your natural resources ...
now and forever

IMPORTANT NOTICES

Natural Resources (DNR)

Governmental Regulatory Actions or Orders

The purchaser assumes the risk of liabilities related to regulatory actions or orders by any government agency that may affect the operability of these timber sales. Such regulatory actions or orders include, but are not limited to, actions taken pursuant to the State Forest Practices Act, Chapter 76.09 RCW, and the Federal Endangered Species Act, 16 U.S.C. §§ 1531-1544. Please see timber sale contract clauses G-066 and G-220 for further information.

Threatened and Endangered Species

DNR cannot verify the presence or absence of **any** threatened or endangered species that may affect the operability of the timber sale. Purchasers must rely on their own assessments.

Export Restricted

All timber purchased under these state DNR contracts shall not be exported outside of the United States until the timber has been processed. Purchasers shall not violate any of the prohibitions in WAC 240-15-015 (relating to the prohibitions on export and substitution), WAC 240-15-025 (relating to reporting requirements), and WAC 240-15-030 (relating to enforcement). If purchasers knowingly violate WAC 240-15-015, purchasers shall be barred from bidding on or purchasing export restricted timber as provided.

Cover photos

Timber Sales in this book are from state trust lands, managed to help build K-12 public schools, state universities, colleges, prisons, mental hospitals, the state Capitol; and to support local services in many counties.

Top left: State Forest Lands are managed to provide revenue to the counties in which they are located such as the Pacific County Courthouse in South Bend, Washington. Northwest Bridge Company of Portland, Oregon completed construction of the courthouse building in June of 1911. One unusual feature of the historic building is an "art glass dome" that crowns the structure. The courthouse is listed on the National Register of Historic Places.

Certification Opportunities for DNR Timber Purchasers

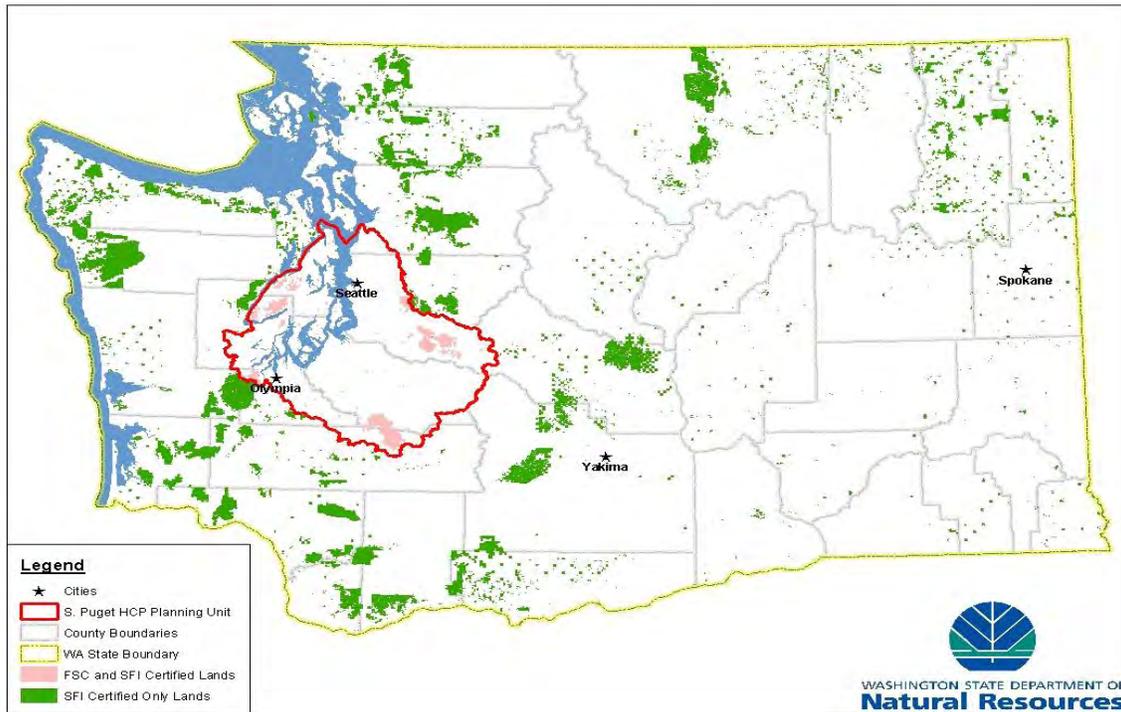

Certified forests are grown to an approved set of standards which demonstrate environmentally responsible, socially beneficial, and economically viable management practices that promote responsible forestry. This unique commitment to responsible forestry recognizes that forest landowners play a critical role in ensuring the long-term health and sustainability of our forests.

Forest Stewardship Council™ (FSC®) is an independent, non-profit organization that promotes responsible management of the world's working forests through the development of forest management standards, a voluntary certification system, and trademarks that provide recognition and value to products bearing the FSC label in the marketplace. FSC standards ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way.

Sustainable Forestry Initiative, Inc. is an independent non-profit organization internationally endorsed and accepted around the world. The *Sustainable Forestry Initiative® (SFI®)* program is based on the premise that responsible environmental behavior and sound business decisions can co-exist. Its three-chamber Board of Directors governs all aspects of the SFI program, with equal representation from the environmental, economic and social sectors.

Currently, all Department of Natural Resources (DNR)-managed forested state trust lands in Washington State are certified under the 2010-2014 SFI program Standard. Lands within DNR's South Puget Habitat Conservation Plan Planning Unit, located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties, are dually certified under the FSC-US Forest Management Standard (v1.0) in addition to the 2010-2014 SFI program Standard; making that area certified under both standards.

Certification under each standard involves an inspection audit of the landowner's forest management activities by an independent third-party accredited team to verify that it meets specified forest management principles. If the forest unit complies with the specific standard, the landowner receives a certificate of conformance ensuring that responsible forestry is being practiced. Both standards encourage integration of perpetual growing and harvesting of trees with strong measures to protect wildlife, plants, soil, water, and air quality. Both standards provide a seal of approval that forests certified under these principles are well-managed. The global marketplace recognizes and endorses multiple forest certification standards. Each standard has individual market niches. By being dually certified, DNR can maximize its customer base and provide choices to the consumer.

DNR's FSC certificate number is: BV-FM / COC-080501

DNR's SFI certificate number is: BV-SFIS-US09000572

DNR-managed forested state trust lands within the South Puget Habitat Conservation Plan Planning Unit (located within parts of King, Pierce, Thurston, Lewis, Kitsap, and Mason counties) are certified as being in compliance with the Forest Stewardship Council Pacific Coast Regional Standard. This makes DNR's SP Planning Unit dually certified under both the FSC and SFI program Standards.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the FSC Program, visit www.fscus.org.

To learn more about DNR timber sales certified under the FSC Standard, visit www.dnr.wa.gov.

FSC A.C. owns all right, title, and interest in and to the Forest Stewardship Council trademarks.

All DNR-managed forested state trust lands across the state have been certified as being in compliance with the 2010-2014 Sustainable Forestry Initiative program Standard.

To learn more about chain-of-custody and demonstrating that your timber is derived from a responsibly managed forest and/or desires of becoming a "program participant" in the SFI program, visit www.sfiprogram.org.

To learn more about DNR timber sales certified under the SFI program Standard, visit www.dnr.wa.gov.

Sustainable Forestry Initiative® and SFI® word marks and logo marks used are registered marks owned by Sustainable Forestry Initiative Inc.

Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. ***The merchantability of the forest products.*** The use of the term "merchantable" in any document is not intended to vary the foregoing.
- b. ***The condition of the forest products.*** All forest products will be conveyed "AS IS."
- c. ***The acreage contained within any sale area.*** Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. ***The volume, quality, or grade of the forest products.*** The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. ***The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.*** These documents have been prepared for the State's appraisal purposes only.
- f. ***That the sale area is free from threatened or endangered species, or their habitat.*** The State is not responsible for any interferences with forestry operations that result from the presence of any

threatened or endangered species, or the presence of their habitat, within the sale area.

g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.

h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.

B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA).

C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.

D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.

E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.

F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.

G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map,

sale preview packets and that in the timber sale contract, the **signed contract will prevail**.

H. Purchasers must pay the Forest Excise Tax on the bid price, permanent road construction costs, and other considerations. The tax rate is 5% without the EARR credit and 4.2% with the credit. For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

I. **Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security** specified on each Notice of Sale. **The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation.** Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.

J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.

K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

Bidding Process

A. All timber will be auctioned using the sealed bid method.

B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.

C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.

D. All bids must include the completed Sealed Bid Form and bid deposit.

E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number). Sales added after the book is printed will be inserted to retain this order. Sort sales may be auctioned out of this sequence at the State's convince.

F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.

G. For sales offered on a stumpage basis, the apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced. **This option is not available for sales offered on a delivered basis.**

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

- A. Required bid deposits are listed on each Timber Notice of Sale.
- B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
- C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
- D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**

Timber Sale Per Sale Bid Bonds

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per Sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Regional Office and Nisqually Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m., on the day of the auction.**
- D. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- E. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashiers' check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashiers' check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements)
- Licensed to do business in the State of Washington
- Eligible to bid on Export Restricted timber
- Authorized to submit bids

Authorized Representatives

Company officers or company authorized representatives may bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources, Rtqf wev'Ucrgu and Ngculpi Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

TIMBER NOTICE OF SALE

SALE NAME: *TARBELL*

AGREEMENT NO: *30-089101*

AUCTION: May 30, 2013 starting at 10:00 a.m., **COUNTY:** Clark
Pacific Cascade Region Office, Castle Rock, WA

SALE LOCATION: Sale located approximately 19 miles east of Battle Ground, Washington.

**PRODUCTS SOLD
AND SALE AREA:**

All timber, except leave trees bounded by yellow Leave Tree Area tags, leave trees marked with blue paint, down timber existing 3 years prior to day of sale, down timber greater than 36 inches DBH, and snags, bounded by the following: white Timber Sale Boundary tags, reprod, the L-1100 road, and the property line marked with carsonite posts and pink flagging in Unit 1; white Timber Sale Boundary tags, blue Special Management Area tags, reprod, the L-1100, L-1210 and L-1215 roads and the property line marked with carsonite posts and pink flagging in Unit 2; white Timber Sale Boundary tags, the L-1100-2 Pit marked with pink flagging, the property line marked with carsonite posts and pink flagging, and the L-1100 road in Unit 3: All timber marked with a single band of orange paint bounded by the following: white Timber Sale Boundary tags and blue Special Management Area tags in Units 4, 5 & 6 on part(s) of Sections 28, 33, 35, and 35 all in Township 04 North, Range 04 East, W.M., containing 92 acres, more or less. on part(s) of Sections 28, 33, 34 and 35 all in Township 4 North, Range 4 East, W.M., containing 92 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative® program Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg DBH	Ring Count	Total MBF	MBF by Grade								
				1P	2P	3P	SM	1S	2S	3S	4S	UT
Douglas fir	20.8	7	3,344				202		2,398	588	156	
Red alder	12.1		8									8
Sale Total			3,352									

MINIMUM BID: \$1,054,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2014 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$105,400.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Forwarder, Shovel and Track skidder. Harvesting activities are estimated to be 100% ground based harvesting. Ground based harvesting equipment shall be restricted to slopes of 40% and less, and only occur during dry soil conditions. Within Units 4, 5 & 6 all persons involved in the manual or mechanical felling of timber, including fallers and operators, must have in their possession a copy of the Cutting Card for Riparian Forest Restoration Strategy and Wetland Management Zone Thinning during periods of active felling and/or yarding operations. See Schedule A for RMZ and WMZ thinning prescription specifications; and Clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator.

TIMBER NOTICE OF SALE

ROADS: 11.04 stations of optional construction. 125.65 stations of required pre-haul maintenance. 20.69 stations of light abandonment. Rock for construction and/or pre-haul maintenance under this contract may be obtained at no cost to the Purchaser from the L-1217 Pit located in Section 02, Township 03 North, Range 04 East, W.M. and/or from the L-1100-2 Pit located in Section 28, Township 04 North, Range 04 East, W.M. Rock for construction and/or pre-haul maintenance under this contract may be obtained at no cost to the Purchaser from the existing L-1100 Stockpile located on the L-1100 road at station 158+40. Purchaser shall remove no more than 530 cubic yards of 2 I/2 INCH MINUS CRUSHED rock from this stockpile. Any damage to any road resulting from any harvest operations will be repaired at the Purchasers expense unless authorized by the Contract Administrator. Road construction will not be permitted from September 1 to May 1 unless authorized in writing by the Contract Administrator. This construction restriction applies to all road construction, pre-haul maintenance, and abandonment activities.

ACREAGE DETERMINATION

CRUISE METHOD: Acreages were determined using GPS. Units were cruised using a variable plot method. Within the RMZ and WMZ thinning units, only the take trees were cruised.

FEES: \$44,560.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: See driving maps for gate locations. Gate keys may be obtained from the region office. The sale contains an estimated 493 MBF DF mini-peel or better quality timber. No harvest activities shall occur over the Tarbell Trail, and the trail shall be left in a usable condition, on weekends and State recognized holidays within Units 2 & 6. Purchaser is responsible for posting, closing, and providing a watch man during harvest operations. Purchaser shall repair all logging damage to the Tarbell Trail to pre-logging conditions within 15 days following the completion of logging operations in each unit. Road construction is in close proximity to buried and elevated utilities. Purchaser is responsible for all notifications and liabilities associated with buried utilities, elevated utilities and its right-of-way. In Units 1 & 2, Extreme Hazard Abatement will be required adjacent to the L-1100 road to meet the requirements of WAC 332-24. Frequent target shooting practice occurs adjacent to Unit 1, displaying work signage is recommended.

MINIMUM BID: \$34.7/ton (est. value \$542,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Tonnage Scale

EXPIRATION DATE: October 31, 2014 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$54,200.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable, Shovel, Forwarder and Track skidder. Harvesting activities are estimated to be 70% ground-based and 30% cable systems. Ground-based harvesting equipment shall be restricted to slopes of 40% and less. See clause H-140 and Schedules A and L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator. Intermediate support may be required to prevent soil rutting in Unit 3 off the A-0158 road. Ground Based Yarding will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ROADS: 29.07 stations of optional construction. 57.20 stations of optional reconstruction. 135.05 stations of pre-haul maintenance. 6.45 stations of deactivation and 9.68 stations of light

TIMBER NOTICE OF SALE

abandonment. Rock for construction, reconstruction and pre-haul maintenance under this contract may be obtained at no cost to the Purchaser from the State's Porter Canyon Stockpile located in Section 11, Township 18 North, Range 04 West, W.M.

Hauling will be suspended when wheel track rutting exceeds 6 inches unless authority to do so is granted, in writing, by the Contract Administrator. Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator. The hauling of forest products will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator on the A-0100 Road

ACREAGE DETERMINATION

CRUISE METHOD: The sale unit acres were determined by GPS. The daylighting area acreages were determined by GPS length X 30 feet wide. The units and right-of-ways were cruised using a variable plot cruise method. The daylighting areas were 100% cruised.

FEES: \$29,630.00 is due on day of sale. \$1.29 per ton is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: No operations shall occur within Unit 2 (South of the B-Line) and Unit 3 (Northwest of the A-0100 Road) on any weekends, State recognized holidays, or from 7 p.m. to 7 a.m. on weekdays.

MINIMUM BID: \$240/MBF (est. value \$286,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$35,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: October 31, 2014 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$28,600.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

TIMBER NOTICE OF SALE

HARVEST METHOD: Cable and tracked ground based equipment with tracked ground based equipment limited to sustained slopes 45 percent and less, except feller bunchers which are limited to sustained slopes 35 percent and less. It is estimated that 35 percent of this proposal is cable yarding. Yarding may be restricted during wet weather if rutting becomes excessive in the opinion of the Contract Administrator.

Falling, yarding and timber haul will not be permitted on weekends or state recognized holidays, unless approved in writing by the Contract Administrator.

ROADS: 2.06 stations of optional construction. 15.36 stations of optional reconstruction. 201.27 stations of required pre-haul maintenance. 475.27 stations of required post-haul maintenance. 13.17 stations of abandonment, if constructed or reconstructed. Purchaser maintenance on the Goat Trail and West Smay Roads and Spurs 1, 2, 3 and 4. Designated maintenance on all other roads used.

Road construction and rock haul will not be permitted on weekends or state recognized holidays, unless approved in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: Acreage was determined by traversing boundaries by GPS. Traverse GPS data files are available upon request by emailing audrey.mainwaring@dnr.wa.gov or calling Audrey Mainwaring at (360) 802-7001. Units #1, #2, #5 and #6 were cruised using a variable plot sample with a BAF of 46.9 on a 264x264 foot grid. Units #3 and #4 were cruised using a variable plot sample with a BAF of 46.9 on a 99x99 foot grid.

FEES: \$16,735.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: This timber sale is a combination of a Variable Retention Harvest (VRH) and a Variable Density Thinning (VDT). Units #1, #3, #5 and #6 are a VRH and have all leave trees marked with blue paint or bounded out by yellow leave tree area tags. Units #2 and #4 are a VDT and will be harvested by prescription as described in Schedules C, D and E, which are part of the contract.

This sale contains high quality Douglas fir.

Within Units #1, #3, #5 and #6 the Purchaser shall pull vine maple and leave roots exposed and detached from the soil in the ground based harvest area and cut vine maple and sever from the stump in the cable harvest area.

To access this timber sale you must go through the City of Tacoma's gate at mile marker 2.2 on the Headworks Road. All entrants must check in and out with the gate attendant at the Headworks Gate, show a copy of the timber sale prospectus, show valid drivers license and proof of insurance. The use of a CB is required while on the watershed mainline. A copy of the MOU between the State and City of Tacoma referenced in clause G-400 is available upon request from the South Puget Sound Region office.

Haul may be interrupted or delayed from July 1, 2013 to September 30, 2013 on the 5500 Road for the replacement of a fish barrier and installation of a bridge and on the Goat Trail Road for the installation of a fish culvert. Each project is expected to last approximately two weeks.

Bonneville Power Administration (BPA) lines are in close proximity to this proposal. BPA guidelines for working around BPA powerlines will be covered during the pre-work and must be adhered to for operations near powerlines.

TIMBER NOTICE OF SALE

Purchaser assumes responsibility for any county road use permits and for all costs associated with permits and extra maintenance or repair levied by a county for any county road used by the Purchaser.

A HPA has been obtained for suspending cables across Type 3 streams and for felling and placement of trees for downed wood into streams.

Sale Total			1,693										

MINIMUM BID: \$336,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$75,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: October 31, 2014 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$33,600.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and ground based equipment with ground based equipment limited to sustained slopes that are 40 percent and less. Yarding may be restricted during wet weather if rutting becomes excessive in the opinion of the Contract Administrator, per clause H-017.

Falling, yarding and timber haul will not be permitted from November 1 to April 30, nor on weekends or state recognized holidays, unless authority to do so is granted, in writing, by the Contract Administrator. If permission is granted to operate from November 1 to April 30, the Purchaser shall be required to provide a "Winter Operating Plan" to include further protection of water, soil, roads and other forest assets at the Purchaser's expense. The "Winter Operating Plan" must be approved in writing by the Contract Administrator.

In addition to the above restrictions, falling and yarding will also not be permitted weekdays from 7:00 pm to 7:00 am.

ROADS: 36.54 stations of required construction. 14.87 stations of optional construction. 25.27 stations of required pre-haul maintenance. Purchaser maintenance on the GM-1, GM-3,

TIMBER NOTICE OF SALE

GM-8, GM-85, GM-851, G-1000, G-1400 and G-1410 Roads and Spurs 1, 2, 3, 4 and 5. Designated maintenance on all other roads used.

Road construction and rock haul will not be permitted from November 1 to April 30, nor on weekends or state recognized holidays, unless authority to do so is granted, in writing, by the Contract Administrator. If permission is granted to operate from November 1 to April 30, the Purchaser shall be required to provide a "Winter Operating Plan" to include further protection of water, soil, roads and other forest assets at the Purchaser's expense. The "Winter Operating Plan" must be approved in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: Acreage was determined by traversing boundaries by Garmin 60CSX GPS. Traverse GPS data files area available upon request by emailing audrey.mainwaring@dnr.wa.gov or calling Audrey Mainwaring at (360) 802-7001. Unit #1 was cruised using a variable plot sample with a BAF of 40 on a 264x264 foot grid. The right of way was cruised using a variable plot sample with a BAF of 40, 310 feet along the centerline.

FEES: \$22,432.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Road construction may require blasting.

Tower yarding may require intermediate supports.

Type 5 streams within the harvest unit will be protected with 30 foot equipment limitation zones with crossings allowed, per contract clause H-140 d).

There is a limited supply of borrow available at the Golden Select Borrow Source. Rock and additional fill can be obtained from the Horse Camp Pit or the Card Pit. The Card Pit is to be developed under the King Anderson Timber Sale, which is scheduled to auction March 26, 2013.

Underground utilities exist along the G-1000 and G-1200 Roads.

Debris will not be piled on the G-1410 Road past station 5+17.

See map for gate locations. Gate keys may be obtained by contacting the South Puget Sound Region Office at (360) 825-1631 or by contacting Dave Denis at (253) 381-2015.

A HPA has been obtained for suspending cables over Type 3 streams.

BID DEPOSIT: \$135,500.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable equipment with a slack pulling carriage and ground based equipment are allowed with ground based equipment limited to sustained slopes that are 45 percent and less. Intermediate supports may be required to achieve lead-end suspension within Units #1 and #2. Rubber tired equipment or alternative equipment approved by the Contract Administrator is required to avoid damage to the existing road surface within R/W 3

TIMBER NOTICE OF SALE

(daylighting and curve widening). Yarding may be restricted during wet weather if rutting becomes excessive in the opinion of the Contract Administrator.

Timber haul will not be permitted from November 1 to May 31, nor on weekends or state recognized holidays unless authority to do so is granted in writing by the Contract Administrator. If permission is granted to operate from November 1 to May 31, the Purchaser shall be required to provide a "Winter Operating Plan" to include further protection of water, soil, roads and other forest assets at the Purchaser's expense. The "Winter Operating Plan" must be approved in writing by the Contract Administrator prior to commencing any winter operations.

ROADS:

6.84 stations of required construction. 69.98 stations of required reconstruction. 63.69 stations of optional construction. 623.21 stations of required pre-haul maintenance. 684.55 stations of required post-haul maintenance. 16.33 stations of abandonment, if constructed. Cross section designs are available at the Sound Puget Sound Region office upon request. Purchaser maintenance on the 17-2, 17-2-1, 17-2-11, 17-2-12, 18 and 18 Ext. Roads. Designated maintenance on all other roads used.

Road construction and rock haul will not be permitted from November 1 to May 31, nor on weekends or state recognized holidays unless authority to do so is granted in writing by the Contract Administrator. If permission is granted to operate from November 1 to May 31, the Purchaser shall be required to provide a "Winter Operating Plan" to include further protection of water, soil, roads and other forest assets at the Purchaser's expense. The "Winter Operating Plan" must be approved in writing by the Contract Administrator prior to commencing any winter operations.

ACREAGE DETERMINATION

CRUISE METHOD: Units #1, #2, #3, #4, R/W 01, R/W 02, R/W 04 and R/W 05 acreage was determined by traversing boundaries by GPS/Photo. R/W 03 acreage was determined by using the length of the road. Traverse GPS data files are available upon request by emailing audrey.mainwaring@dnr.wa.gov or calling Audrey Mainwaring at (360) 802-7001. See cruise narrative for cruise method.

FEES:

\$73,869.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: Unit #4 is a required rock pit expansion, removing all trees within the flagged boundary.

Due to future planned activities, some associated roadwork is required to be completed by September 18, 2013 unless otherwise approved by the Contract Administrator. See Road Plan clause 1-20 for the list of roads required to be completed in this timeframe.

No operations will be permitted between December 1 and March 31 unless approved in writing by the Contract Administrator. This is to protect the heavily used winter recreation facilities. The only foreseeable exception to this closure would be an unseasonably low snow pack with frozen ground or operations in a location which would not affect recreation activities.

Right of way #3 contains 7 miles of daylighting and curve widening. Trees marked with an orange dot shall be cut and removed. Any tree or stump marked with a red dot near ground level shall have stumps removed. All stumps removed as part of this timber sale must be done prior to any pre-haul maintenance work.

In addition to the above restrictions, wildlife timing restrictions will be in effect for falling, yarding and operation of heavy equipment within the wildlife timing restriction

TIMBER NOTICE OF SALE

area as shown on the timber sale map. Falling, yarding and operation of heavy equipment will not be permitted from 1 hour before sunrise to 2 hours after sunrise and 1 hour before sunset to 1 hour after sunset from April 1 to August 31.

There are restrictions using cable tailhold trees outside of the timber sale boundary in Unit #1 due to wildlife restrictions. The Purchaser must work with the Contract Administrator to locate approved tailhold trees outside of the unit boundary if sufficient suspension cannot be obtained by rigging within the unit boundary.

Cable profiles extrapolated from LiDAR have been run on some proposed cable corridors. Intermediate supports and hanging high in the tailhold tree may be needed to obtain sufficient suspension on some settings within Unit #1. The cable profile information is available upon request by contacting Kristie Fryberger at (360) 802-7013.

A draft Road Use Permit (RUP) has been obtained if hauling on the United States Forest Service (USFS) 85 Road. For additional information contact Kristie Fryberger at (360) 802-7013 or by emailing kristie.fryberger@dnr.wa.gov.

Purchaser must provide a written Extreme Hazard Abatement Plan, which meets the requirements of WAC 332-24, per contract clauses H-140 F), S-020 and S-030.

See map for gate locations. Gate keys may be obtained by contacting the South Puget Sound Region office at (360) 825-1631 or by contacting Roslyn Henricks at (360) 918-3219.

Sale Total			2,475									

MINIMUM BID: \$714,000.00 **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY: \$100,000.00 **SALE TYPE:** Lump Sum

EXPIRATION DATE: September 30, 2014 **ALLOCATION:** Export Restricted

BID DEPOSIT: \$71,400.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 35% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 4.76 stations of required reconstruction. 54.50 stations of optional construction. 55.58 stations of existing road to be abandoned. 54.50 stations of road to be abandoned if built.

TIMBER NOTICE OF SALE

Development of an existing hardrock source (Christie Hard Rock Pit) at station 180+23 of the CT-ML Road will involve drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast rock.

Development of an existing hardrock source (CT-51 Hard Rock Pit) at station 268+72 of the CT-ML Road will involve drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast rock.

An estimated total quantity of rock needed for this proposal: 410 cubic yards of riprap and 4,097 cubic yards of ballast rock. This rock is available at no cost on State land.

Reconstruction of the CT-ML Road will involve replacement of an existing log stringer bridge at station 313+50 with a new temporary log stringer bridge and replacement of a log stringer bridge at 297+10 with a permanent steel modular bridge moved from station 315+00.

Acquisition of 3/4-inch-minus crushed rock from a commercial rock source for use on the bridge deck and as a leveling course for the precast concrete footings.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 46.1 acres gross. 2.0 acres deducted for green tree retention clumps. 44.1 acres net. Cruised using variable plot method. Expansion factor used is 54.45. Sighting height is 4.5 feet. A total of 32 plots were taken.

FEES: \$32,793.75 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: HQ DF noted within the sale area. See cruise for further details (approximately 224 mbf of the above listed DF 2S is deemed high quality by the Department).

The Department has identified log stringer material in Unit #1.

SALE NAME: *STILLY HEADWATER VDT AND VRH*

AGREEMENT NO: *30-088873*

AUCTION: May 29, 2013 starting at 10:00 a.m.,
Northwest Region Office, Sedro Woolley, WA

COUNTY: Skagit

SALE LOCATION: Sale located approximately 9 miles north of Darrington, WA.

**PRODUCTS SOLD
AND SALE AREA:**

All timber as described for removal in Schedule B bounded by white timber sale boundary tags and property lines in Unit #1.

All timber bounded by white timber sale boundary tags, property lines, blue special management tags and the NM-ML Road, except trees marked with blue paint on the bole and root collar, forest products tagged out by yellow leave tree area tags, forest products tagged out by blue special management tags and cedar snags, preexisting dead and down cedar trees and cedar logs in Unit #2.

All timber (including trees with both a blue special management tag AND marked with orange paint) as described for removal in Schedule B located in the RMZ thinning areas (beyond blue special management tags up to the white timber sale boundary tags) within Unit #2.

All timber as described for removal in Schedule B bounded by white timber sale boundary tags and blue special management tags in Unit #3.

All timber bounded by orange right of way tags, except that title to the timber within the right of way tags is not conveyed to the Purchaser unless the road segment is actually constructed.

The above described products on part(s) of Sections 26, 34 and 35 all in Township 33 North, Range 9 East, W.M., containing 312 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative® program Standard (cert no: BV-SFIS-US09000572)

Sale Total			4,654	39,464										

MINIMUM BID: \$6.4/ton (est. value \$451,000.00)

BID METHOD: Sealed Bids

PERFORMANCE SECURITY: \$90,200.00

SALE TYPE: Tonnage Scale

EXPIRATION DATE: September 30, 2015

ALLOCATION: Export Restricted

TIMBER NOTICE OF SALE

BIDDABLE SPECIES: Silver fir, Noble fir, Hemlock

BID DEPOSIT: \$45,100.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on sustained slopes 35% or less.

1. BARK SLIPPAGE: Cutting and yarding within the Variable Density Thinning areas will not be permitted during the bark slippage season, unless authorized in writing by the Contract Administrator. This season is estimated to run from April 1 to July 15, but will vary dependent on weather conditions. If permission is granted to operate during the bark slippage season, the Purchaser will be required to provide a plan outlining mitigation measures.

2. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS: 39.43 stations of required construction. 137.33 stations of required reconstruction. 65.07 stations of optional construction. 63.08 stations of optional reconstruction. 57.68 stations of existing road to be abandoned. 65.07 stations of road to be abandoned if built.

Development of a proposed hardrock source (NM-7707 Hardrock Pit) at station 35+24 of the NM-77 road. Development will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

Development of a proposed hardrock source (NM-104 Hardrock Pit) at station 550+90 of the NM-ML road. Development will involve clearing, stripping, drilling, shooting, and processing rock to generate riprap and 3-inch-minus ballast. This rock is available at no cost on State land.

Acquisition of 1¼-inch-minus crushed surfacing from a commercial rock source.

An estimated total quantity of rock needed for this proposal: 516 cubic yards of riprap, 12,961 cubic yards of ballast rock, 800 cubic yards of surfacing rock.

Road construction, road reconstruction, road abandonment, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 312.1 acres net. Cruised using variable plot method. Units #1 and #3 are thinning, Unit #2 is variable retention harvest with RMZ thinning. Expansion factor used is 40.00 in Units #1, #3, Unit #2 RMZ thinning, and minor species in Unit #2; 62.50 used in Unit 2; 33.61 used in R/W. Sighting height is 4.5 feet. A total of 144 plots were taken.

FEES: 1. Purchaser shall furnish the State with a check made payable to Sierra Pacific Industries in the amount of \$5,318.00 on the day of sale for permit #55-089485, for right of way timber and road use.

TIMBER NOTICE OF SALE

2. Purchaser shall furnish the State with a check made payable to USFS in the amount of \$16,000.00 on the day of sale for permit #55-089523, for right of way timber and road use.
3. \$61,665.50 is due on day of sale. \$1.11 per ton is due upon removal. These are in addition to the bid price.

- SPECIAL REMARKS:**
1. A portion of the proposal consists of roadwork on roads which are on orphan road grades: NM-77 42+99 to 49+64 Orphan road; NM-77 56+74 to 63+20 Orphan road; NM-82 15+64 to 19+29 Orphan road; NM-9504 0+00 to 9+36 Orphan road.
 2. Intermediate supports are anticipated for this sale.
 3. Outer boundary of harvest area in RMZ thinning areas is demarcated with blue special management tags within the sale area.

Schedule B
Thinning Prescription

Thinning Prescription:

- Cut all red alder and bigleaf maple
- Cut western hemlock 8-12 inches dbh
- Cut Douglas-fir 8-12 inches dbh
- Cut Pacific silver fir 8-14 inches dbh

Retain all snags greater than or equal to 20 inches DBH and 20 feet tall, except where it cannot be accomplished safely. Five (5) of the designated conifer cut trees per acre, totaling 60 trees, from the largest DBH class, shall be felled towards the stream where feasible to remain as LWD. The CA will mark and the Purchaser shall fall. These trees shall be marked within 25 feet of the white timber sale boundary tags. (25 feet to 50 feet from the stream channel)

SPECIAL THINNING CONDITIONS:

Where the prescription would leave an opening greater than 50 feet in diameter, the purchaser must leave a conifer take tree from the largest diameter, largest crown class, best form, and undamaged. Species preference in order of importance: DF, WH and PSF

In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors or skid trails. These areas must be identified and agreed upon in advance with the Contract Administrator.

CABLE YARDING CORRIDORS:

When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. Following completion of yarding of each corridor, rub trees that do not meet take tree specifications may be left standing. It is not required to remove all leave trees from the 12-foot corridor.

Trees felled within the 25-foot inner core of stream RMZ's for corridors are to be left on ground, not yarded. These trees should be felled towards the stream where feasible.

GROUND YARDING CORRIDORS:

Corridors are limited to 14 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the corridor. Where possible corridors should be located in a manner to minimize the damage to, residual trees.

CERTIFICATION OF FALLERS AND YARDER OPERATORS – SEE CLAUSE H-011 OF THE CONTRACT.

The Contract Administrator and Faller/Harvester Operator will jointly review the thinning prescription criteria as outlined in Schedule B of the contract.

In conjunction with the Contract Administrator, the Faller/Harvester Operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process. Certification may be revoked at any time by Contract Administrator if Contract Administrator determines that the prescription is not being implemented properly.

AGREEMENT NO: 30-089634

AUCTION: May 29, 2013 starting at 10:00 a.m.,
Olympic Region Office, Forks, WA

COUNTY: Jefferson

SALE LOCATION: Sale located approximately 20 miles south of Forks, WA

**PRODUCTS SOLD
AND SALE AREA:**

All timber as described in Schedule C, bounded by timber sale boundary tags, the H-3100 Road, and the H-3700 Road in Unit 1; all timber as described in Schedule C, bounded by timber sale boundary tags and the H-3100 Road in Units 2 and 3; all timber bounded by right of way boundary tags, except that title to the timber does not pass to the Purchaser unless the road segments are actually constructed.

In no instance shall downed red cedar be removed. All timber that has been on the ground for five years or more shall be left undisturbed and not yarded. Five years is defined by more than 1.5 inches of sap rot. on part(s) of Sections 21, 23, 28 and 29 all in Township 27 North, Range 11 West, W.M., containing 92 acres, more or less.

CERTIFICATION: This sale is certified under the Sustainable Forestry Initiative® program Standard (cert no: BV-SFIS-US09000572)

ESTIMATED SALE VOLUMES AND QUALITY:

SEALED BID FORM

Sale Name _____ Agreement Number _____

_____ hereby submits the following bid for timber.
(Print full, legal company name)

_____ (Street address, City, State, Zip Code)

_____ (Phone Number)

Lump Sum Bid (Not Including Fees) \$ _____ **For Total Sale**

Weight Scale Sale Bid (Not Including Fees) \$ _____ / **Ton**

Scribner Scale Sale Bid (Not Including Fees) \$ _____ / **MBF**

BID DEPOSIT

Bid Deposit Amount: \$ _____

Bid Deposit Type:

- Cash, certified check, cashiers check, or money order
 Per Sale Bid Bond
 Statewide Bid Bond, Number _____

Within 30 days of confirmation date the successful bidder agrees to furnish Performance Security acceptable to the State in the amount specified on the Notice of Sale. Performance Security must guarantee performance of all provisions of the contract and payment of any damages caused by operations under the contract or resulting from the successful bidders noncompliance with any rule or law.

Bidder's Warranty and Bid Signature

By signing and submitting this bid as an offer to purchase forest products from the State, the Bidder hereby warrants to the State that they have had an opportunity to fully inspect the sale area and the forest products being sold. Bidder further warrants to the State that they enter this bid based upon their own judgments of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold. Bidder also warrants to the State that they enter this bid without any reliance upon the volume estimates, acreage, appraisals, pre-bid documentation, or any other representation by the Washington State Department of Natural Resources.

_____ Date _____
(Signature of Authorized Representative submitting this bid)

_____ (Print name and title of Authorized Representative submitting this bid)

Note: all sales are subject to confirmation by the Commissioner of Public Lands (Refer 79.15.120)

Instructions For Completing Sealed Bid Form

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks on bid form must be completed including the bid bond number if the bidder is relying upon a bid bond for bid deposit.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box before 10:00 a.m. on the day of auction at the location specified in the Timber Notice of Sale.
 - B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be on the bid bond and timber sale contract. The bid form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Mailed Bids

- A. Bids that are mailed are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BIDE NCLOSED". The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The Sealed Bid Form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope.
 - B. Bids that are mailed will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery. The DNR assumes no responsibility for any delays caused by any delivery service.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Initial Deposit:

Lump Sum Sales - Initial Deposit must equal 10% of the total bid submitted.
(25% if the bidder is a defaulter as defined under WAC 332-140-300)

Weight Scale Sales - Initial Deposit must equal 10% of the bid per ton multiplied by the total sale estimated tonnage. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Scribner MBF Scale Sales - Initial Deposit must equal 10% of the bid per MBF multiplied by the total sale MBF. (25% if the bidder is a defaulter as defined under WAC 332-140-300)
