

Public Auction Sale of Timber

Book 903

.....
May 2011

WASHINGTON STATE DEPARTMENT OF
Natural Resources

Peter Goldmark - Commissioner of Public Lands

Caring for
your natural resources ...
now and forever

IMPORTANT NOTICES

Natural Resources (DNR)

Governmental Regulatory Actions or Orders

The purchaser assumes the risk of liabilities related to regulatory actions or orders by any government agency that may affect the operability of these timber sales. Such regulatory actions or orders include, but are not limited to, actions taken pursuant to the State Forest Practices Act, Chapter 76.09 RCW, and the Federal Endangered Species Act, 16 U.S.C. §§ 1531-1544. Please see timber sale contract clauses G-066 and G-220 for further information.

Threatened and Endangered Species

DNR cannot verify the presence or absence of **any** threatened or endangered species that may affect the operability of the timber sale. Purchasers must rely on their own assessments.

Export Restricted

All timber purchased under these state DNR contracts shall not be exported outside of the United States until the timber has been processed. Purchasers shall not violate any of the prohibitions in WAC 240-15-015 (relating to the prohibitions on export and substitution), WAC 240-15-025 (relating to reporting requirements), and WAC 240-15-030 (relating to enforcement). If purchasers knowingly violate WAC 240-15-015, purchasers shall be barred from bidding on or purchasing export restricted timber as provided.

Cover photos

Timber Sales in this book are from state trust lands, managed to help build K-12 public schools, state universities, colleges, prisons, mental hospitals, the state Capitol; and to support local services in many counties.

Top left: State Forest Lands are managed to provide revenue to the counties in which they are located such as the Pacific County Courthouse in South Bend, Washington. Northwest Bridge Company of Portland, Oregon completed construction of the courthouse building in June of 1911. One unusual feature of the historic building is an "art glass dome" that crowns the structure. The courthouse is listed on the National Register of Historic Places.

Certification Opportunities for DNR Timber Purchasers

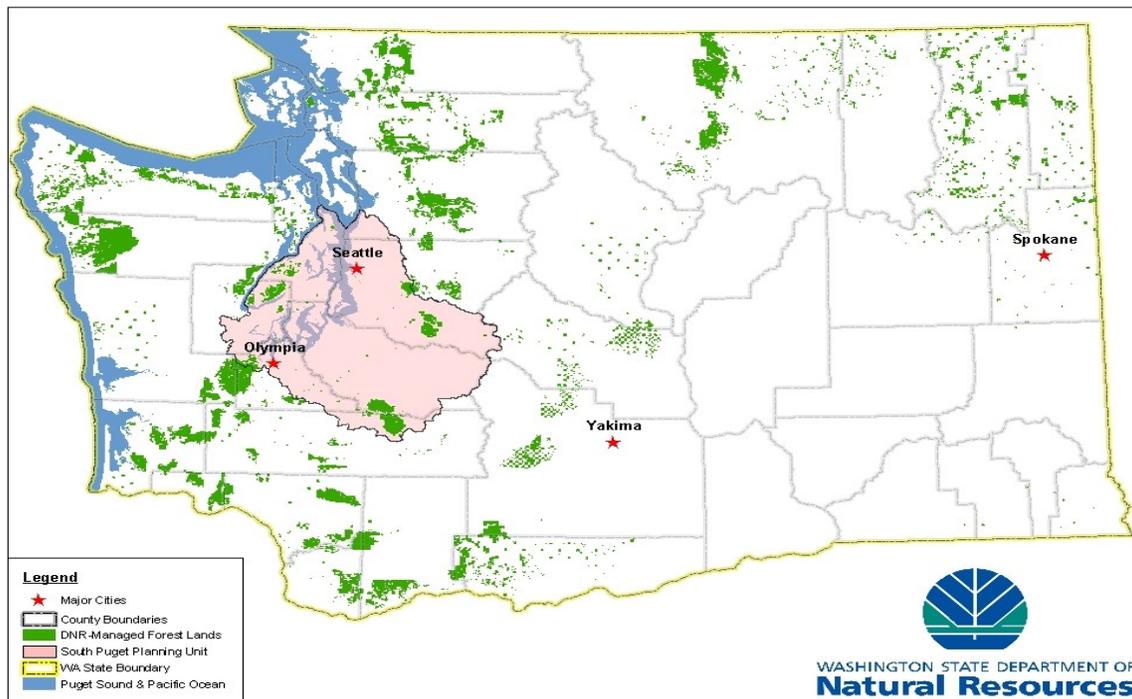

Certified forests are grown to an approved set of standards which demonstrate environmentally responsible, socially beneficial, and economically viable management practices that promote responsible forestry. This unique commitment to responsible forestry recognizes that forest landowners play a critical role in ensuring the long-term health and sustainability of our forests.

Forest Stewardship Council® (FSC®) is an independent, non-profit organization that promotes responsible management of the world's working forests through the development of forest management standards, a voluntary certification system, and trademarks that provide recognition and value to products bearing the FSC label in the marketplace. FSC standards ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way.

Sustainable Forestry Initiative, Inc. is an independent non-profit organization internationally endorsed and accepted around the world. The *Sustainable Forestry Initiative® (SFI®)* program is based on the premise that responsible environmental behavior and sound business decisions can co-exist. Its three-chamber Board of Directors governs all aspects of the SFI program, with equal representation from the environmental, economic and social sectors.

Currently, all Department of Natural Resources (DNR)-managed forested state trust lands in Washington State are certified under the 2010-2014 SFI program Standard. Lands within DNR's South Puget Habitat Conservation Plan Planning Unit, located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties, are dually certified under the FSC Pacific Coast Regional Standard and the 2010-2014 SFI program Standard.

Certification under each standard involves an inspection audit of the landowner's forest management activities by an independent third-party accredited team to verify that it meets specified forest management principles. If the forest unit complies with the specific standard, the landowner receives a certificate of conformance ensuring that responsible forestry is being practiced. Both standards encourage integration of perpetual growing and harvesting of trees with strong measures to protect wildlife, plants, soil, water, and air quality. Both standards provide a seal of approval that forests certified under these principles are well-managed. The global marketplace recognizes and endorses multiple forest certification standards. Each standard has individual market niches. By being dually certified, DNR can maximize its customer base and provide choices to the consumer.

DNR's FSC certificate number is: BV-FM / COC-080501

DNR's SFI certificate number is: BV-SFIS-US09000572

DNR-managed forested state trust lands within the South Puget Habitat Conservation Plan Planning Unit (located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties) are certified as being in compliance with the Forest Stewardship Council Pacific Coast Regional Standard. This makes DNR's SP Planning Unit dually certified under both the FSC and SFI program Standards.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the FSC Program, visit www.fscus.org.

To learn more about DNR timber sales certified under the FSC Standard, visit www.dnr.wa.gov.

FSC A.C. owns all right, title, and interest in and to the Forest Stewardship Council trademarks.

All DNR-managed forested state trust lands across the state have been certified as being in compliance with the 2010-2014 Sustainable Forestry Initiative program Standard.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the SFI program, visit www.sfiprogram.org.

To learn more about DNR timber sales certified under the SFI program Standard, visit www.dnr.wa.gov.

Sustainable Forestry Initiative® and SFI® word marks and logo marks used are registered marks owned by Sustainable Forestry Initiative Inc.

Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. ***The merchantability of the forest products.*** The use of the term "merchantable" in any document is not intended to vary the foregoing.
- b. ***The condition of the forest products.*** All forest products will be conveyed "AS IS."
- c. ***The acreage contained within any sale area.*** Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. ***The volume, quality, or grade of the forest products.*** The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. ***The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.*** These documents have been prepared for the State's appraisal purposes only.
- f. ***That the sale area is free from threatened or endangered species, or their habitat.*** The State is not responsible for any interferences with forestry operations that result from the presence of any

threatened or endangered species, or the presence of their habitat, within the sale area.

g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.

h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.

B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA).

C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.

D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.

E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.

F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.

G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map,

sale preview packets and that in the timber sale contract, the **signed contract will prevail**.

H. Purchasers must pay the Forest Excise Tax on the bid price, permanent road construction costs, and other considerations. The tax rate is 5% without the EARR credit and 4.2% with the credit. For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

I. **Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security** specified on each Notice of Sale. **The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation.** Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.

J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.

K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

Bidding Process

A. All timber will be auctioned using the sealed bid method.

B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.

C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.

D. All bids must include the completed Sealed Bid Form and bid deposit.

E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number). Sales added after the book is printed will be inserted to retain this order. Sort sales may be auctioned out of this sequence at the State's convince.

F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.

G. For sales offered on a stumpage basis, the apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced. **This option is not available for sales offered on a delivered basis.**

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

- A. Required bid deposits are listed on each Timber Notice of Sale.
- B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
- C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
- D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**

Timber Sale Per Sale Bid Bonds

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per Sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m., on the day of the auction.**
- D. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- E. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashiers' check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashiers' check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements)
- Licensed to do business in the State of Washington
- Eligible to bid on Export Restricted timber
- Authorized to submit bids

Authorized Representatives

Company officers or company authorized representatives may bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources, Forest Resources and Conservation Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

Within 30 days of confirmation date the successful bidder agrees to furnish Performance Security acceptable to the State in the amount specified on the Notice of Sale. Performance Security must guarantee performance of all provisions of the contract and payment of any damages caused by operations under the contract or resulting from the successful bidders noncompliance with any rule or law.

Bidder's Warranty and Bid Signature

By signing and submitting this bid as an offer to purchase forest products from the State, the Bidder hereby warrants to the State that they have had an opportunity to fully inspect the sale area and the forest products being sold. Bidder further warrants to the State that they enter this bid based upon their own judgments of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold. Bidder also warrants to the State that they enter this bid without any reliance upon the volume estimates, acreage, appraisals, pre-bid documentation, or any other representation by the Washington State Department of Natural Resources.

_____ Date _____
(Signature of Authorized Representative submitting this bid)

(Print name and title of Authorized Representative submitting this bid)

Note: all sales are subject to confirmation by the Commissioner of Public Lands (Refer 79.15.120)

Instructions For Completing Sealed Bid Form

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks on bid form must be completed including the bid bond number if the bidder is relying upon a bid bond for bid deposit.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box before 10:00 a.m. on the day of auction at the location specified in the Timber Notice of Sale.
 - B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be on the bid bond and timber sale contract. The bid form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Mailed Bids

- A. Bids that are mailed are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BIDE NCLOSED". The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The Sealed Bid Form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope.
 - B. Bids that are mailed will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery. The DNR assumes no responsibility for any delays caused by any delivery service.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Initial Deposit:

Lump Sum Sales - Initial Deposit must equal 10% of the total bid submitted.
(25% if the bidder is a defaulter as defined under WAC 332-140-300)

Weight Scale Sales - Initial Deposit must equal 10% of the bid per ton multiplied by the total sale estimated tonnage. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Scribner MBF Scale Sales - Initial Deposit must equal 10% of the bid per MBF multiplied by the total sale MBF. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

STATEWIDE BID BOND

Bond Number _____

_____ of _____,
(Principal's Name) (City, State)

hereinafter called PRINCIPAL, and _____ hereinafter called
SURETY,

a corporation organized under the laws of the State of _____, and authorized to transact surety business in the State of Washington, as SURETY, are held and firmly bound jointly and severally to the State of Washington, Department of Natural Resources, hereinafter called the STATE, in the sum of \$150,000.00 Dollars, lawful money of the United States of America. The PRINCIPAL binds itself, its heirs, executors, administrators, successors, and assigns, and the SURETY binds itself, its successors, and assigns, all jointly and severally.

This bond shall be governed by the laws of the State of Washington. In the event of a lawsuit involving this bond, a venue shall be proper only in Thurston County Superior Court.

Signed, sealed and dated this _____ day of _____, _____.
(month) (year)

This statewide bid bond may be used for bidding between the following dates:

Starting:

Ending:

It Is Hereby Understood and Agreed:

If PRINCIPAL is an apparent high bidder, PRINCIPAL shall before 4:30 p.m ., on day of sale, pay to the STATE the amount of the initial deposit in the form of a certified check, cashier's check, bank draft, cash or money order, then this agreement shall be void for the sale on which the payment is made; otherwise, it will remain in force.

SURETY will make payment to the STATE within ten days after demand by the STATE if the PRINCIPAL shall fail to make timely payment as described above.

The SURETY may cancel this bond by sending a written notice to the STATE, not less than forty-five days before a cancellation date; liability shall terminate as to acts or omissions of the PRINCIPAL that occur after the cancellation date.

The PRINCIPAL and the SURETY executed this bond on the date first mentioned.

Pole sorts (Distribution): Enter three or more lengths. Attach preferred manufacturing information.

Pole sorts (Transmission): Enter six or more lengths. Attach preferred manufacturing information.

Tonnage sorts: See bid form instructions for required log lengths. Enter additional custom lengths as desired.

Log Length Ranges	Bidder's Preferred Log Lengths (Log lengths exclude trim)
12 ft. through 20 ft.	
22 ft. through 30 ft.	
32 ft. through 40 ft.	
Distribution Poles – 35 ft. through 55 ft.	
Transmission Poles – 60 ft.+	

Additional Log or Pole Length Information:

To provide additional preferred cutting information you may attach a separate sheet or "Cutting card".

Log Delivery Information:

1) Designate the point of delivery and address (must be a street address)

(Location Name)

(Street Address)

(City, State and Zip)

2) Designate the state approved Scaling and Weighing facilities closest to the point of delivery as needed.

Scaling Location Information

(Scaling Location Name)

(Third Party Scaling Organization)

(Scaling Location Street Address)

(Scaling Location City, State and Zip)

Weighing Location Information

(Weighing Location Name)

(Weighing Location Owner)

(Weighing Location Street Address)

(Weighing Location City, State and Zip)

Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion. Additional terms or conditions requested by the bidder on or attached to the Log Sort Sealed Bid or Supplemental Information Forms are informational only and non-binding.

Instructions for Completing the Log Sort Sealed Bid and Supplemental Information Forms.

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form(s) provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks including Agreement Number, Sort Number, Bid amount (per mbf or ton as appropriate for the sort), Bid deposit amount and type. Signatures and date on bid form must be completed including the bid bond number if bidder is relying upon a bid bond for bid deposit.

Bids may not be accepted if a completed '**Log Sort Sealed Bid Supplemental Information Form**' is not included with the approved '**Log Sort Sealed Bid Form**'.

Required log lengths for tonnage sorts: Preferred log lengths for tonnage sawlog sorts shall include the following plus any additional lengths identified on the Bid Supplemental Information form:

Species Type	Preferred Lengths
Conifer Sorts	16', 20', 24', 26', 32', 40'
Hardwood Sorts	18', 20', 26', 28', 30', 36', 38', 40'

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box or auction envelope before 10:00 a.m. on the day of sale at the location specified in the notice of sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same as the name on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope, please.
- C. Sealed bid envelopes must contain the following:
 1. A completed Log Sort Sealed Bid form;
 2. A completed Supplemental Information form; and
 3. A bid deposit

Mailed Bids

- A. Mail-in bid envelopes are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED." The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope, please.
- B. Mail-in or otherwise delivered bids will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery they chose. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes must contain the following:
 1. A completed '**Log Sort Sealed Bid Form**';
 2. A completed '**Log Sort Sealed Bid Supplemental Information Form**' and;
 3. A bid deposit

TIMBER NOTICE OF SALE

SALE NAME: *QUICKDRAW*

AGREEMENT NO: 30-086392

AUCTION: May 26, 2011 starting at 10:00 a.m., **COUNTY:** Clark
Pacific Cascade Region Office, Castle Rock, WA

SALE LOCATION: Sale located approximately 15 miles northeast of Battle Ground, Washington.

**PRODUCTS SOLD
AND SALE AREA:**

All timber, except leave trees tagged out with Leave Tree Area tags, leave trees marked with blue paint, habitat trees marked with two bands of orange paint, habitat trees marked with an orange painted "S", and all down timber greater than 36 inches in diameter bounded by the following: Timber Sale Boundary tags, reproduction, property line, and the L-1700 road in Unit 1; Timber Sale Boundary tags, Special Management Area tags, property line, and reproduction in Units 2 and 3; Timber Sale Boundary tags, Special Management Area tags, and property line in Unit 4.
All timber marked with a single band of orange paint bounded by the following: Timber Sale Boundary tags, Special Management Area tags, and property line in Unit 5; Timber Sale Boundary tags and Special Management Area tags in Units 6, 7, and 8. All timber bounded by Right-of-Way Boundary tags, if roads are built, in Units 9, 10, and 11. All timber in Unit 12, which the DNR has purchased from a private landowner, bounded by Right-of-Way Boundary tags on part(s) of Sections 28, 29 and 30 all in Township 4 North, Range 4 East, W.M. containing 227 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg DBH	Ring Count	Total MBF	Total \$/MBF	MBF by Grade									
					1P	2P	3P	SM	1S	2S	3S	4S	UT	
Douglas fir	16.1	7	6,113	\$382.90						3,709	1,771	633		
Red alder	8.9		92	\$118.00						9	3	80		
Sale Total			6,205											

MINIMUM BID: \$382.9/MBF (est. value \$2,351,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: October 31, 2013 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$235,100.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Harvesting activities are estimated to be 100% ground-based. Ground-based harvesting equipment is restricted to slopes of 35% and less, and allowed only during dry soil conditions. See clause H-140 and Schedule L for further harvest restrictions. Within Units 5, 6, 7 & 8, trees marked with a double band of orange paint shall be felled toward the stream and left on site. Trees marked with an orange painted "S" shall be created into a snag, or felled toward the stream with Contract Administrator approval. See Schedule A for further RMZ thinning guidelines. The HPA must be onsite during all felling and harvesting operations within Units 5, 6, 7 & 8. Within the RMZ and WMZ units, ground-

TIMBER NOTICE OF SALE

based equipment will be prohibited within 25 feet of the white timber sale boundary tags, except within designated road right-of-ways. A detailed felling and yarding plan shall be required prior to the start of any harvest activities, and approved in writing by the Contract Administrator. Ground Based Yarding will not be permitted from October 1 to May 1 unless authorized in writing by the Contract Administrator.

ROADS:

96.33 stations of optional construction. 84.46 stations of required pre-haul maintenance. 61.88 stations of required light abandonment if roads are built. Rock for construction under this contract may be obtained at no cost to the Purchaser from the L-1100-1 Pit, located in Section 28, Township 04 North, Range 04 East, W.M. Within the Spur F road right-of-way, grubbed stumps shall be retained for placement according to the TYPICAL RIPARIAN STRATEGY STREAM CROSSING PLAN. Unit 2 shall be logged and Spur E shall be abandoned by October 1, 2012 in accordance with the conditions of the Road Use Permit. Construction of Spur F may not begin prior to October 31, 2011, unless the Contract Administrator receives a written agreement between the Purchaser and the Purchaser of the Render Resale Timber Sale. Road construction will not be permitted from October 1 to May 1 unless authorized in writing by the Contract Administrator. Additional restrictions may apply to the installation of stream crossings in accordance with the Hydraulics Project Approval.

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a combination of variable plot, I.T.S, and 100% cruise methods.

FEES:

\$82,200.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

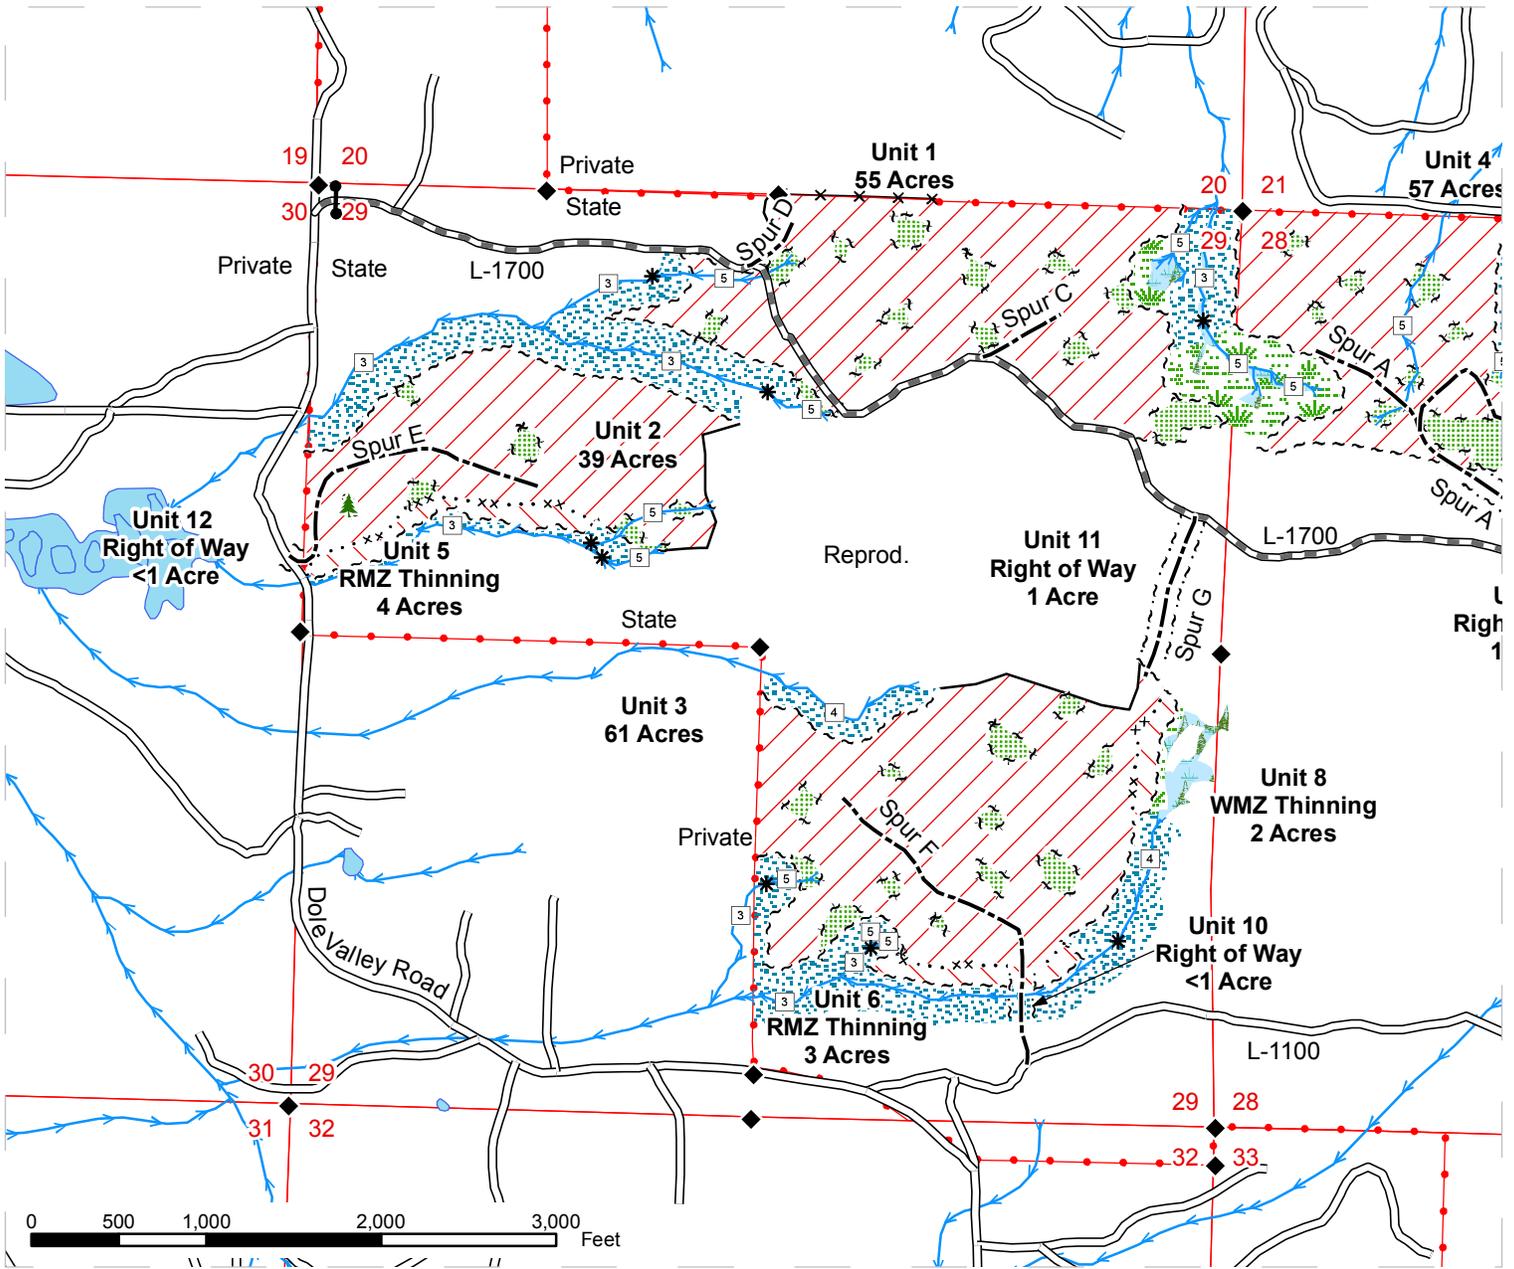

SPECIAL REMARKS:

Approximately 310 bf of 4 saw DF will be harvested as Right-of-Way timber on private property, identified as Unit 12, for no additional payment. A County Road Approach permit has been acquired for the construction of the Spur E road. The Spur E road construction will be in close proximity to buried utilities and elevated utilities. Unit 2 shall be logged and Spur E shall be abandoned by October 1, 2012 due to the conditions of the road use permit. Extreme Hazard Abatement may be required in Unit 1 adjacent to private residences. See driving map for gate locations. Gate keys may be obtained from the Pacific Cascade Region Office.

MINIMUM BID: \$2,503,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: October 31, 2012 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$250,300.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Ground based equipment and Cable. Harvesting activities are estimated to be 60% cable harvesting and 40% ground-based harvesting. Ground-based harvesting equipment shall be restricted to slopes of 35% and less, and only occur during dry soil conditions. No operations shall occur on weekends, State recognized holidays, or from 5PM to 6AM weekdays within Unit 1. Full suspension cable yarding will be required over any cliff faces that are greater than or equal to 25 feet in height. Intermediate support may be required to prevent soil rutting in Unit 1 off the A-1000 road. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator. Ground Based Yarding will not be permitted from October 1 to May 1 unless authorized in writing by the Contract Administrator.

ROADS: 68.14 stations of optional construction. 12.82 stations of optional reconstruction. 78.43 stations of required pre-haul maintenance. 70.98 stations of required light road

TIMBER NOTICE OF SALE

abandonment. Rock under this contract may be obtained at no cost to the Purchaser from the A-1000 Quarry located in Section 18, Township 06 North, Range 04 East, W.M. and/or the N-3000 Quarry located in Section 08, Township 06 North, Range 04 East, W.M. 5/8 INCH MINUS rock for roads under this contract may be obtained at no cost to the Purchaser from the N-3000 Stockpile located in Section 08, Township 06 North, Range 04 East, W.M. Any damage to any road resulting from any harvest operations will be repaired at the Purchasers expense unless authorized by the Contract Administrator. Road construction will not be permitted from October 1 to May 1 unless authorized in writing by the Contract Administrator. This construction restriction applies to road construction, reconstruction, pre-haul maintenance, and rock pit development activities.

ACREAGE DETERMINATION

CRUISE METHOD: Acreage was determined by GPS. Cruise was completed using variable plot cruise methods.

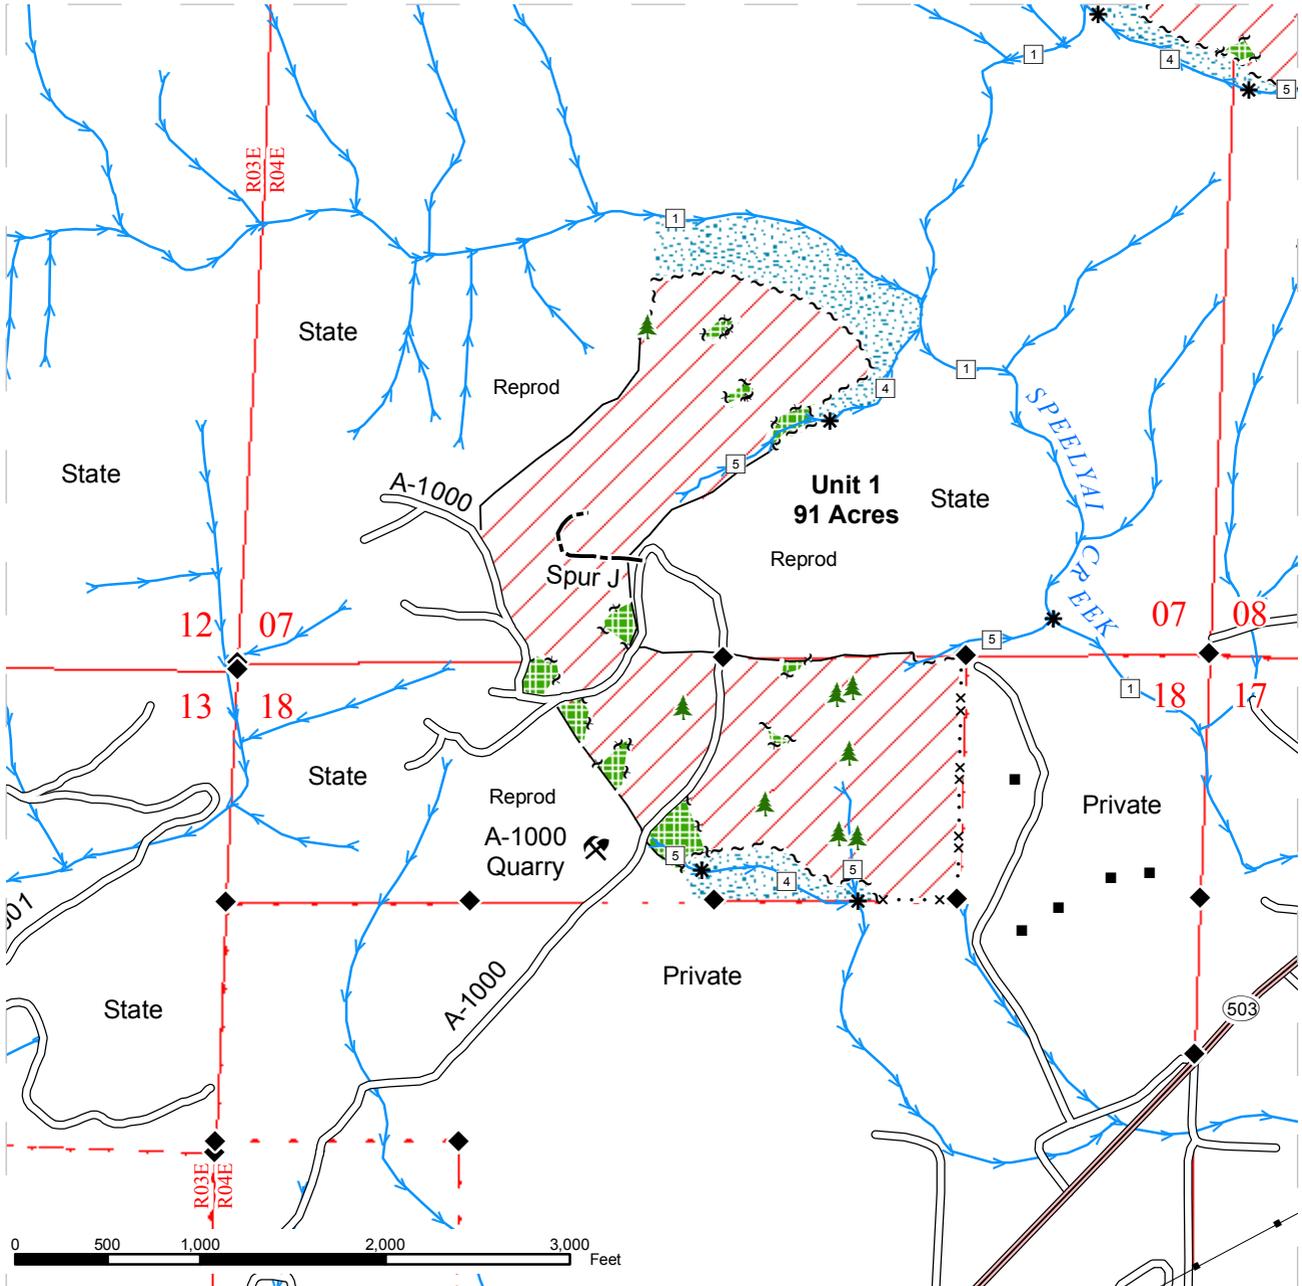

FEES: \$89,000.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: See driving map for gate locations. Gate keys may be obtained from the Pacific Cascade Region office. Any timber harvest within two tree lengths of the PacifiCorp power line Right-of-Way will require at least one-week advance notice to PacifiCorp. Contact information is provided in the Schedule L.

TIMBER NOTICE OF SALE

SALE NAME: U TUBE

AGREEMENT NO: 30-086381

AUCTION: May 26, 2011 starting at 10:00 a.m., **COUNTY:** Klickitat
Pacific Cascade Region Office, Castle Rock, WA

SALE LOCATION: Sale located approximately 3 miles northeast of Willard, Washington

PRODUCTS SOLD AND SALE AREA: All timber NOT marked with orange paint and bounded by white timber sale tags or blue special management zone tags and red flagging on part(s) of Sections 19 and 30 all in Township 4 North, Range 10 East, W.M., containing 34 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg DBH	Ring Count	Total MBF	Total \$/MBF	MBF by Grade								
					1P	2P	3P	SM	1S	2S	3S	4S	UT
Douglas fir	26	9	1,933	\$385.00				213		1,028	625	67	
Grand fir	23		195	\$291.00						98	79	18	
Sale Total			2,128										

MINIMUM BID: \$385/MBF (est. value \$800,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: November 30, 2012 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$80,000.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and Ground based equipment. Ground Based Yarding will not be permitted from November 1 to April 15 unless authorized in writing by the Contract Administrator.

ROADS: 6.40 stations of required construction. There is no required prehaul roadwork. The hauling of forest products will not be permitted from November 1 to April 15 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: Units were traversed with a Trimble GPS. Unit 1A had 3 acres deducted for two separate no-harvest SMZ's leaving 31 net cruise/harvest acres. Cruise was a variable plot method with 1.3 plots/acre, and a 46.9 BAF.

FEES: \$22,976.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Harvest is approximately 2/3 cable yarding requiring the use of a slack-pulling carriage and full suspension across a type Np creek, and 1/3 ground-based skidding by acreage. The type Np creek has a 50' RMZ buffer flagged with pink and yellow flagging. Only timber that must be cut for yarding corridors will be removed from this area. A detailed

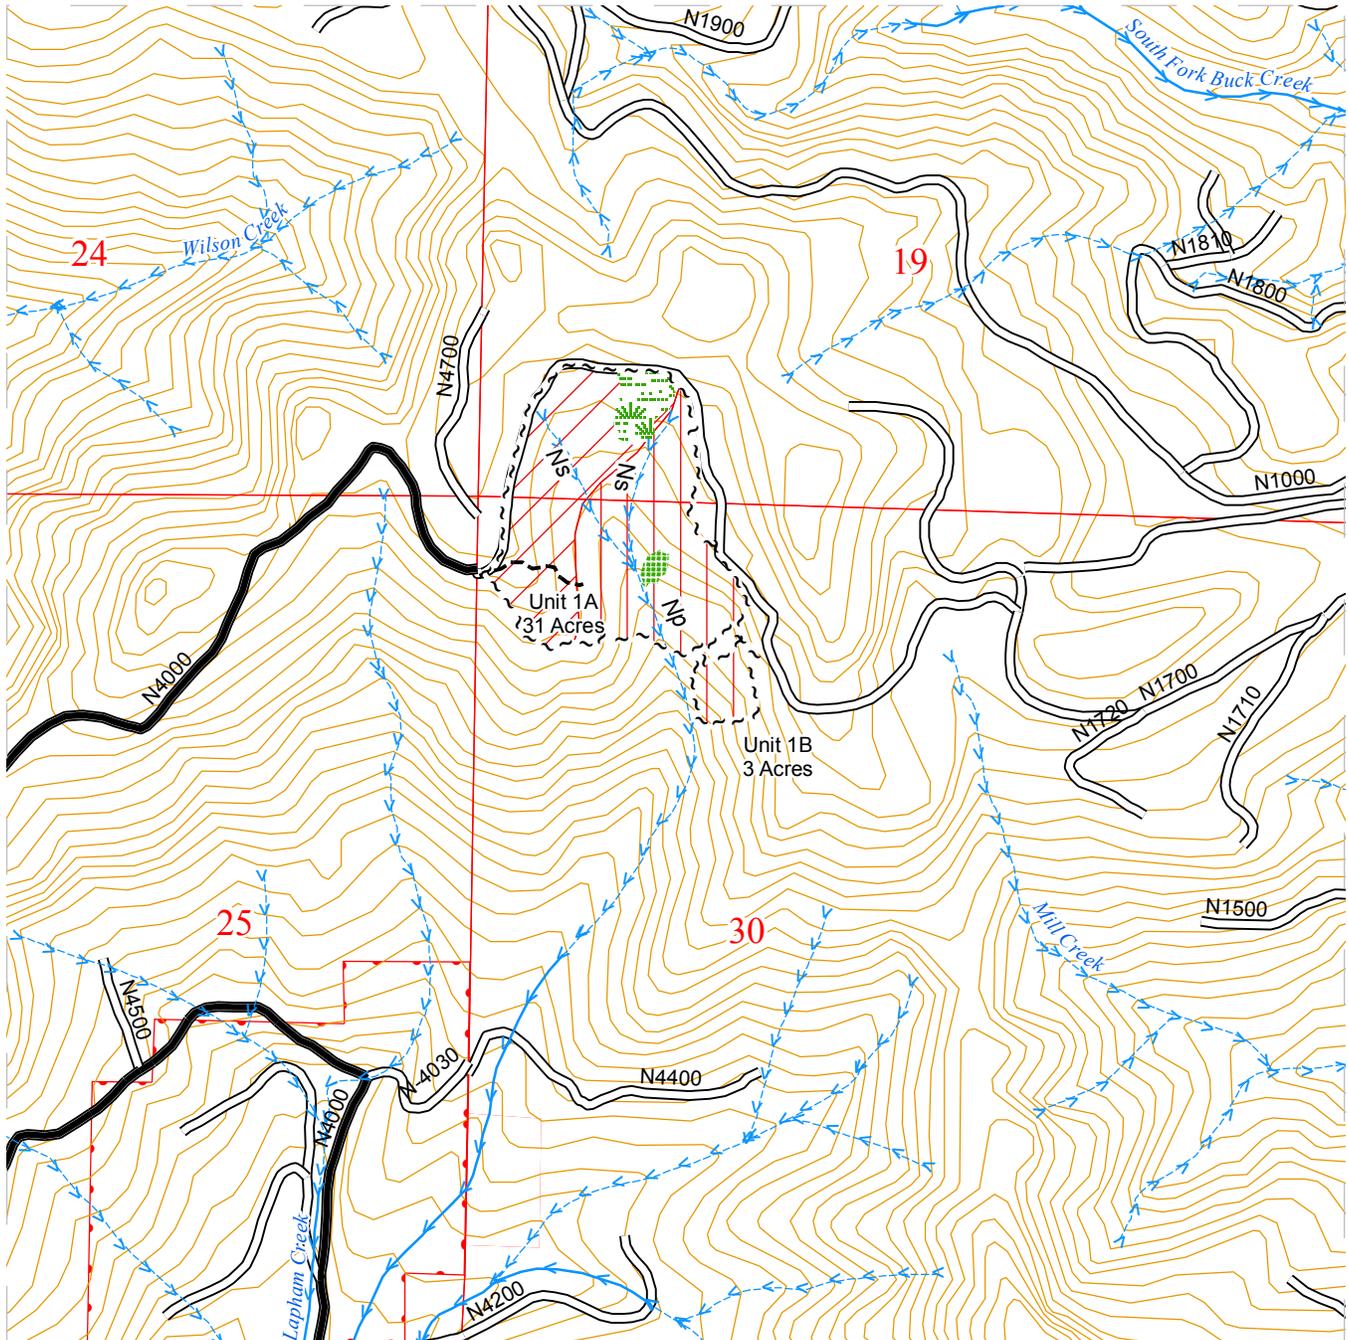

TIMBER NOTICE OF SALE

logging plan must be prepared that addresses all the items in the H-120 and H-140 clause of the timber sale contract. The proposed landing on the N-4000 road does not have adequate stumps or trees for use as guyline holds, and will require the use of additional equipment staged behind the yarder.

AGREEMENT NO: 30-085089

AUCTION: May 25, 2011 starting at 10:00 a.m.,
Northwest Region Office, Sedro Woolley, WA

COUNTY: Skagit

SALE LOCATION: Sale located approximately 6 miles northeast of Darrington, WA.

**PRODUCTS SOLD
AND SALE AREA:**

All timber to be removed as described in Schedule B, bounded by white timber sale boundary tags, property lines, adjacent young stands, the CMG-13 Road, Mel Garton Place Road, and the CMG-1301 Road, except trees marked with blue paint on the bole and root collar and cedar snags, dead and down cedar trees, logs and stumps in Unit #1.

All timber to be removed as described in Schedule B, bounded by white timber sale boundary tags, property lines and the PM-2002 Road, except trees marked with blue paint on the bole and root collar and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

All timber to be removed as described in Schedule B, bounded by white timber sale boundary tags, property lines, and the PF-ML forest road, except trees marked with blue paint on the bole and root collar, or yellow painted trees, and cedar snags, dead and down cedar trees, logs and stumps in Unit #3.

All timber to be removed as described in Schedule B, bounded by white timber sale boundary tags, property lines, adjacent young stand and blue special management tags, except cedar snags, dead and down cedar trees, logs and stumps in Unit #4.

Individual orange marked take trees located in the RMZ (beyond blue special management tags) in Unit #4.

All timber bounded by white timber sale boundary tags, the PM-2003 forest road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #5.

All timber bounded by white timber sale boundary tags and the PM-04 forest road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #6 and Unit #7.

All timber including trees marked with orange/red paint, bounded by white timber sale boundary tags, property lines, the PM-08 and PM-20 forest roads, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #8.

All forest products bounded by orange right of way tags, except that title to the timber within the right of way tags is not conveyed to the Purchaser unless the road segment is actually constructed.

The above described products on part(s) of Sections 10, 22, 26, 27, 28 and 29 all in Township 33 North, Range 10 East, W.M., containing 222 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

MINIMUM BID: \$208/MBF (est. value \$1,177,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE

SECURITY: \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: September 30, 2013 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Hemlock

BID DEPOSIT: \$117,700.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 35% or less in Units #5-8; cable, shovel, forwarder, processor or tracked skidder on slopes 35% or less in Units #1-4. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

Cutting and yarding in the variable density thinning portions of the timber sale shall not be permitted during the bark slippage season unless authorized in writing by the Contract Administrator. This season is estimated to be from April 1 to July 15 but will vary depending on weather conditions. If permission is granted to operate during the bark slippage season the purchaser will be required to provide a plan outlining mitigation measures.

Timing restrictions will be implemented for ANY activity associated with harvesting timber, road building, and rock pit development. Harvest activities include but are not limited to: falling, yarding, loading, running chainsaws, or running heavy equipment. Timing restrictions will apply to Units 6, 7, and 8. The timing restrictions will be in effect from April 1 through August 31, from 1 hour before to 2 hrs after official sunrise, and 1 hour before to 1 hour after official sunset.

ROADS: 37.68 stations of optional construction. 179.71 stations of optional reconstruction. 16.31 stations of road to be abandoned if built. 4.91 stations of existing road to be abandoned.

Development of an existing gravel source (PF-0702 Gravel Pit) at milepost 0.2 of the PF-07 Road will involve clearing, stripping, and processing rock to generate gravel ballast. Also, existing crushed 3-inch minus stockpile may be used for reconstruction or maintenance purposes only.

Development of a proposed gravel source (PM-0411 Gravel Pit) at station 59+61 of the PM-04 Road will involve clearing, stripping, and processing rock to generate gravel ballast.

TIMBER NOTICE OF SALE

Use of existing riprap stockpiles (PM-04 Riprap) at station 0+00 to 8+00 of the PM-04 Road.

This project is estimated to need approximately 200 cubic yards of riprap, and approximately 3,350 cubic yards of ballast. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS and photo. 236.1 acres gross. 3.2 acres deducted for green tree retention clumps and 11.1 acres deducted for existing road acres. 221.8 acres net. Cruised using variable plot method, except Unit #2 was cruised using fixed plot. Expansion factor used is 40.00, except Unit #2 was 1/10th acre. Sighting height is 4.5.

FEES: \$59,081.75 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: 1.) Blue special management area tags demarcate the onset of the Riparian Management Zone (RMZ) in Unit #4 and also demarcates the boundary between Unit #2 and Unit #8 along the PM-2002 Road. 2.) Intermediate supports may be necessary in Units #4 and Unit #7. 3.) Yellow painted trees shall not be harvested.

Schedule B
Thinning Prescription

Unit 1

Thin from below using a spacing of 19X19 feet.

Do not cut any of the large, blue painted, remnant trees, moving skid trails to stay away from them.

Some blue painted trees are culturally modified, avoid if possible. DNR to collect age information if cut.

Do not cut corridors where no prescription trees exist.

Do not cut western white pine

Primary take trees will be western hemlock and Douglas-fir.

Leave trees will be the best trees from the largest diameter classes available, as uniformly distributed as possible, and free of major defects.

Preferred leave tree species in order of preference are:

1. Western redcedar
2. Douglas-fir
3. Western hemlock

Unit 2

Cut orange/red ringed trees with butt dots.

Cut all hardwoods.

Do not cut conifer or big leaf maple trees over 26" dbh.

Unit 3

Cut RA.

Cut DF 6-14 inches

WH 6-14 inches

Do not cut any blue painted trees. Skid trail layout must avoid blue painted trees.

Do not cut any yellow painted trees. DNR to create snags with these.

Unit 4

Cut all hardwoods.

Cut orange/red painted trees within the RMZ.

Ground Yarding Corridors:

Ground yarding corridors will be limited to 14 feet (including rub trees) and no less than 70 feet apart unless otherwise authorized in writing by the Contract Administrator. See H-013.

Cable corridors:

Landings will be located to provide for parallel yarding corridors whenever possible. Corridors will be limited to 12 feet including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet

where the corridor leaves the unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3 – 5 feet of the center of the corridor should be removed prior to yarding. Following completion of yarding of each corridor, rub trees within 6 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 12-foot corridor.

Damage Units:

Unit 1: Existing roads divide the damage compartments – 5 compartments.

Unit 2: New roads divide the damage compartments – 3 compartments.

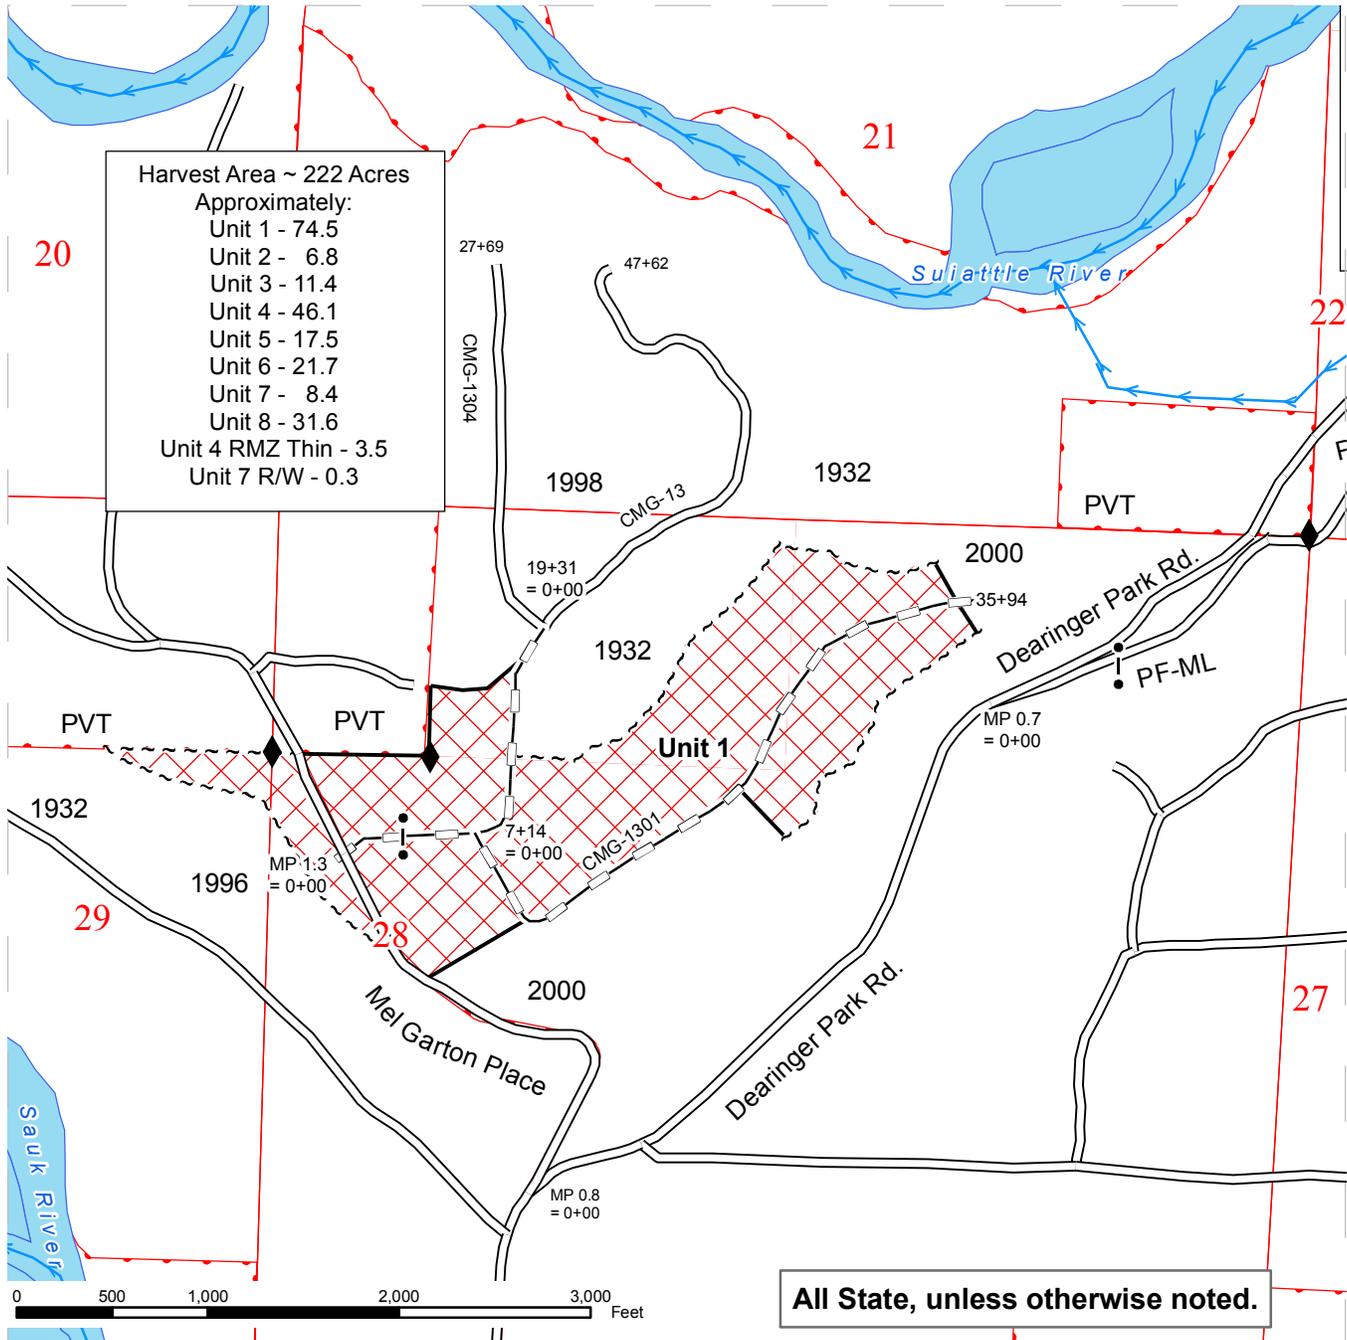

Unit 3: All one compartment.

Unit 4: All one compartment.

DRIVING DIRECTIONS:
 Travel north on Highway 530 from Darrington approximately .25 mi and turn right Sauk Prairie Road. Travel east on Sauk Prairie 5.5 miles and turn left, continue out East Sauk Prairie for 0.8 miles to reach the junction of Mel Garton Place Road and the Dearinger Park Road. Take the first left at Mel Garton Place Road to access Unit 1. At the junction of Mel Garton Place Road and the Dearinger Park Road, continue on the Dearinger Park Road for 2.7 miles to the junction of the Dearinger Park Road and PM-ML. Turn right onto the PM-ML and follow it up the hill for 1.8 miles to the junction of the PM-ML and the PM-2002 Road to access Unit 2. At the junction of Mel Garton Place Road and the Dearinger Park Road, continue on the Dearinger Park Road for 0.7 miles until you reach the PF-ML. Turn right onto the PF-ML and follow for 0.8 miles to access Unit 3. Continue on the PF-ML for 2.4 miles to reach Unit 4. From Unit 2, continue on the PM-2002 Road for 0.2 miles until you reach the junction of the PM-2002 Road and the PM-20 Road to access Unit 5. At the junction of the PM-ML and the PM-04, turn left and travel 1.1 miles on PM-04 to access Unit 6. From Unit 6, continue on the MP-04 for 0.7 miles to reach Unit 7. At the junction of the Dearinger Park Road and the PM-ML, turn right onto the PM-ML and follow it up the hill for 0.5 miles to the junction of the PM-ML and the PM-08 Road to access Unit 8.

TIMBER NOTICE OF SALE

SALE NAME: GROUSE KNOB VDT & VRH

AGREEMENT NO: 30-085595

AUCTION: May 25, 2011 starting at 10:00 a.m., **COUNTY:** Skagit
Northwest Region Office, Sedro Woolley, WA

SALE LOCATION: Sale located approximately 16 miles northeast of Sedro-Woolley, WA.

**PRODUCTS SOLD
AND SALE AREA:**

All timber as described for removal in Schedule B bounded by white timber sale boundary tags and blue special management tags with pink or orange flashers, except cedar snags, dead and down cedar trees, logs and stumps in Unit #1.

All timber bounded by white timber sale boundary tags and blue special management tags with pink or orange flashers, except trees marked with blue paint on the bole and root collar, and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

All trees marked with blue special management tags located at the boundary between Units #1 and 2.

All timber bounded by white timber sale boundary tags, the BI-36 (horse trail) and BI-ML roads, and adjacent young stands, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #3.

All timber bounded by orange right of way tags, except that title to the timber within the right of way tags is not conveyed to the Purchaser unless the road segment is actually constructed.

The above described products on part(s) of Sections 5, 8 and 9 all in Township 35 North, Range 7 East, W.M., containing 105 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg DBH	Ring Count	Total MBF	Total \$/MBF	MBF by Grade								
					1P	2P	3P	SM	1S	2S	3S	4S	UT
Douglas fir	16	6	1,749	\$246.00			10	168		738	587	246	
Hemlock	14	5	158	\$200.00						67	62	29

Red alder	15		41	\$325.00						11	15	15	
Sale Total			2,071										

MINIMUM BID: \$246/MBF (est. value \$573,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: September 30, 2012 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

TIMBER NOTICE OF SALE

BID DEPOSIT: \$57,300.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable, forwarder, tracked skidder, or shovel on sustained slopes 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 11.44 stations of required reconstruction. 35.03 stations of optional construction. 28.26 stations of optional reconstruction. 22.11 stations of road to be abandoned if built.

Development of an existing gravel source (Alder Creek Gravel Pit) at station 282+40 of the BI-ML Road will involve processing rock to generate approximately 45 cubic yards of riprap and approximately 4,110 cubic yards of gravel ballast rock. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 128.5 acres gross. 1.4 acres deducted for green tree retention clumps, 15.8 acres deducted for RMZ/WMZ areas, 3.4 acres deducted for existing road, and 2.9 acres deducted for right of way. 105 acres net. Cruised using variable plot method. Expansion factor used is 20 BAF in Unit #1, and 54.45 in Units #2 and 3. Sighting height is 4.5 feet. A total of 78 plots were taken.

HQ DF noted within the sale area. See cruise or further details (approximately 197 mbf of the above listed DF 2S is deemed high quality by the Department).

FEES: \$27,440.75 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Blue tagged trees that demarcate the boundary between Units #1 and 2, are also marked with orange butt dots, such that subsequent to felling the trees, the boundary is discernable.

Schedule B
Harvest Prescription

Schedule B
Harvest Prescriptions

Unit 1 Harvest Prescription

- Outside the Special Management Units (SMU), remove all timber except designated leave trees as described below, bounded by white Timber Sale Boundary tags with pink or orange flashers and blue (SMU) tags with pink or orange flashers.
- Within SMU's A thru E (tagged out by blue special management tags only-no flashers), remove all timber. Retain all tagged SMU trees unless removal is necessary to facilitate yarding in SMU's A thru E.

SMU tagged trees separating Units 1 and 2 may be harvested.

Designated leave trees

1. Leave 105-115 trees per acre across entire unit (including yarding corridors). The residual stand must have a Relative Density (RD) of greater than or equal to 35. If natural openings occur in the stand, sufficient trees shall be left on the perimeter of the opening to maintain the appropriate trees per acre and relative density as determined by compliance plots described in compliance methods.
2. Leave all trees greater than 17 inches DBH unless the tree is deformed. A deformed tree is any tree that has a forked top, broken tip, or severe cat face (bark removed on more than half of the circumference of the tree).
3. The remainder of the leave trees will be selected by comparing their characteristics with other trees in the stand. Leave trees will be the "best trees" from the largest diameter classes available and evenly distributed across the harvest unit. The "best trees" are defined as follows: having the fullest and most vigorous crowns, be free of disease or deformation, having the best form (i.e. tallest trees, straightest boles, and smallest limb diameters).
4. Wetland and Riparian Management Zone (WMZ and RMZ) special attributes:
 - Commercial thinning of WMZ's and RMZ's shall follow timber sale prescription as outlined above.
 - There are approximately 17 WMZ/RMZ acres in unit 1. 5 trees per WMZ/RMZ acre for a total of 85 trees shall be selected from the first 25 to 50 feet outside the "No-harvest" 25-foot zone and felled towards the typed water to serve as down wood (DW).

Down wood criteria for wetlands and type 3 streams.

1. Average distance between DW trees = 50 feet.
2. Acceptable distance range = 30-70 feet.
3. Preferred species as DW = (1) Douglas-fir, (2) western hemlock.
4. DW DBH range = 12-18 inches

- DW trees shall not count towards the RD target.

- No dead down wood shall be removed. Large dead down wood (greater than 25 inches diameter) shall be disturbed as little as possible.

- Leave snags where possible. All green tree and snag retention is subject to the safety standards of the Department of Labor and Industries. All snags felled for safety reasons shall remain where they fall.

Yarding requirements:

Ground yarding – Skid trails are limited to 12 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the skid trail. Where possible, skid trails should be located in a manner to minimize the damage to or removal of leave trees.

Cable yarding - Landings will be located to provide for parallel yarding corridors whenever possible. Corridors will be limited to 14-foot including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible, corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3 – 5 feet of the center of the corridor should be removed prior to yarding. Following completion of yarding of each corridor, damaged leave trees within 7 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 14-foot corridor.

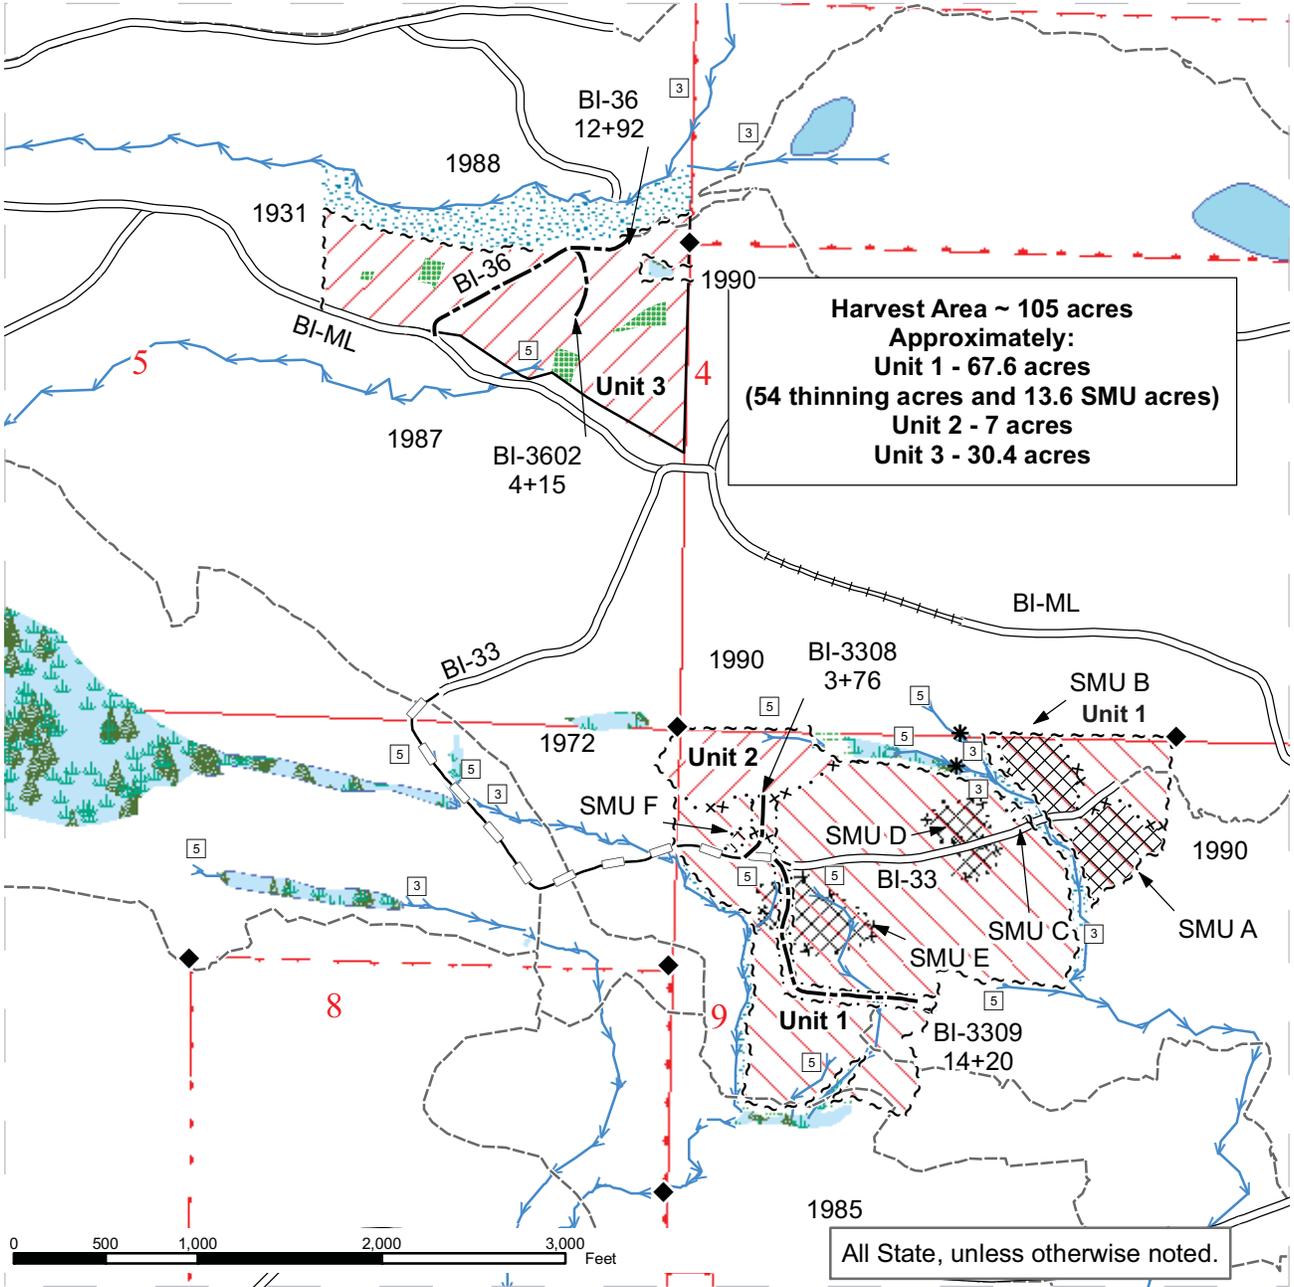

Compliance methods

1/20 acre fixed radius plots (26.3 feet) will be measured to determine trees per acre. Five plots per unit acre will be taken to obtain a sufficient sample size. The number of trees in a plot will be multiplied by 20 to determine the trees per acre for that plot. The average of all plots in a unit will determine the trees per acre for that unit. Only trees greater than or equal to 6.5 inches DBH will be counted.

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2012 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$95,600.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 35% or less. Timing restriction for wildlife will be implemented in Unit 2 for harvesting and equipment operation within ¼ mile of the occupied site i.e., timber harvest and road-building activities that include felling,

TIMBER NOTICE OF SALE

bucking, yarding, and operation of heavy equipment will not be allowed one hour before official sunrise to two hours after official sunrise and one hour before official sunset to one hour after official sunset from April 1 through August 31. No helicopter activity may occur over the site at any time during the breeding season (April 1 through August 31). Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS:

15.19 stations of required construction. 29.94 stations of optional construction. 29.94 stations of road to be abandoned if built.

Development of an existing hardrock source (MZ-21 Hardrock Pit) at milepost 2.1 of the MZ-ML road. Development will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

This project is estimated to need approximately 152 cubic yards of riprap and 4,412 cubic yards of 3-inch-minus ballast.

Road construction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD:

Acres determined by GPS traverse. 42.6 acres gross. 2.0 acres deducted for green tree retention clumps. 40.6 acres net. Cruised using variable plot method. Expansion factor used is 40.00 for redcedar and alder on Unit 1 and 54.45 and 62.5 on remaining species; 62.50 used on Unit 2, 40.00 used on Unit 1 r/w. Sighting height is 4.5 feet. A total of 51 plots were taken.

HQ DF noted within the sale area. See cruise or further details (approximately 220 mbf of the above listed DF 2S is deemed high quality by the Department).

FEES:

Purchaser shall furnish the State with a check made payable to Premier Pacific Properties, LLC, in the amount of \$3,500.00 on the day of sale for permit #55-55-085103, for right of way timber and road use. \$32,793.75 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

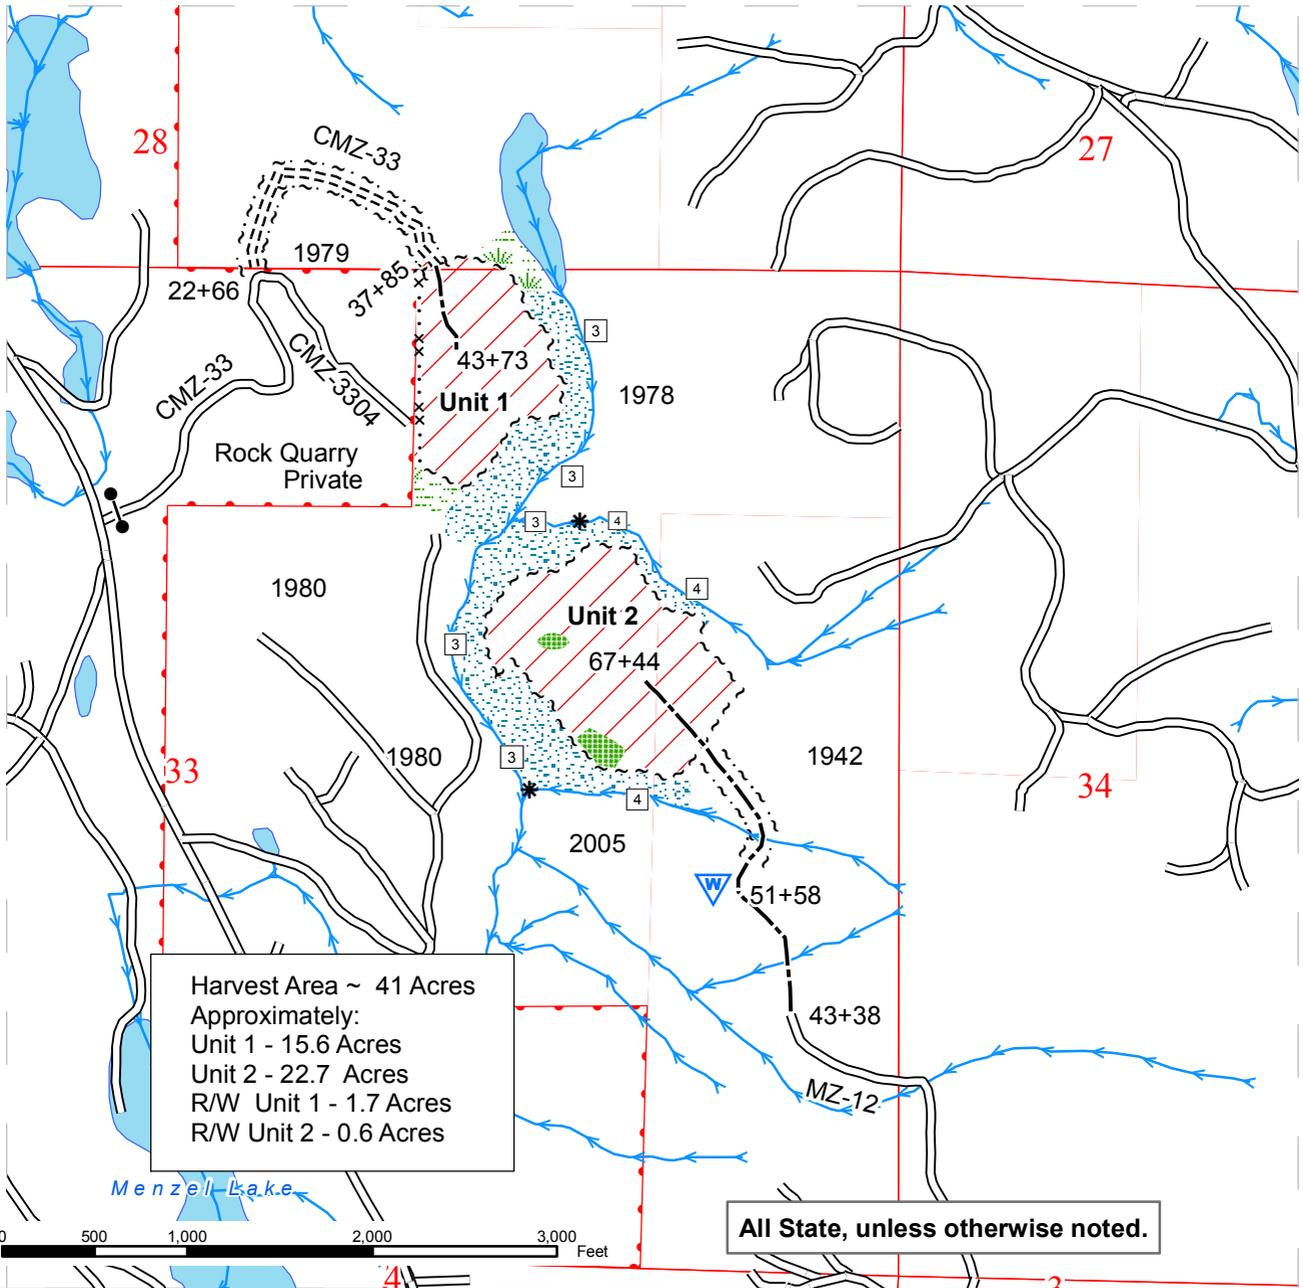

SPECIAL REMARKS:

1. Blue special management tags demarcate the last tree to remove on State land prior to property line in Unit 1.
2. Intermediate supports may be necessary along the north portion of Unit 2.
3. The combination to lock on the gate at the private rock quarry is available upon request at the Northwest Region office.

**PRODUCTS SOLD
AND SALE AREA:**

All timber bounded by white timber sale boundary tags and the EK-ML Road, except forest products tagged out by blue special management area tags, trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #1.

All timber bounded by white timber sale boundary tags and the EK-64 Road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

All timber bounded by white timber sale boundary tags, except forest products tagged out by blue special management area tags, trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #3.

All timber bounded by white timber sale boundary tags and the EK-6405 Road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Units #4 and 5.

All trees designated for removal as described in Schedule B, located in the WMZs (blue special management tagged areas) in Units #1 and 3.

All forest products bounded by orange right of way tags, except that title to the timber within the right of way tags is not conveyed to the Purchaser unless the road segment is actually constructed.

The above described products on part(s) of Sections 7, 8 and 17 all in Township 29 North, Range 8 East, W.M., containing 97 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

TIMBER NOTICE OF SALE

SALE NAME: METLIMANIA

AGREEMENT NO: 30-086448

AUCTION: May 25, 2011 starting at 10:00 a.m., **COUNTY:** Snohomish
Northwest Region Office, Sedro Woolley, WA.

SALE LOCATION: Sale located approximately 15 miles southeast of Granite Falls, WA

**PRODUCTS SOLD
AND SALE AREA:**

All timber (which include western redcedar stumps and logs) bounded by white timber sale boundary tags, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, cedar snags, cedar logs marked with blue paint and stumps in Unit #1.

All timber bounded by white timber sale boundary tags, except forest products tagged out by blue special management area tags, trees marked with ORANGE paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, logs and stumps in Unit #2.

All timber (which include western redcedar stumps and logs within 60 feet of centerline of the CH-26 and CH-2603 roads) bounded by white timber sale boundary tags, except forest products tagged out by blue special management area tags, trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, and cedar snags, dead and down cedar trees, and logs and stumps which are located outside 60 feet of centerline of the CH-26 and CH-2603 roads in Unit #3.

All trees designated for removal as described in Schedule B, located in the RMZs (blue special management tagged areas) in Units #1 and 3.

The above described products on part(s) of Sections 29, 30 and 32 all in Township 29 North, Range 8 East, W.M., containing 179 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

MINIMUM BID: \$2,409,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2013 **ALLOCATION:** Export Restricted

TIMBER NOTICE OF SALE

BID DEPOSIT: \$240,900.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 35% or less. Falling and Yarding will not be permitted from September 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 89.30 stations of required reconstruction. 39.88 stations of optional construction. 39.88 stations of road to be abandoned if built.

Development of an existing hardrock source (CH-41 Hardrock Pit) at station 216+00 of the CH-ML Road will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

Development of an existing hardrock source (PD-0202 Hardrock Pit) at station 12+50 of the PD-02 Road will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

Creation of a 10,000 cubic yard stockpile of 3-inch-minus ballast rock at the existing pit at station 12+50 of the PD-02 road.

This project is estimated to need approximately 104 cubic yards of riprap, and approximately 5,400 cubic yards of ballast. This rock is available at no cost on State land.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 194.1 acres gross. 5.1 acres deducted for green tree retention clumps and 10.8 acres deducted for existing road. 178.2 acres net. Cruised using variable plot method. Expansion factor used is 40.00 in Units 2 and 3; and 54.45 in Unit 1. Sighting height is 4.5 feet. A total of 70 plots were taken.

HQ DF noted within the sale area. See cruise or further details (approximately 120 mbf of the above listed DF 2S is deemed high quality by the Department).

FEES: \$85,475.75 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Removal of western redcedar stumps and logs is estimated to be approximately ½ cord per acre within Unit 1 and within 60 feet of center line of the CH-26 and CH-2603 roads in Unit 3.
There are residual blue marked trees in Unit 2 from a previous harvest, so leave trees are marked with orange paint in this unit.
The City of Everett will be harvesting on their property adjacent to Unit 2 of this sale. The thinning prescription lists the harvest of red alder; but no red alder trees were located in any cruise plots.

Schedule B
Thinning Prescription

THINNING PRESCRIPTION

UNIT 2 RMZ:

Cut all RA

Cut all WH and PSF 8 inches to 16 inches

Leave WRC, DF, and CW

LWD: 6 WH trees between 14-16 inches DBH

UNIT 3 RMZ:

Cut all RA

Cut all WH and PSF 8 inches to 16 inches

Leave WRC, DF, and CW

LWD: 3 WH trees between 14-16 inches DBH

LARGE WOODY DEBRIS (LWD) CREATION:

Retain all snags greater than or equal to 20 inches DBH and 20 feet tall, except where it cannot be accomplished safely. LWD trees shall be felled towards the stream where feasible to remain as LWD. Purchaser shall mark and they shall be approved by CONTRACT ADMINISTRATOR before felling. These trees shall be marked within 25 feet of the white timber sale tags. (25 feet to 50 feet from the stream channel)

SPECIAL THINNING CONDITIONS:

The Purchaser shall obtain written approval from the Contract Administrator for the location of yarding corridors through the thinning area. This approval must be given prior to the beginning of felling operations within the thinning area. Timber harvested from within these corridors that does not meet the removal specifications described above will be treated as additional volume and shall be paid for at the rates set forth in the G-101 Clause.

For thinning areas, excessive leave tree damage is defined in H-012.

Damages to leave trees in thinned areas to be assessed if greater than 5% of leave trees damaged at D-40 clause rates.

GROUND YARDING CORRIDORS:

Corridors are limited to 14 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the corridor. Where possible corridors should be located in a manner to minimize the damage to residual trees.

CERTIFICATION OF FALLERS AND YARDER OPERATORS – SEE CLAUSE H-011 OF THE CONTRACT.

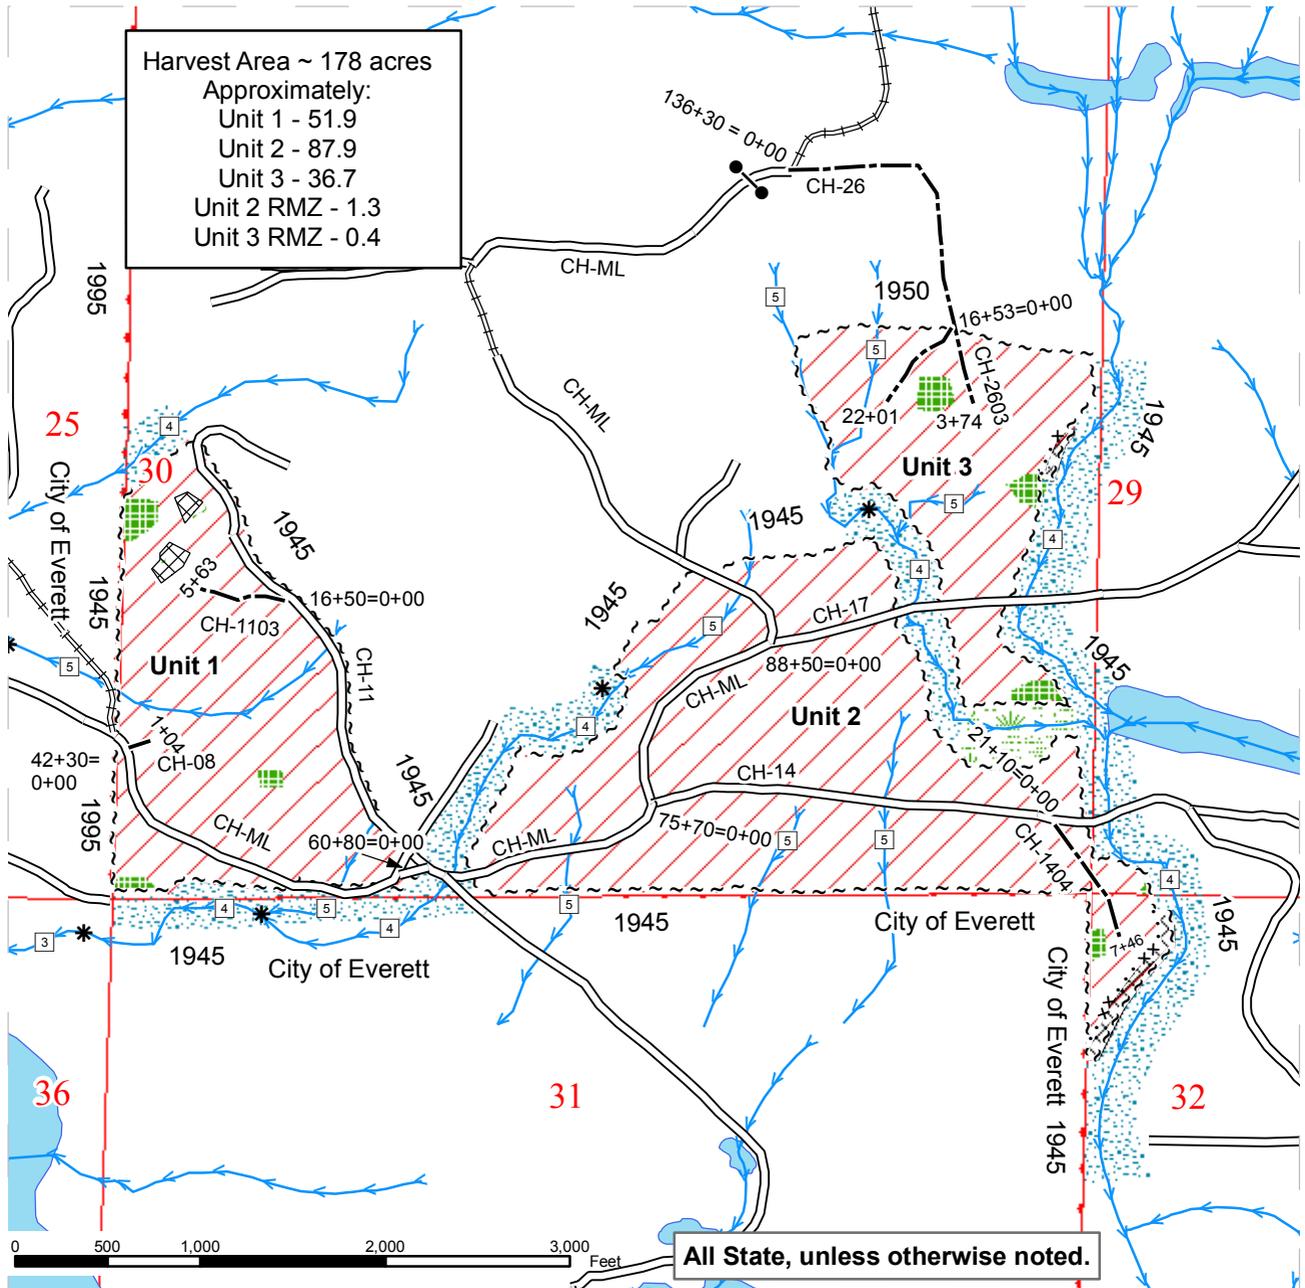

The Contract Administrator and Faller/Harvester Operator will jointly review the take tree selection criteria as outlined in this Schedule of the contract.

In conjunction with the Contract Administrator, the Faller/Harvester Operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process. Certification may be revoked at any time by Contract Administrator if Contract Administrator determines that the prescription is not being implemented properly.

To reach unit 3 travel an additional 0.5 miles (1.7 miles from the EK-ML/ CH-ML JCT) on the CH-ML to the CH-26. The CH-26 is tank trapped, park here and walk the CH-26 to the north side of unit 3.

TIMBER NOTICE OF SALE

US09000572.

BID METHOD: Sealed Bids **UNIT OF MEASURE:** MBF scale/Tonnage scale

EXPIRATION DATE: [September 30, 2011](#) **ALLOCATION:** Export Restricted

PAYMENT SECURITY: To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING PROCEDURES: A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the [Pacific Cascade](#) Region Office in [Castle Rock, WA](#). Phone number [360-577-2025](#).

TIMBER EXCISE TAX: Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is [4.2%](#). Taxable Stumpage = Total Delivered Value – (Harvest Cost + Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8849.

Use the following rates for estimating taxable stumpage: Harvest Cost = [Insert harvest cost per mbf](#) for Sorts 2-5, 7, 8, 10, and 11; \$8.00 per ton for Sorts 1, 6, and 9; and \$7.00 per ton for Sort 12.

Haul Cost = (Base Rate) + (Mileage Rate)

Base Rate = \$2.35 per ton

Mileage Rate = \$(mileage rate bid) x (miles) x (tons)

ARRF = \$22.25 per mbf for Sorts 2-5, 7, 8, 10, and 11. ARRF(sort 1, 6) = \$2.75 per ton. ARRF(sort 9) = \$3.27 per ton. There is no ARRF charge for sort 12.

CONFIRMATION: Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion.

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All mbf and tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

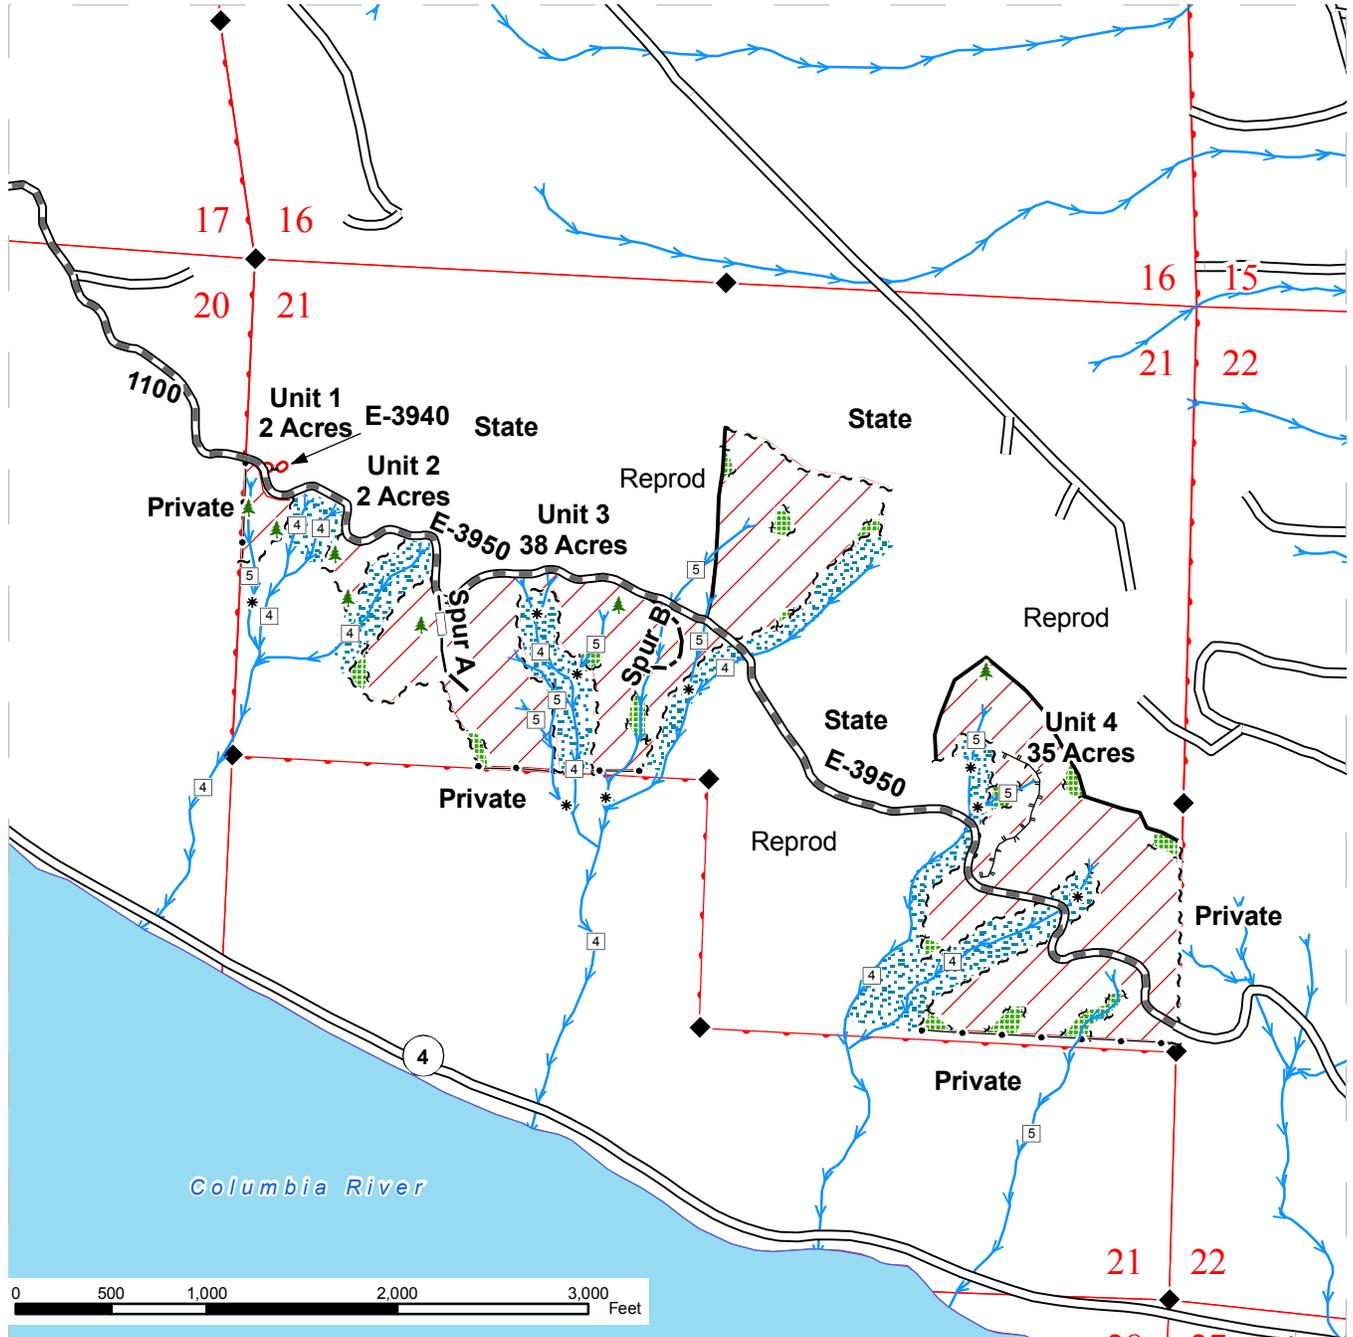

For more information regarding this log sort sale visit our web site:

<http://www.dnr.wa.gov/BusinessPermits/Topics/AppraisalPackets/Pages/Home.aspx> . If you have questions call [Marcus Johns](#) at the [Pacific Cascade](#) Region office at (360) 577-2025 or [Steve Teitzel](#) at the Product Sales and Leasing Division Office in Olympia at (360) 902-1741.

TIMBER NOTICE OF SALE

BIDDING

PROCEDURES:

A separate sealed bid and envelope must be submitted for each log or chip sort. Prospective Purchasers may bid on any or all log and chip sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the Pacific Cascade Region Office in Castle Rock, WA. Phone number (360) 577-2025.

TIMBER EXCISE

TAX:

Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Estimated Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8849.

Use the following rates for estimating taxable stumpage: Harvest Cost = tons(\$25 estimated) for Sorts #1-#4 and bone dry tons (\$70 estimated) for Sort #5. Estimated Haul Cost = (tons)(\$2.35) + (tons)(mileage rate \$/ton)(miles). ARRF = \$22.25

CONFIRMATION:

Each sort is subject to confirmation following auction. Sorts will not be confirmed until at least 10 days after auction. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion.

SPECIAL REMARKS:

The successful Purchaser(s) will be required to purchase logs or chips from the sale area upon delivery to their location specified in the bid submitted. Logs and chips will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs or chips are authorized to be scaled and weighed.

Price Indexing: The price for delivered log sorts is initially set by the rate bid and then recalculated quarterly, by the State, based upon the rate of change to the Western Wood Products Association Lumber Price Index for the applicable species group. The price for delivered utility sorts is initially set by the rate bid and then recalculated quarterly, by the State, based upon the rate of change to the RISI Log Lines Log Price Reporting Service quote for pulp. Total price adjustment resulting from the indexing process as described above shall not exceed 15% above or below the price bid unless otherwise agreed upon by both parties.

For more information regarding this log sort sale visit our web site:

<http://www.dnr.wa.gov/BusinessPermits/Topics/AppraisalPackets/Pages/Home.aspx>. If you have questions call Brian Mize or Ken McNamee at the Southeast Region office at (509) 925-8510.

For All Units: A snow machine may be required to view units before auction. Volumes and grades of all species, except ponderosa pine, were determined with Westside scaling and grading rules. Ponderosa pine volumes and grades were determined with Eastside scaling rules.

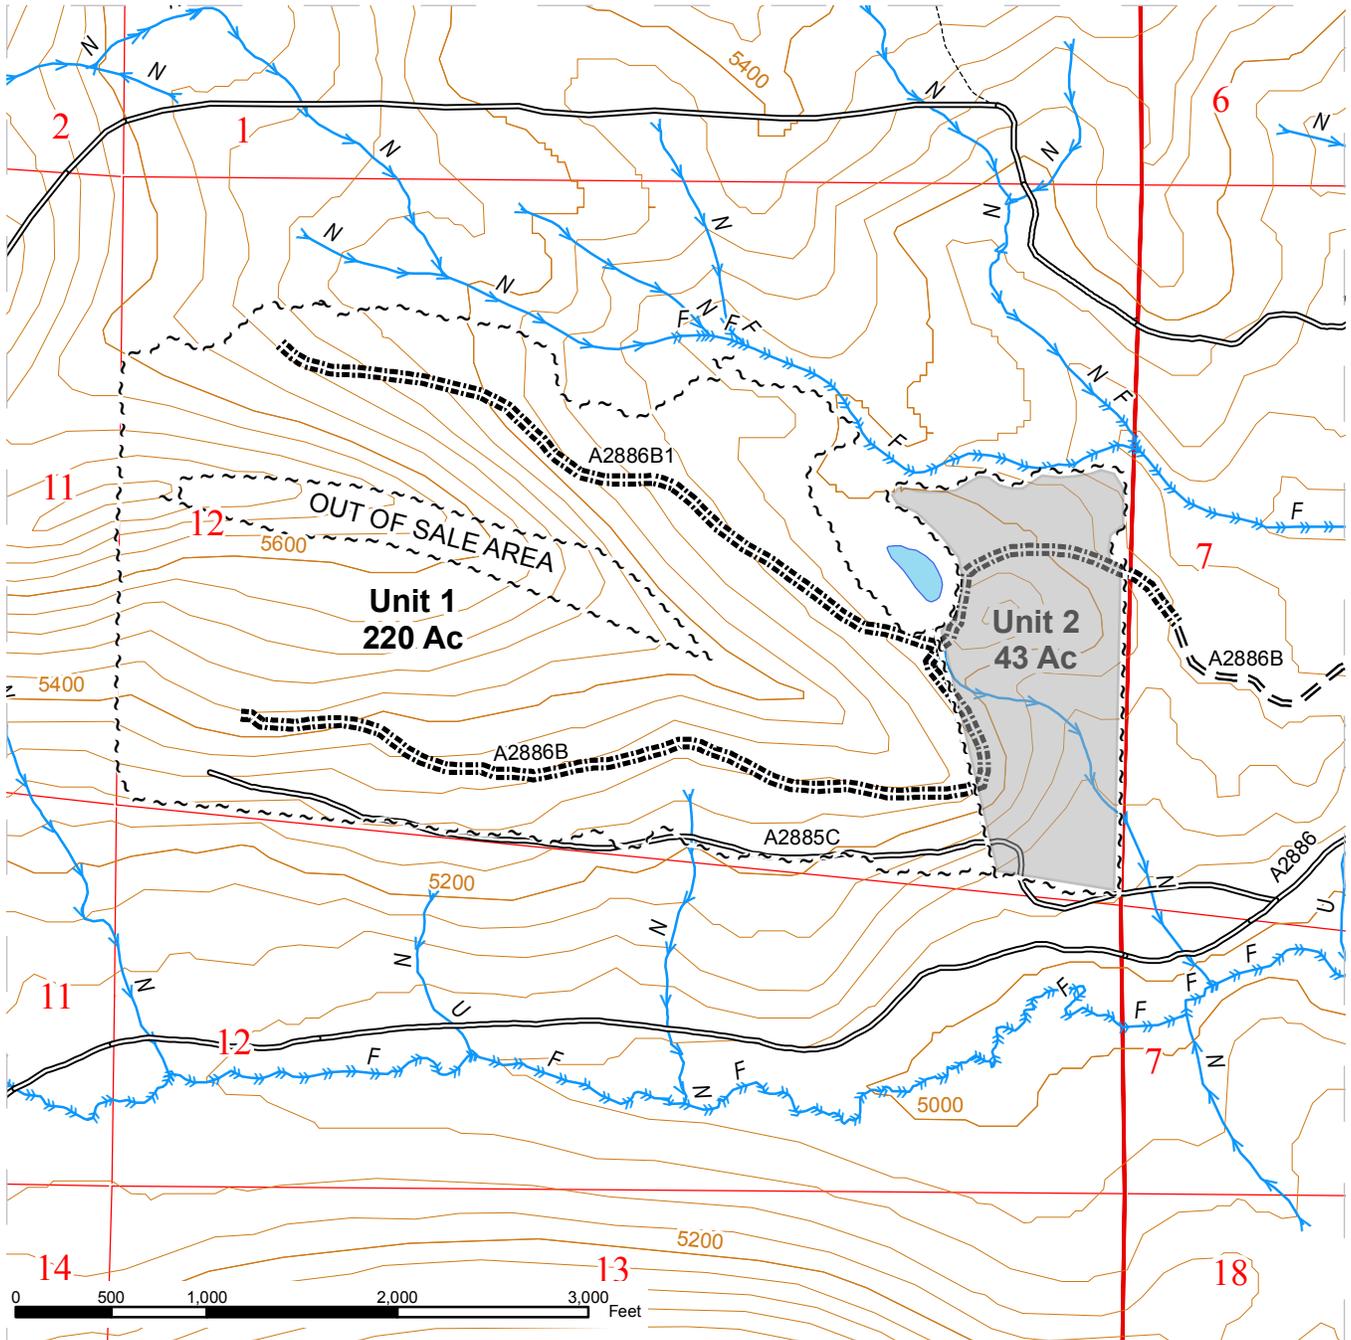

For Units #1, #2, #3, #4, #5, #6, #7, and #8: These units contain 8% of Sort #1; 99% of Sort #2; 10% of Sort #4, and 100% of Sort #5. The successful purchaser of Sort #5 must be able to accept up to 20 chip vans/day. These units were cruised in 2008 and 2009. These units must be harvested first, with deliveries completed by October 31, 2011.

For Units #9, #10, #11, and #12: These units contain 92% of Sort #1; 1% of Sort #2; 100% of Sort #3, and 90% of Sort #4. These units were cruised in 2005. These units must be harvested upon completion of Units #1-#8, and all deliveries completed by February 29, 2012. There is one locked gate to access this area. Contact the Southeast Region Office, (509) 925-8510, for information on how to obtain access.

TIMBER NOTICE OF SALE

SALE NAME: KING EAST

AGREEMENT NO: 30-086365

AUCTION: May 26, 2011 starting at 10:00 a.m., **COUNTY:** Yakima, Klickitat
Pacific Cascade Region Office, Castle Rock, WA

SALE LOCATION: Sale located approximately 5 miles northwest of Glenwood, Washington

PRODUCTS SOLD AND SALE AREA: All standing timber marked with orange paint and bounded by timber sale boundary tags and red flagging in Units 1, 2, and 3; and all grand fir timber NOT marked with red paint and bounded by timber sale boundary tags and red flagging in Unit 4 on part(s) of Sections 6 all in Township 6 North, Range 12 East, Sections 23 and 36 all in Township 7 North, Range 11 East, W.M., containing 468 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg DBH	Ring Count	Total MBF	Total \$/MBF	MBF by Grade									
					1P	2P	3P	SM	1S	2S	3S	4S	UT	
Grand fir	17		1,671	\$289.00						872	652	147		
Douglas fir	19	10	1,003	\$380.00						673	259	71		

Species	Avg DBH	Ring Count	Total MBF	Total \$/MBF	MBF by Grade									
					P	SM	1S	2S	3S	4S	5S	6S	UT	
Ponderosa pine	16		558	\$67.00						254	304			
Sale Total			3,232											

MINIMUM BID: \$289/MBF (est. value \$901,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: October 31, 2012 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Grand fir

BID DEPOSIT: \$90,100.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: All of the timber sale units are ground-based harvests. Falling and Yarding will not be permitted from November 1 to April 30 unless authorized in writing by the Contract Administrator.

ROADS: 57.61 stations of required reconstruction. 191.62 stations of required prehaul maintenance. The hauling of forest products will not be permitted from November 1 to April 30 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were traversed with a Trimble GPS. Unit 1 had 2 acres subtracted from the gross acres for the K2000 mainline road that bisects the unit. Units 1, 2, and 3 were variable plot cruised with a minimum of one plot per acre. Unit 4 was a 20% strip cruise.

TIMBER NOTICE OF SALE

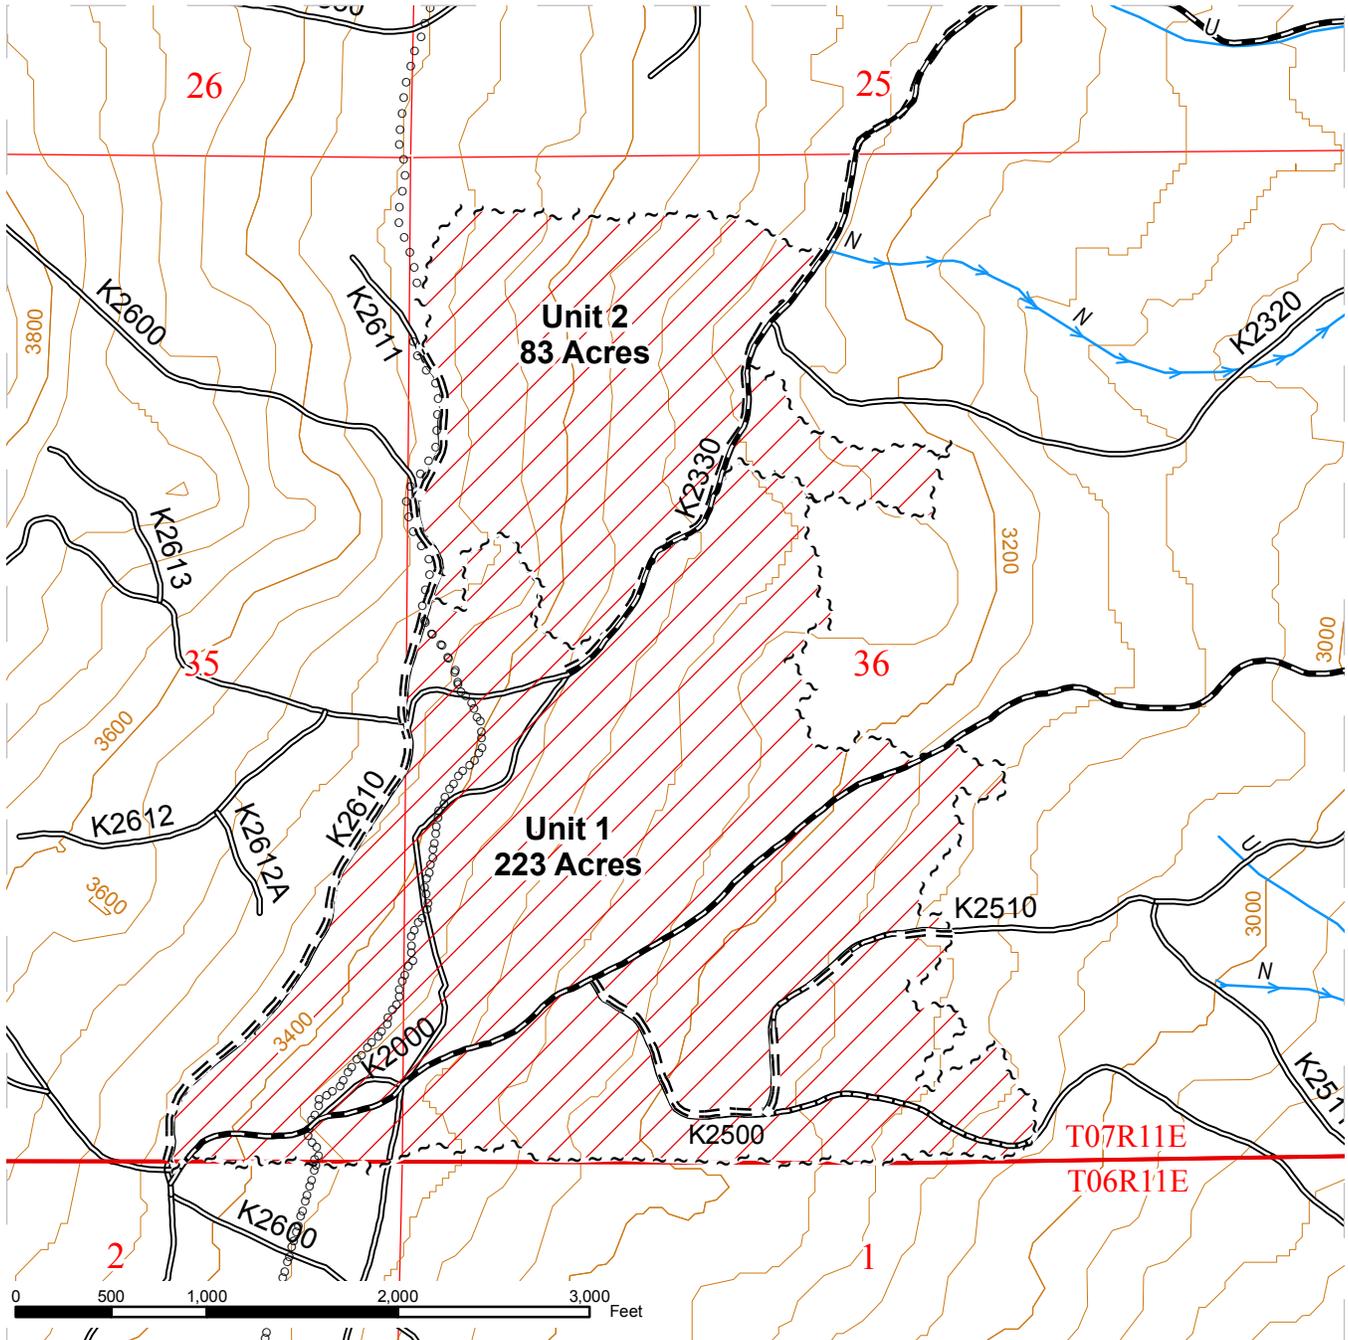

FEES: \$42,810.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Unit 4 is an overstory removal of grand fir only. No other species are included. A buried waterline for cattle runs along the west side of Unit 2 and 4, and through part of Unit 1. Skid trail crossings will be limited to avoid damage, and any damage that does occur must be repaired by the purchaser.

ACREAGE DETERMINATION

TIMBER NOTICE OF SALE

CRUISE METHOD: Acreage determined using GPS methods. Acreage shown above is net harvest acres in harvest units. There are 290 gross acres which includes roads right of ways. All species 7.0 - 17.5 inches dbh cruised to a 5.0 inch dib top. All species 17.6 inches dbh and greater cruised to 40% of dob at 16 feet or to a 6.0 inch dib top, whichever is greater.

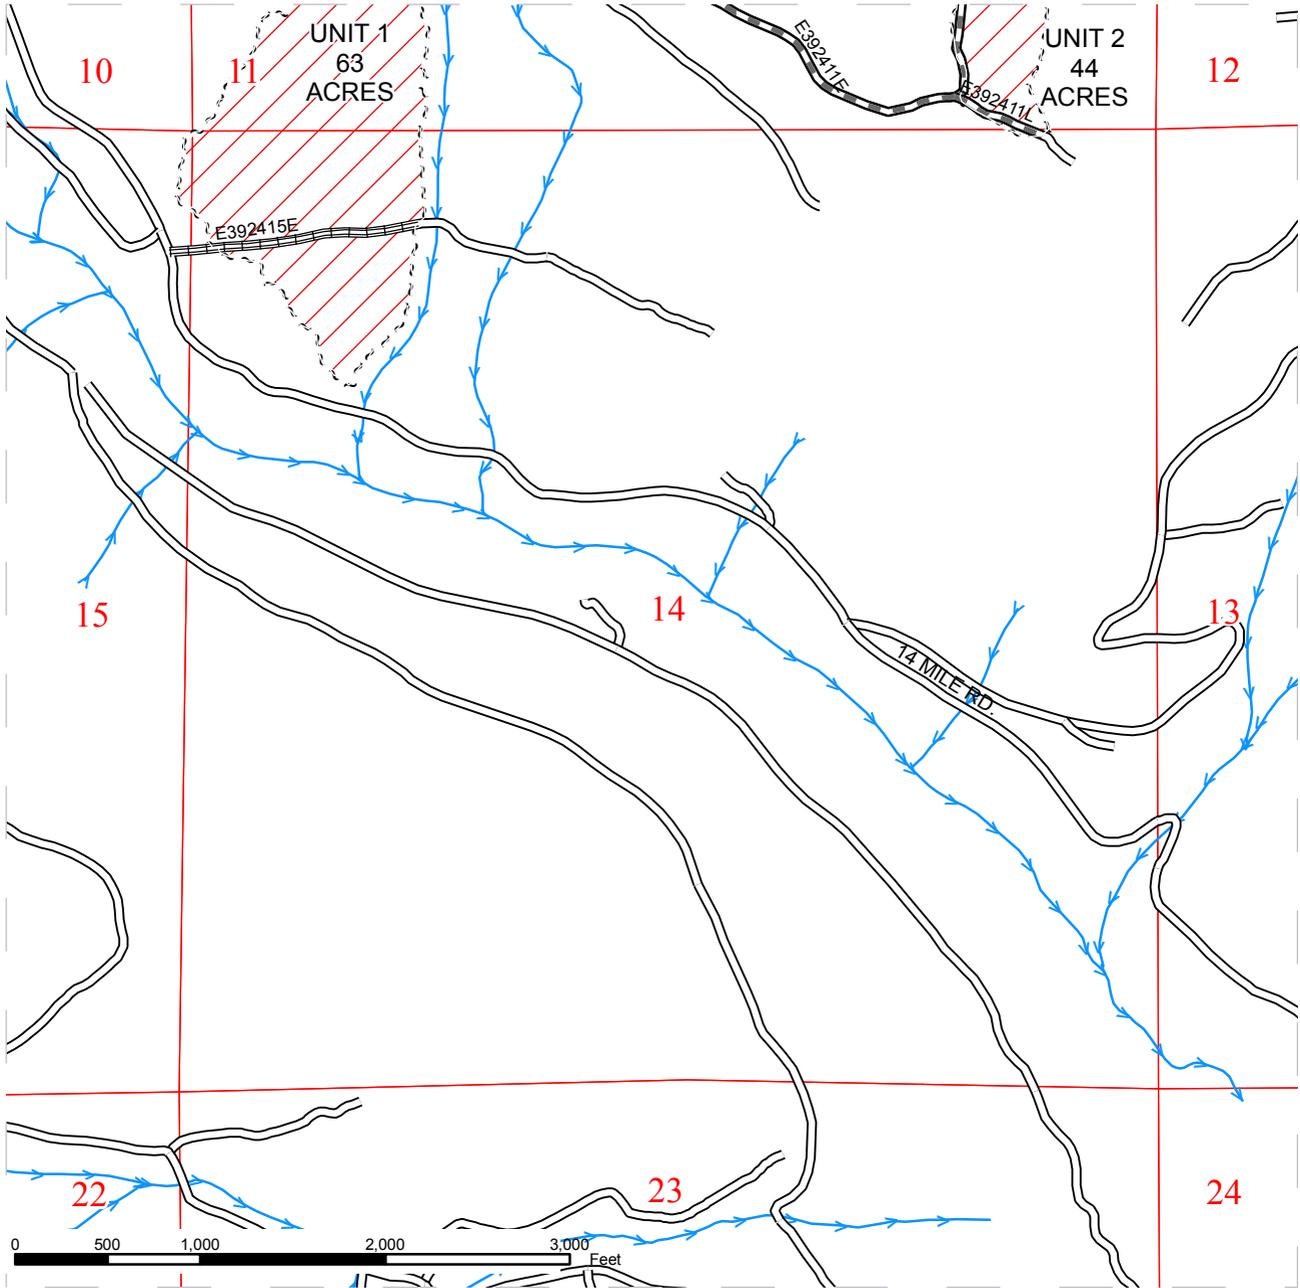

FEES: \$33,600.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Locked gates restrict access to the sale area. Contact the Northeast Region Office at (509) 684-7474 for access. Purchaser's contractor shall thoroughly clean all skidding, falling, and harvesting equipment prior to entry onto State land to remove contaminated soils and noxious weed seed. Equipment shall be cleaned at a location approved by the Contract Administrator. Other documents are available at <http://www.dnr.wa.gov/BusinessPermits/Topics/AppraisalPackets/Pages/Home.aspx>

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative Standard (cert no: BV-SFIS-US09000572)

TIMBER NOTICE OF SALE

BID METHOD: Sealed Bids

UNIT OF MEASURE: Tonnage scale

EXPIRATION DATE: November 30, 2011

ALLOCATION: Export Restricted

PAYMENT

SECURITY: To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING

PROCEDURES:

A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the Northeast Region Office in Colville, WA. Phone number (509) 684-7474.

HARVEST AND

DELIVERY COSTS:

Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Estimated Haul Cost). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8849.

Use the following rates for estimating taxable stumpage: Harvest Cost = tons(\$24.00, for utility \$13.00). Haul Cost = (tons)(\$2.63) + tons(\$0.16x C miles) + tons(\$0.11 x A miles)).

CONFIRMATION:

Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion.

SPECIAL REMARKS:

The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All mbf and tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

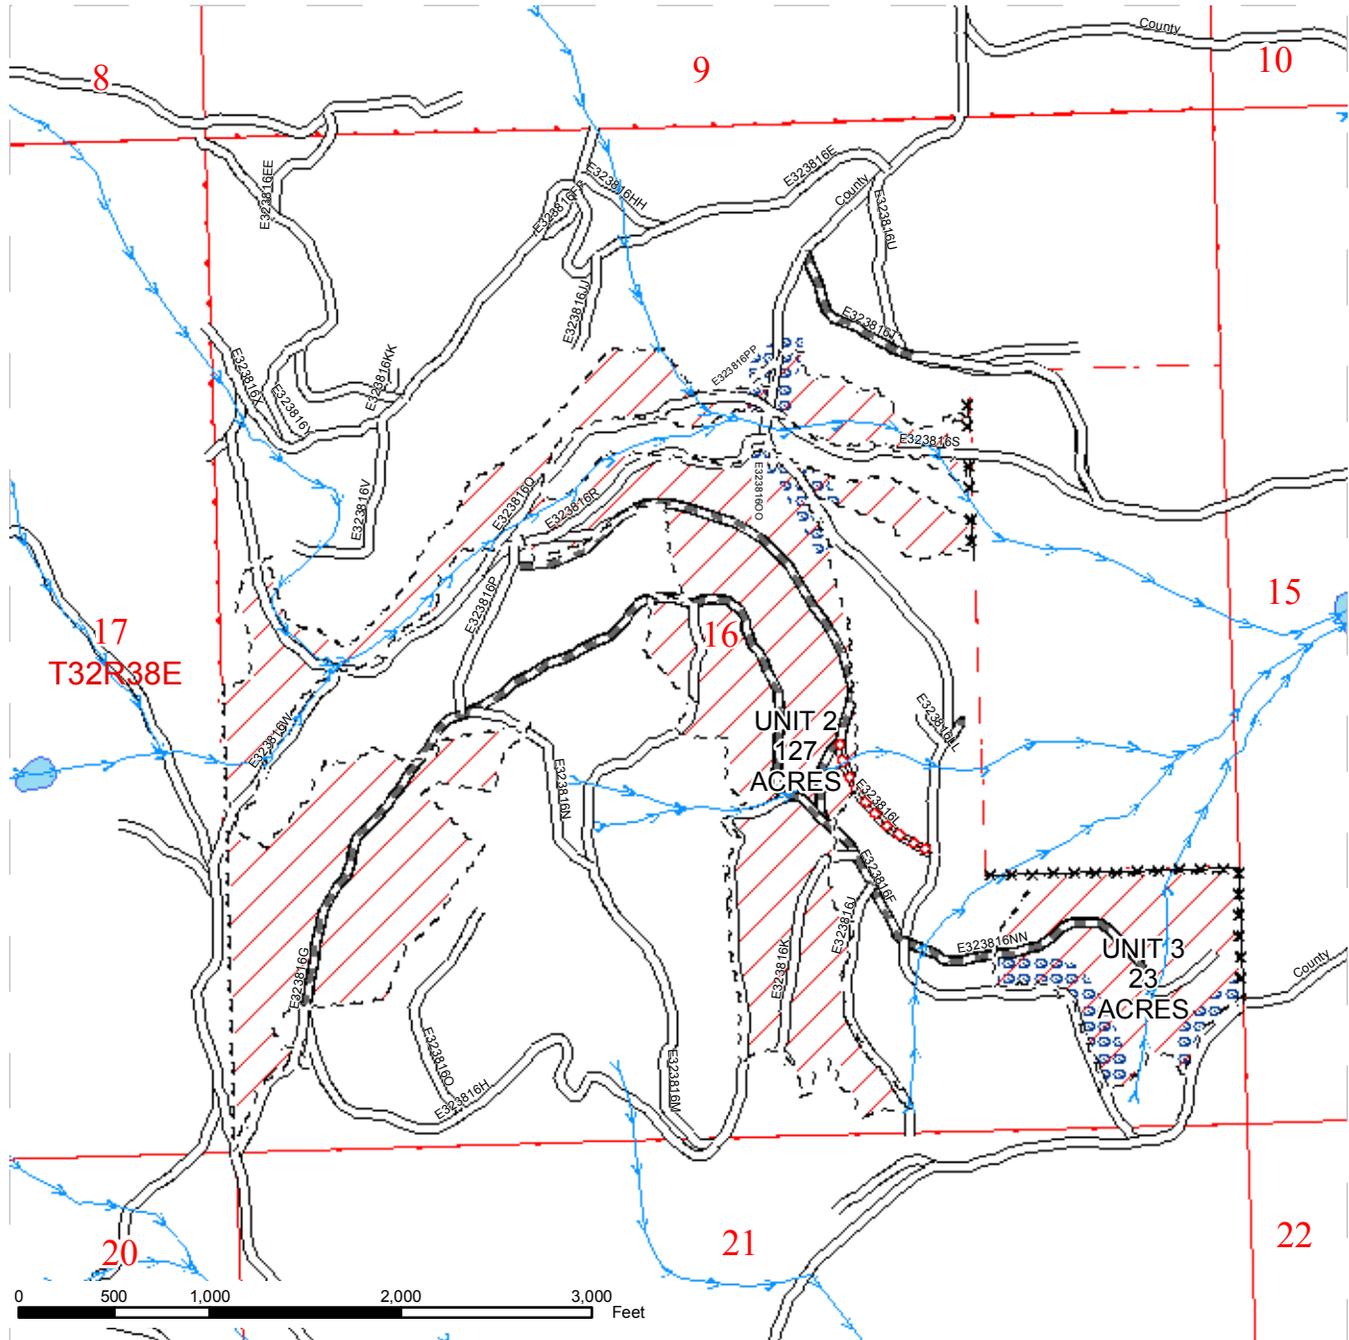

For more information regarding this log sort sale visit our web site:

<http://www.dnr.wa.gov/BusinessPermits/Topics/AppraisalPackets/Pages/Home.aspx>. If you have questions call Bob McKellar at the Northeast Region office at (509) 684-7474 or Steve Teitzel at the Product Sales and Leasing Division Office in Olympia at (360) 902-1741.
