 x 200 feet in the unit. Plot ratio cruise count is 1:1. A total of 52 plots were taken.

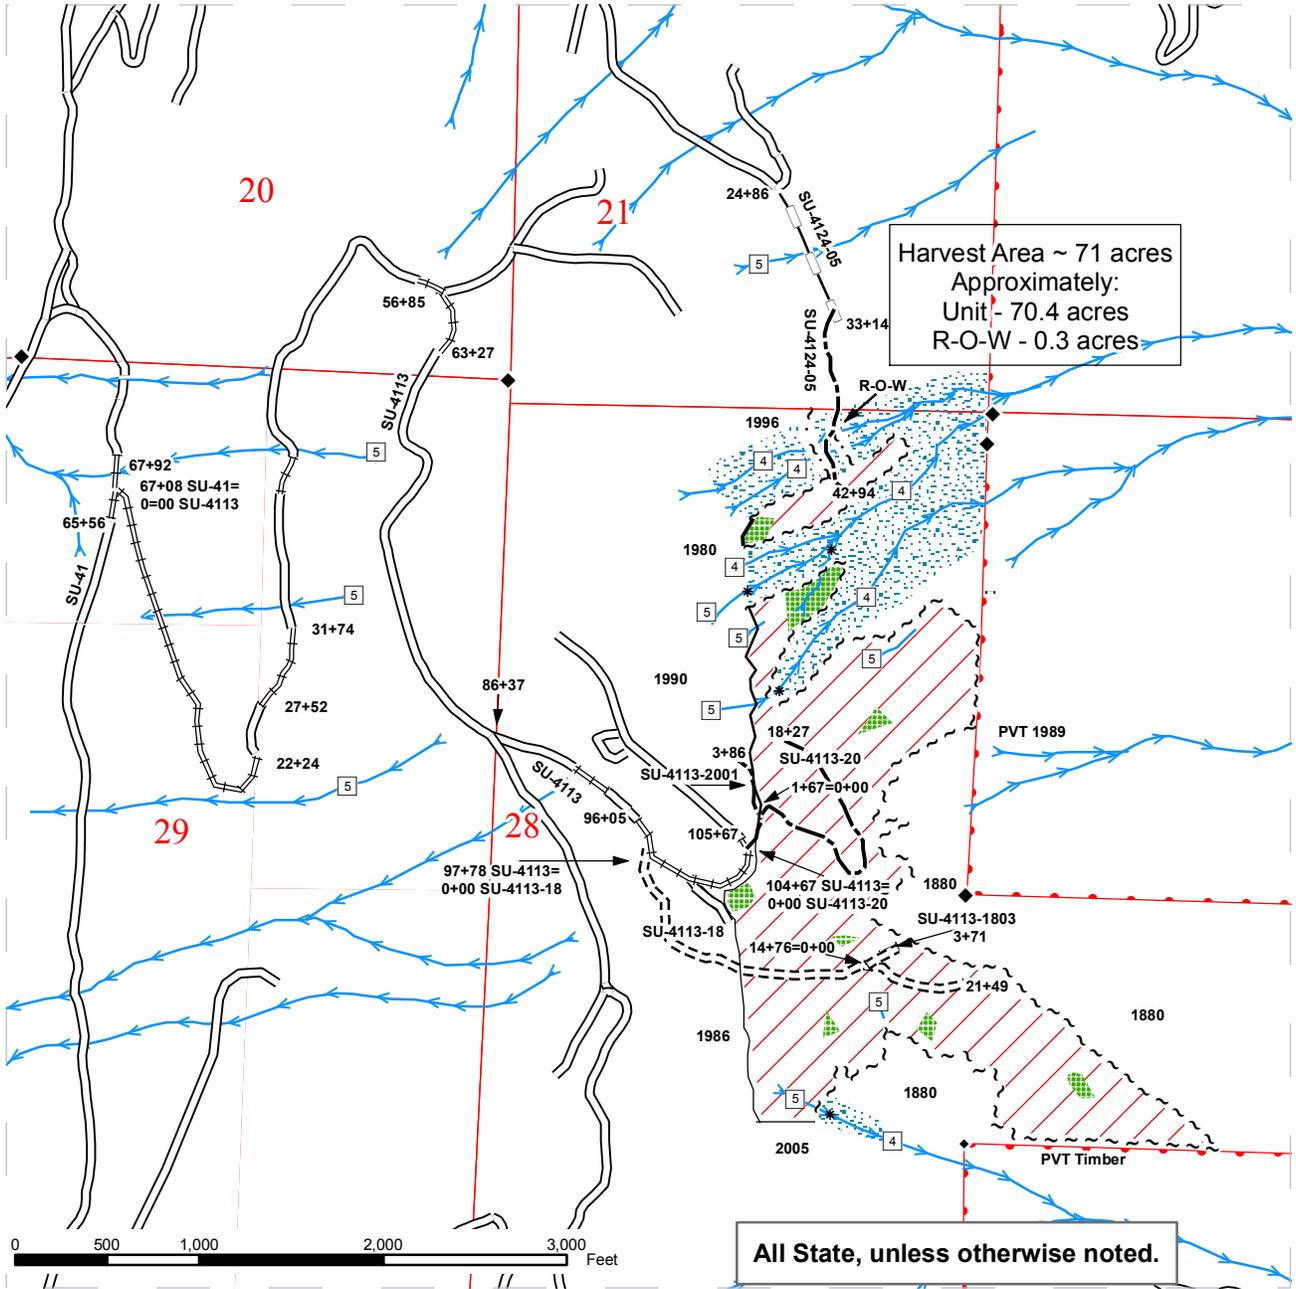

**FEES:** 1.) Purchaser shall furnish the State with a check made payable to Sierra Pacific Industries in the amount of \$500.00 on the day of sale for permit #55-085393, for road use. 2.) \$45,235.50 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

**SPECIAL REMARKS:** The haul route, in its current condition, is not suitable for winter haul.

- Timber Sale Unit
- Highway
- Haul Route
- Other Route
- Distance Indicator
- Rock Pit

**DRIVING DIRECTIONS:**

From Deming travel 7 miles east on Highway 542 to SU-ML access. Turn left, go 1.6 miles on the mainline to first junction, stay left. Travel 1.2 miles to second junction, stay left. Travel 1.1 miles to the SU-ML/SU-41 junction. Go north on the SU-41 Road for 1.1 miles to the SU-41/SU-4113 junction. For the west access, turn right (hairpin turn), travel 1.9 miles to the unit.

For the rock pit and north access, from the SU-41/SU-4113 junction go north 0.4 miles, turn right. Travel 0.7 miles to the P-1720 Rock Pit. For north access, stay right on the SU-4124 Road and travel 0.5 miles to the SU-4124/SU-4124-05 junction. Stay right and go 0.6 miles to the optional road construction.

**TIMBER NOTICE OF SALE**

**SALE NAME:** NORTH SPRINGS VRH & VDT

**AGREEMENT NO:** 30-085040

**AUCTION:** June 16, 2010 starting at 10:00 a.m.,  
Northwest Region Office, Sedro Woolley, WA

**COUNTY:** Whatcom

**SALE LOCATION:** Sale located approximately 4 miles east of Maple Falls, WA.

**PRODUCTS SOLD  
AND SALE AREA:**

All timber bounded by white timber sale boundary tags, adjacent young stands, and blue special management tags, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #1.

All timber to be thinned bounded by white timber sale boundary tags, adjacent young stands, and blue special management tags, except as described for retention in Schedule B (Thinning Prescription), trees marked with blue paint on the bole and root collar, and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

All forest products bounded by orange right of way tags, except that title to the timber within the right of way tags is not conveyed to the Purchaser unless the road segment is actually constructed.

The above described products on part(s) of Sections 26, 27 and 35 all in Township 40 North, Range 6 East, W.M., containing 85 acres, more or less.

**CERTIFICATION:** This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

**ESTIMATED SALE VOLUMES AND QUALITY:**

Species	Avg DBH	Ring Count	Total MBF	Total \$/MBF	MBF by Grade									
					1P	2P	3P	SM	1S	2S	3S	4S	UT	
Douglas fir	14	6	3,147	\$251.00				247		837	1,322	741		
Hemlock	11	6	107	\$150.00						6	42	59		
Maple	14		42	\$101.00						7	31	4		
Red alder	13		22	\$273.00						8	9	5		
Sale Total			3,318											

**MINIMUM BID:** \$251/MBF (est. value \$816,000.00)      **BID METHOD:** Sealed Bids

**PERFORMANCE SECURITY:** \$100,000.00      **SALE TYPE:** MBF Scale

**EXPIRATION DATE:** September 30, 2011      **ALLOCATION:** Export Restricted

**BIDDABLE SPECIES:** Douglas fir

**BID DEPOSIT:** \$81,600.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

**HARVEST METHOD:** Cable; cable or shovel on slopes 35% or less in variable retention harvest portions of sale; cable, forwarder, or tracked skidder on slopes 35% or less in variable density thinning portions of sale. Falling and Yarding will not be permitted from November 1 to March

## TIMBER NOTICE OF SALE

---

31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

Cutting and yarding in the variable density thinning portions of the timber sale shall not be permitted during the bark slippage season unless authorized in writing by the Contract Administrator. This season is estimated to be from April 1 to July 15 but will vary depending on weather conditions. If permission is granted to operate during the bark slippage season the purchaser will be required to provide a plan outlining mitigation measures.

**ROADS:** 62.46 stations of optional construction. 30.08 stations of optional reconstruction. 42.37 stations of road to be abandoned if built.

Development of an existing hardrock pit (Nolte Hardrock Pit) at station 116+97 of the BK-06 Road will involve drilling, shooting, and processing rock to generate approximately 170 cubic yards of riprap, and approximately 3,750 cubic yards of shot rock and 3-inch minus ballast. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

### ACREAGE DETERMINATION

**CRUISE METHOD:** Acres determined by GPS and Hand traverse. 101.7 acres gross. 0.7 acres deducted for green tree retention clumps and approximately 15.9 acres deducted for no-treatment areas within the thinning portion of the sale. 85.1 acres net. Cruised using variable plot method. Note: approximately 15.9 acres of no-treatment areas, within the VDT portion of the sale, have been deducted from the sale acreage as no volume will be removed from these areas.

**FEES:** \$43,963.50 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

**SPECIAL REMARKS:** Blue special management tags demarcate the boundary between Units #1 and 2.

If an active Northern Goshawk nesting site is found on DNR lands in Sections 26 or 35 of Township 40 North, Range 6 East then all proposed management activities that are within 0.55 miles of the active nest will be restricted between April 1 and August 31. Restricted activities include, but are not limited to, tree removal, herbicide application, broadcast burning, and road construction.

Utility price for P-021 clause is \$20.00 per mbf. White pine will be included as "Other Conifer" on Brand Designation from at the same rate as Hemlock.

**Schedule B**  
**Thinning Prescription**

**PRESCRIPTION:**

- Leave a residual stocking of approximately 135 trees per acre (tpa) in thinning areas with an average spacing of approximately 18 feet by 18 feet.
- Leave all conifers greater than 18 inches diameter breast height (dbh).
- Leave all western hemlock below 11 inches dbh.
- Western redcedar, white pine and big leaf maple are not to be cut except as needed for corridors.
- Openings created by felling trees shall not exceed 30 feet between leave trees in designated thinning areas. If openings in the designated thinning areas exceed this distance, sufficient trees shall be left on the perimeter of the opening to maintain the appropriate trees per acre.
- Two conifer trees per acre over 20 inches dbh (approximately 122 trees) shall be made into snags through girdling or topping the tree above 16 feet. These trees are in addition to the residual stocking targets mentioned above and will be spread evenly across the treated and untreated acres in unit 2.
- Blue painted trees are not to be cut and are to be left out of corridors.
- Blue painted snags are not to be cut and are to be left out of corridors unless required for safety reasons. If a blue painted snag must be felled for operational or safety reasons an additional snag of equal size must be created.
- No downed wood is to be removed from corridors or designated thinning areas.

**LEAVE TREE DEFINITION**

Leave trees in the unit will be selected by comparing their characteristics with other trees in the stand. Leave trees will be the best trees from the largest diameter classes available and evenly distributed over the landscape.

**PREFERRED LEAVE TREE SPECIES IN ORDER OF PREFERENCE ARE:**

1. Western Redcedar (no cut except for corridors)
2. Western White Pine (no cut except for corridors)
3. Big Leaf Maple (no cut except for corridors)
4. Douglas-fir
5. Western Hemlock
6. Red Alder

**BEST TREES HAVE THE FOLLOWING CHARACTERISTICS:**

- Fullest and most vigorous crowns

**DOWNHILL CABLE YARDING:**

Corridors are limited to 30 feet wide (including rub trees) and no less than 150 feet apart as measured from the center of the corridor. Corridors shall be located in a manner as to minimize the damage to, or removal, of leave trees and must be pre-approved by contract administrator. Thinning prescription will only occur on lands that are within 40 feet, on average, from the cut

edges of approved downhill thinning corridors. Landings will be located to provide for parallel yarding corridors. Radial yarding corridors will not be allowed. When utilizing the parallel corridors, the specified corridor widths, minimum distance between corridors, and thinning width will result in approximately 40 feet between thinning areas that will not be treated.

#### UPHILL CABLE YARDING:

Corridors are limited to 12 feet wide (including rub trees) and no less than 100 feet apart as measured from the center of the corridor. Corridors shall be located in a manner to minimize the damage to, or removal, of leave trees. Landings will be located to provide for parallel yarding corridors whenever possible. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridor. Prescription will be followed on all lands in between corridors.

#### GROUND-BASED YARDING CORRIDORS:

Corridors are limited to 14 feet wide (including rub trees) and no less than 75 feet apart as measured from the center of the corridor. Corridors shall be located in a manner to minimize the damage to or removal of leave trees. Prescription will be followed on all land in between corridors.

#### COMPLIANCE:

A 1/20 acre fixed radius plot (26.3 feet) will be measured in thinning areas to determine residual trees per acre. Plots will be evenly distributed at a density of at least 2 plots per five acres. The number of trees in a plot will be multiplied by 20 to determine the trees per acre for that plot. The average of all plots in a unit will determine the trees per acre for that unit. Only trees greater than or equal to 6.5" DBH will be measured.

#### UNIT DIVISIONS FOR ASSESSMENT OF DAMAGE:

Per contract clauses H-012 and D-040.

Unit 2 Two compartments are delineated for assessment of damage. These are marked on the timber sale map to labeled as 1 & 2.

#### CERTIFICATION OF FALLERS AND YARDER OPERATORS

(additional requirements beyond those outlined in the H-011)

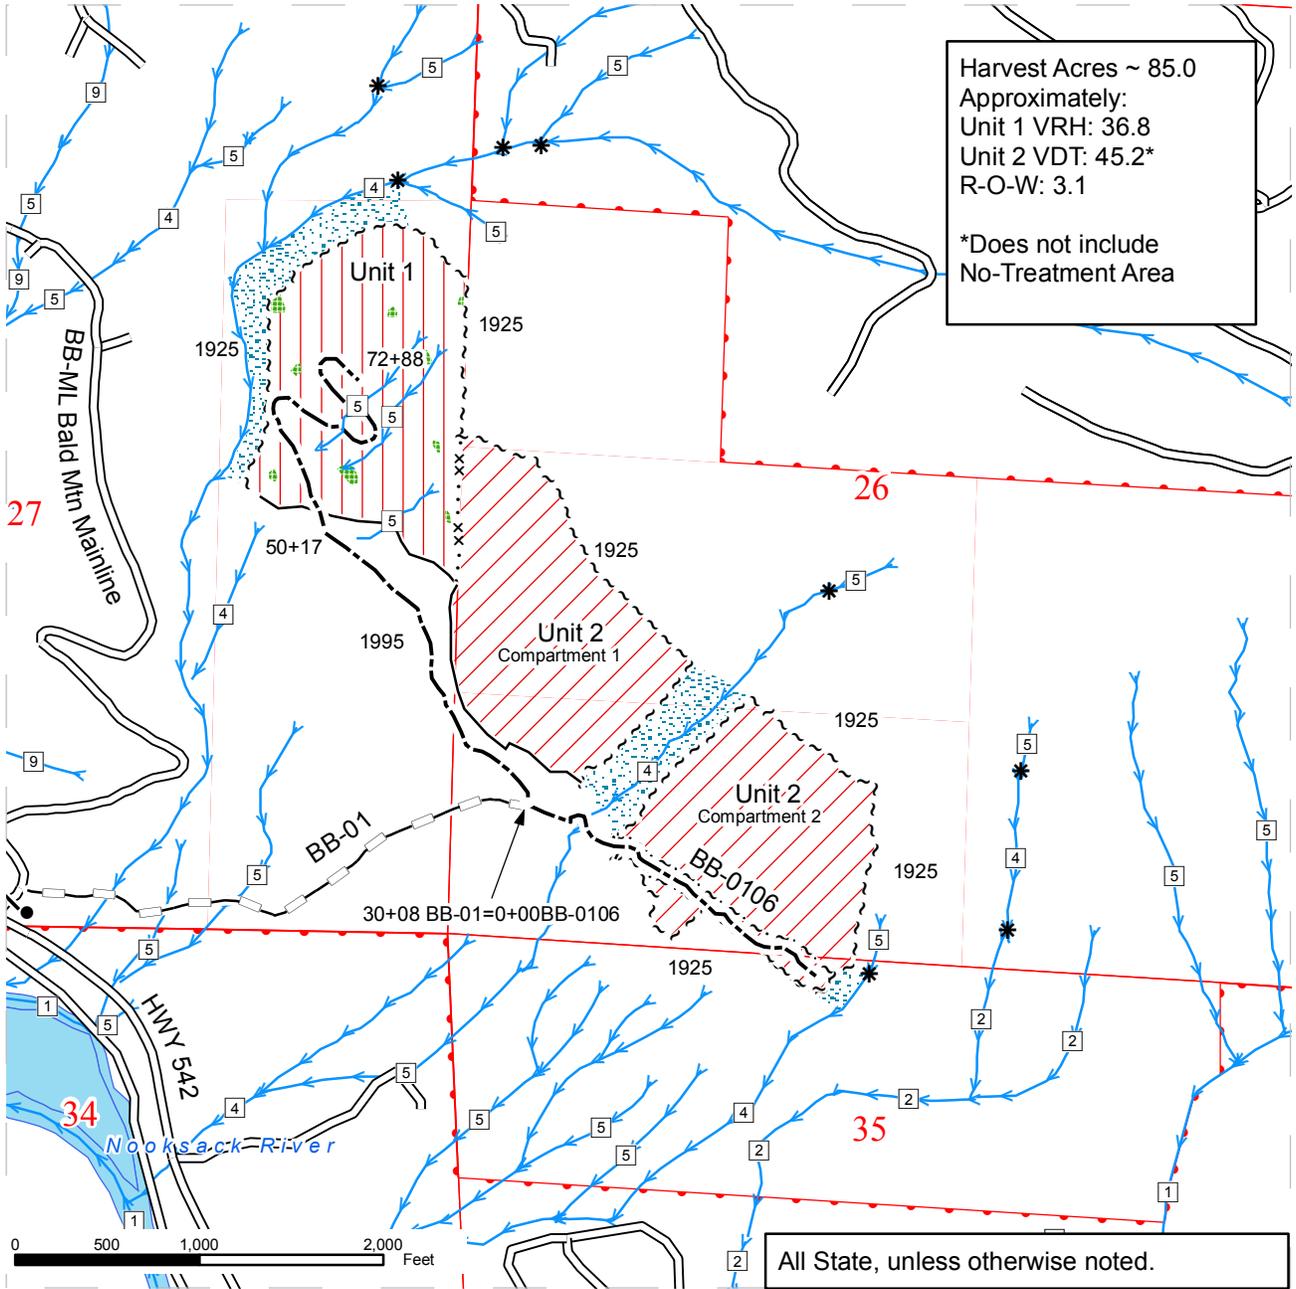

The contract administrator and faller/harvest operator will jointly review the leave tree selection criteria as outlined above. In conjunction with the Contract administrator, the faller/ harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process. Certifications will be issued to individuals when they demonstrate to the Contract administrator their ability to perform within the requirements set forth in the contract.
